SAYS the Summerside *Pioneer*: Last week, Mr. Geo. Hughes, of Charlottetown, purchased from Mr. W. Burrows, of this town, a "Dartmouth" filly, 18 months old, for which he paid $100. The animal is considered good value for the money. We understand that "Dartmouth" stock is going up rapidly of late.

The witness examined testified to the purchase of whiskey on the defendant's premises on Friday last. The case was adjourned until Monday next and a warrant issued for the arrest of the defendant. One of the two men who were fighting on the Square was fined $1 and the other $3.

THE Charlottetown Literary and Scientific Association holds its opening meeting for the winter session in the Caledonia Hall, Queen Street, to-morrow (Thursday) evening, at 8 o'clock. From the large number of members now joining it bids fair to have a brilliant season, and so it should, because the material and forces—both scientific, literary and mechanical—that we have amongst us and within available distance, when concentrated in such an institution, must result advantageously, not only to all its members who are industrious in the pursuit of knowledge, but to the public generally. The subject for to-morrow evening will be "Darwinism." Dr. Darwin's death in 1882, which terminated his great usefulness as a naturalist, was looked upon as a national calamity, and so it was. The doctrine of Evolution and Natural Selection, as it is called, which many of his disciples learn from his works, has been greatly perverted and overstrained. But he was neither atheist or agnostic; on the contrary, he always recognized what he called "the enobling belief in God." Mr. Francis Bain opens the subject to-morrow night. He ranks high both as a naturalist and geologist, and therefore is one of the best men in these Provinces to expose the weak points in evolution and natural selection. We hope to publish a full report of his paper.

Some Interesting Statistics.

A correspondent of an English paper, who has a liking for statistics, says that the people of the English metropolis in a year's time eat 500,000 oxen, 2,000,000 sheep, 200,000 calves, 300,000 swine, 8,000,000 heads of fowls, 500,000,000 pounds of fish, 500,000,000 pounds of oysters, 200,000 lobsters, some million tons of canned goods, no end of fruit and other stuff, and 50,000,000 bushels of wheat. It takes 200,000,000 quarts of beer to quench the common thirst. But more than this, they drink 10,000,000 quarts of rum and 56,000,000 quarts of wine. Taking out the water used for sprinkling, cooking and fountains, and the actual drinking supply is desperately small.
