ACROSS THE ISLAND

Island For Man's Service In Klonkond Recalled

By NEIL A. MATHESON, Pseudonym. I DIDN'T hear Pierre Berton when he was here—he's not one of my favorite people—but I'm told he referred to a Percy Reid who was associated with his father, Frank during the colorful Klondike Gold Rush days.

Lawlessness On U.S. Side

ON THE American side in places like Skagway, Alaska where thousands of miners landed "nobody was safe" but in Dawson, Canada across the Lynn Canal from Skagway, the Mounted were in law-abiding order.

German Spy Case Recalled

ONE OF the most interesting cases concerned a German spy in the First Great War, 1914-18, and it brought him to Charlottetown at one time.

Ira Brown Has New Book

MANY BOOKS are being written on the Island this year and one that came to my desk this week is by Ira M. Brown of Charlottetown and contains "Sketches of Little York".

Andrew Wells Has SPF Pigs

I SAT in this week on a conference of livestock men with a representative of the Connaught Laboratories, which is distributing under contract SPF pigs, animals that are taken from their dams by caesarian operation and are free from the diseases of Rhinitis and pneumonia that are two of the pests of the pig world.

Hungary Being Beautified, Conditions Said Improving

GDN GEN FRIDAY Hungarians are turning their capital into the most glittering in Central Europe, a position it held before the war and Communist domination. Things are getting better under the Communist regime, Richard O'Regan, Associated Press chief of bureau in West Germany, tells why in the following third of four articles on the situation in Eastern Europe.

By RICHARD O'REGAN, BUDAPEST (AP)—Hungarians love the good life and drop by drop they appear to be winning a little out of communism.

barometer to the political climate. Diplomats say Communist politics are more liberal in Hungary than elsewhere in the Soviet bloc. Hungary still has a one-party system. But 45 per cent of Parliament members are not party members.

FARM ACCIDENTS

The Hon. R. Hays is quite in order in pointing out to the public the rather disturbing record of accidents and fatalities in agriculture. Farming is one of the most dangerous of occupations.

BUTTER GAIN

Reaction by the large urban press to recent butter sales and reduction in the dairy surplus somewhat resembles that of the man who sees his mother-in-law drive the new Cadillac over the cliff.

NATIONAL MEETINGS

This week the Dairy Farmers of Canada are holding their semi-annual board meeting at Port Arthur known in that part of the country as the Lakehead.

REAL PROMISE

Both natives and visitors can hardly fail to be impressed with the prospect of bumper crops in practically all departments. Pasture and hay are terrific and now the grain crop is reaching the stage where it really shows promise of bumper prospects.

DON'T GAMBLE WITH YOUR LIVELIHOOD OR LIFE

SAFE FARMING IS A PRODUCTIVE FARM - CHECK IT AND OBSERVE SAFETY RULES AT ALL TIMES!

Be Wise ... Follow These Six Safety Suggestions:

- 1. Keep all equipment in good repair—know and use the safety rules in operating machinery on the farm and highways.
2. Treat animals with caution—always speak to an animal as it is being approached. A frightened animal can be deadly.
3. Eliminate all fire hazards around your farm—and be aware of fire dangers at all times. Don't smoke in barns!
4. Many accidents can be eliminated by keeping your farm clean and neat. Keep buildings in sound condition, too.
5. Be careful around water holes, wells, and lakes. Learn how to swim and never go out in or on water by yourself.
6. Learn the methods of first aid—keep a first aid kit—and always apply first aid promptly when an accident occurs.

MAKE SURE YOUR FAMILY KNOWS THESE SAFETY SUGGESTIONS, TOO!
