

TWO SHAKEN UP NEAR VERNON RIVER

Two residents of Montague were taken to Kings County Memorial Hospital following an accident about 12.30 Sunday afternoon when this 1949 Chevrolet apparently went out of control and ended up on its

side in the ditch about 200 yards east of Vernon River Church. The two occupants of the vehicle Alex Stewart and his 15-year-old son Kenny received a severe shaking up but are considered by hospital of-

ficials not to be in serious condition. For a short time the young lad was pinned beneath the vehicle but witnesses at the scene succeeded in releasing the child before RCMP from Charlottetown arrived.

HOW YOUR LIVER BILE BREAKS DOWN FAT

Laboratory tests have now proved that liver bile emulsifies fat... actually breaks it down. It is an established medical fact that when liver bile is added to fatty solids, the fat is broken down and forms a smooth, easy-flowing mix.

In your body, precious liver bile helps break down fat the same way. Many foods reach the digestive tract as undigested fatty solids. Your golden liver bile helps break down this fat... unlocks it... for easier and more complete digestion.
