You cant go ALL-OUT If you feel ALL-IN
These days most people work under pressure, worry more, sleep less. This strain on body and brain makes physical fitness easier to lose... have to regain. Today's tense living, lowered resistance, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest, that "fired-out" heavy-headed feeling often follow. That's the time to take DODD'S KIDNEY PILLS. DODD'S stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Ask for DODD'S KIDNEY PILLS at any drug counter.

Opening lead—queen of hearts.

The safety play assumes so many different forms that it is much better to become familiar with the reasons behind each safety play than it is to attempt to memorize the many forms. The hand shown serves to illustrate the type of thinking declarer uses when he wants to make absolutely sure of his contract. South wins the heart lead and notes it is necessary to bring home the diamond suit if the no-trump contract is to be made. He is not especially concerned about making all seven diamond tricks—he should be glad to take six of them to assure his con-

tract. It would be foolhardy to lead a diamond to the ace and follow with the king in hope that the adverse cards are so divided that no diamond trick is lost. There would be too much danger one opponent was dealt three diamonds to the queen, and if this turned out to be the case, the whole hand would collapse. Rather than do this, it is better to lead a diamond and play dummy's jack, because, regardless of which opponent has the Q-x-x of diamonds, at least six tricks in the suit become assured.

Although it must be granted this method is an improvement over the rash play of going right up with the ace of diamonds, and while the first round finesse is a form of safety play, the fact remains there is a still better play. What declarer must also do, in addition to guarding against a 3-1 break of the suit, is to make allowance for the possibility of a 4-0 break.

Therefore, when he leads a diamond at trick two and West plays the eight, declarer should duck completely, thereby guaranteeing himself six diamond tricks. If East follows suit, everything is still under control. The first round diamond finesse can be called a safety play, but allowing West's eight to win is the super-safety play.

is LONGFELLOW
One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
