

and hailed with enthusiastic bursts of applause. A suitable answer from the Attorney General to the same, was likewise read.

DEAR MR. ATTORNEY GENERAL—

I regret extremely that Sir Alexander and I cannot be present at the grand Demonstration of the Sons of Temperance, but perhaps you will kindly express to them our united wishes that they may have all the pleasure they anticipate from their annual Festival. As a decided well wisher to the cause of Temperance in general, and to this society in particular, I have to request you to present to them in my name Five Pounds, as a small mark of my approbation, with my most earnest hopes that their numbers may daily increase, bringing joy and peace into many a home where now sorrow and strife reign.

I have been much interested of late in this fraternity by the pleasing accounts I have learned of its success from Mr. Butcher, and a very intelligent man in the employment of Mr. Butcher's son, of the name of Fielding.

Believe me, very truly yours,

M. BANNERMAN.

Government House,  
20th June, 1851.

TO THE ELECTORS OF THE SECOND ELECTORAL DISTRICT OF KING'S COUNTY.

GENTLEMEN—

His Excellency the Lieutenant Governor in Council having been this day pleased to appoint me to the office of Queen's Printer, the trust with which I have been long honoured by you has, therefore, returned to your hands.

In justice to myself I may state, that the appointment was procured by no entreaty or solicitation upon my part. It has been bestowed, I presume, as an acknowledgment of my humble exertions—in conjunction with those of my fellow labourers in the Legislature—to obtain for the inhabitants of this Colony that enlarged measure of Political liberty, and that truly British controul over the administration of their public affairs, which are the boast and birth right of Englishmen, and the concession of which to the other British American Colonies has been attended with the happiest results.

Before many weeks you will again be called upon to exercise your elective franchise, in conformity with the law; and in doing so, you will have a suitable opportunity for recording your opinions either in favour of, or against, the principles upon which your Government is now conducted. As I purpose to present myself for re-election, you will likewise have an opportunity of deciding upon the merits or demerits of my past conduct; and your votes will enable me to determine whether I have pursued the course of an honest, faithful and independent representative, or otherwise.

I have, indeed, the presumption to think, that I have served you to the full extent of my ability—that I have endeavoured to meet your just wishes in regard to the local wants of the District; and, taking my own long-established and well-known political principles for my guidance in the discussion and settlement of public questions, I have been induced to believe that those principles happily met with your entire approbation.

Grateful as I am to his Excellency the Lieutenant Governor for my appointment to the office of Queen's Printer, and to him and to the Party with which I have the honour to associate, for my elevation to a seat in the Executive Council,—yet the position in which you placed me, on two occasions, as one of your Representatives in Parliament, has been to me far more estimable than any honor or emolument which our Queen or Her Representative could confer; and I must confess, that it is with no little anxiety I look forward to that approaching period, when I trust to be restored to that position—when our mutual confidence and good will shall be re-established—and my debt of gratitude to you be materially augmented.

I have the honor to be,

Gentlemen,

Your very obedient,

Humble Servant,

EDWARD WHELAN.

Notice to our Subscribers.

Our Paper will next week appear under the style and title of the ROYAL GAZETTE. We shall take that occasion to indulge in a somewhat lengthy gossip with our old friends and subscribers.

UNFORTUNATE COLLISION.

We regret to learn that the Steamer St. John, coming down the river from Fredericton, and the new Steamer Union, bound up, came in collision at about one o'clock on Tuesday morning, near Oak Point, the Union striking the St. John, bow on, with great force, a little forward of the paddle box, tearing away a large portion of the St. John's side and deck.—We have not learned what damage the Union sustained, if any, as she has proceeded on her upward voyage. No person was injured on board the St. John, but we learn that two cows and two calves on board of her were knocked overboard by the violence of the concussion, and lost.—The St. John came through the Falls this morning, in order to ascertain the damage and be repaired. The repairs will probably occupy some weeks. The expense and loss of time, at this time of the year, will, we fear, bear heavy on the proprietors.—Observer.

WHEREAS a report has been put in circulation by an evil disposed person at St. Peter's Bay, to the effect that the well-known Horse CHAMPION now owned by me, has failed in every instance to produce a Colt.—Now this is to notify the public in that neighborhood and every where else that the said report is a base and malicious fabrication—got up by its originator with the view of imposing his own horse upon the public, and can be refuted by the Hon.
