TORONTO

TORONTO (CP)—The stock market was moderately higher Wednesday at the close after profit-taking had reduced many of the gains recorded earlier in the session.

Trading on mines was relatively light with the exception of two stocks. Wiltsey, which was underwritten, lost one cent at 26 cents amid a turnover of nearly 150,000 shares. Sand River gained seven cents at 22 cents with a total volume of almost 140,000 shares.

Senior base metals were fractionally higher while uranium was strong. Gunnar and Denison each gained 1/4 and Stanleigh added 25 cents at \$4.50. Other lower-priced mines were firm in a 20-cent range.

Western oils were the hardest hit by profit-taking, which cut into the strong gains recorded Tuesday. There were a few fractional winners among high-priced issues while lower-priced stocks were mixed to higher in a 15-cent range.

Index gains: Industrials 83 to 416.00, Golds 1.76 to 76.76; base metals 1.33 to 174.33; western oils 06 to 169.00.
