Old Home Week in Charlottetown moves into its fourth day today with the judging of Holstein, Jersey, Shorthorn and Angus cattle in the coliseum.

Although no figures could be obtained, the largest crowd since the beginning of the show possibly attended last night as moving space on the grounds was at a premium.

The big fair continues until Saturday with Friday being perhaps the most eventful day of the week. The day gets off with the Gold Cup and Saucer parade and band competition at 10 a.m.

Other events of the day include a band concert at 2 p.m.; a precision drill display by Fredericton Air Cadet Band at 7.30 p.m. and the Gold Cup and Saucer race at the Charlottetown Driving Park at 8.30 p.m.

Hereford Breeders Booth Promoting Beef And Steaks

Attracting wide attention at this year's Old Home Week festivities is the coliseum booth of the Prince Edward Island Hereford Breeders Association which is headed by Edwin A. MacRae.

Commenting on the purpose of the booth, Mr. MacRae who is also president of the Maritime Hereford Breeders, stated that "We are, of course, promoting Herefords as the dual beef breed, but we are also promoting beef as a nutritious as well as a delicious food".

The Hereford breeders have taken pains to prove this latter point. Mrs. Helen Herring, well known TV personality, is in the booth twice daily broiling "give-away" steaks on a infrared burner, courtesy Arnfast Propane Ltd.

Also on display in the Hereford breeders booth are the grand champion trophy, as well as the premier breeder and premier exhibitor banners which will be presented on Friday at the end of the show.

Another aspect of the Hereford breeders contribution to the show is the large number of animals being shown and judged on Friday from such well known herds as Fulton Sanderson and Sons, Edwin and Sonia MacRae, Lewis and Miller Sanderson, Clark Johnston, McKinley Bros., Alton Rodd and Sons, Gordon Matheson, Everett Holmes and Son, Daniel MacLeod, and Leigh Semple.

Navy Destroyers Due Here Today

Two Royal Canadian Navy destroyers, the Iroquois and Huron, are due in port here this morning to take part in Old Home Week festivities in general and Friday's Gold Cup and Saucer Parade in particular.

Today the commanding officers of the two ships will make a round of courtesy calls on Mayor A. Walthen Gaudet, Lieutenant-Governor F. Walter Hyndman and Acting Premier Andrew B. MacRae.

Tomorrow a group of seamen from the two ships — about 100 sailors — will form one of the marching units in the parade.

Between them the ships, both tribal class destroyers, carry 400 officers and men. 200 on each ship.

Ship's officers will also take part in several receptions arranged both in connection with their visit and the parade. On Saturday local dignitaries will be invited aboard ship for a reception.

Capt. Gordon C. Edwards is commander of the Iroquois and commander of the Third Canadian Escort Squadron of which the ships form a part. The Huron is under the command of Commander Wylie C Spicer.

Both officers are naval veterans having served in the Second World War. Capt. Edwards served aboard the Royal Navy aircraft carriers Unicorn and Striker.

Commander Spicer survived two torpedoings and the sinking of cruiser HMS York at Crete. He was aboard the cruiser Liverpool and the battleship Nelson when they were torpedoed.

The destroyers will leave port on Monday.

New Evidence Secured Meteorites Hit Quebec

By JOHN E. BIRD

OTTAWA (CP) —New evidence has been collected that three craters in northern Quebec may have been carved by meteorites which plunged to earth as much as 2,000,000,000 years ago.

The data was gathered by scientists of the Dominion Observatory and the Geological Survey of Canada during recent visits to the Clearwater Lake and New Quebec craters.

Two craters form Clearwater Lake, located some 800 miles north of Ottawa and 50 miles east of Richmond Gulf on the east coast of Hudson Bay. One is 20 miles in diameter and the other 14 miles.

The New Quebec crater, two miles across, is in northern Quebec about 130 miles south of Hudson Strait. It also forms a small lake.

Michael Robert Dence, scientific officer with the Dominion Observatory, said Wednesday in an interview studies of the Clearwater craters tend to disprove earlier theories that they may have had a volcanic origin.

FIND SHATTERED ROCKS

Mr. Dence, member of a party which visited the craters for 10 days, said shattered rocks of the type found in the neighboring countryside were found on the shorelines of some of the 11 islands which dot the larger lake. The theory is that the shattered rocks were created when a meteorite struck.

Other material believed to have been formed by the impact of a meteorite also was found. About a half a ton of shattered rocks and other material now is on its way to Ottawa for detailed examination.

Tearing Down Decorations Results In Fines To Sailors

Pleading guilty to a charge of assault, Kenneth Stephen Power, Halifax, N.S., an employee of Bill Lynch's Shows, was fined $50 and costs or 20 days in jail, by Magistrate A.J. Haslam in city police court yesterday.

Power was charged with assaulting A. Menton Whitlock by slapping him on the face with his hand and using abusive language. The incident is said to have occurred in Ment's Restaurant at about 4.40 a.m. yesterday.

Two members of the crew of a Department of Transport ship, now in Charlottetown, William J. Boland, St. John's Newfoundland, and Lorenzo Victor Caterini, Saint John, N.B., were each fined $20 and costs or 10 days, on charges of damaging property.

The evidence of Sgt. Lloyd Wakelin, revealed that the two accused had cut down a string of the city's decorative flags on Queen Street. When arrested each of the accused was in possession of a flag which they said they had taken for a souvenir.

Of two persons charged with being drunk and incapable, one was fined $20 and costs or 10 days and the other was remanded until Aug. 22, without bail.
