DISCIPLES OF CHRIST meet in New Church House, every Sunday at 10.30 a. m. and 6.30 p. m. Mr. J. A. Falgater, Preacher.

Summerside Notes.

SUMMERSIDE, May 1.

A valuable mare was stolen from the stable of Mr. Thomas Schurman, Wilnot Creek, on Tuesday night last. Mr. Schurman tracked the animal towards this town, and found her with a bridle on in a field a short distance from here.

Capt. Peters, in the schooner "Carrier Dove," made two unsuccessful attempts to reach Shediac this week—one on Monday and the other on Wednesday. He had to put back, owing to the large fields of ice drifting about outside.

A schooner was seen stuck fast in the ice off the harbor yesterday.

Mr. Jeremiah McArthur is a candidate for civic honors at the election which takes place on May 7th, to fill the vacant seat in the Town Council. Mr. McArthur has been waiting patiently for this opportunity to bring himself prominently before the people, and he has succeeded in doing so by publishing a card to the electors of Summerside. In this respect, the card will speak for itself. For the benefit of the readers of the EXAMINER, we quote the following, as his platform:—

1st.—Reconstruction of the Police Force, reducing it one half.

2nd.—Police men also to do the duty of Wharfinger, thereby saving the commission paid to that official.

3rd.—Compel the man in charge of roads and pumps to attend to the Fire Engines, and act as policeman in cases of emergency.

4th.—Amalgamate the present offices of Town Clerk and Stipendiary Magistrate into one department, thereby saving probably four hundred dollars per annum.

5th.—The \$9 cents per head of the population of Summerside, paid by the Dominion Government, should be handed over to the Town, instead of to the Local Government, also our proportion of the Island's share of the Fishery Award.

I am opposed to a member of the School Board being at the same time agent for the proprietors of the heating apparatus for the new school; in short, I shall oppose to the best of my ability, jobbery and corruption in all its forms.

It will be seen by the above that Mr. McArthur, if elected, has in view the object of changing the whole aspect of civic affairs.

GOING TO RUIN.—Here is an example of the way in which the United States is going to ruin:—

When an American manufacturer sends out in a single shipment nine large locomotives for the Government of New South Wales, as was done last week, observes the Boston Commercial Bulletin, it isn't to be wondered at that English manufacturers are discouraged. The engines alluded to were made at the Baldwin Locomotive Works, Philadelphia, were seventeen more to be made, and sent to Australia about the 1st of May.

Several hundred thousand feet of lumber were swept out of the Connecticut river the other day by a sudden rise in the water. The loss, \$50,000 to \$75,000, will fall principally on Messrs. Fry & Perry, of Maine.

The Danger Signal.

VOTERS, ATTENTION!

To the Editor of the Examiner.

Sir,—From remarks that have fallen from members of the House of Assembly, I am led to suspect that the practice of voting by ballot is likely to be abolished.

If, in their political prosperity, the followers of the present Government are rash enough to vote for such a retrograde movement, then, surely, the handwriting on the wall becomes visible; and the hon. members supporting such a movement will, in all probability, fall deeper than the members of the late Davies faction.

There is too much expense connected with elections. Retrenchment must come in some other way—not by the suppression of the ballot. Stricter supervision of the printing expenses, less outlay in stationery, one clerk instead of two at the polling stations, a register of votes made once in ten years—leaving room for insertion of and erasing of names; in these is a great field for retrenchment.

To take away the ballot would be to outrage the people; and woe to the Government that has brought down upon itself the anger of their outraged constituents.

A LIBERAL-CONSERVATIVE VOTER.
Charlottetown, May 2, 1879.

Miscellaneous.

London tailors take back from servants their liveries in the fall, sending them back as new in the spring, charging the master over again and dividing the money with the servants.

General Todleben, the hero of Sebastopol, is in better favor with the Czar than he was before the recent war. Although but little more than sixty years old, he was long considered an old man. His natural disposition and his severe studies in engineering made him grave and unpopular.

The new French cable company will have their line working in 1880 if no accident takes place. The prices of cable messages will, it is expected, be soon placed at about twenty-five cents per word. The capital of the present Anglo-American cable company is more than forty millions of dollars.

The Grand Orange Lodge of British America will assemble at Ottawa on the 23rd of July this year, instead of as heretofore on the 19th of June. The Grand Black Chapter of B. A. will also meet at the same place the day previous. A large number of delegates to both associations are expected from the old country.

A sad shooting affray occurred at the Metropolitan Hotel, Halifax, on Wednesday, when Captain George Greening shot his wife because she refused to live with him. He claims that she has a very violent temper, and her general conduct has been such that it has driven him to do the desperate deed which he attempted. She, on the other hand, affirms that he has entirely to blame; that he drinks and ill uses her to such an extent that it was impossible for her any longer to live with him. It is thought she will recover from the effects of the bullet, which passed through her right breast, if inflammation does not set in.

The increase of the Russian army by 150 battalions, at this time when no foreign war is contemplated, will serve to show the great alarm that must prevail on the part of the Russian Government. These additional troops, of course, must be intended to keep down the Nihilists. But the remark made by the witty Frenchman, that you can do anything with a bayonet, except sit on it, is true of Russia. The Czar cannot maintain his tottering throne on bayonets.

The Sporting Life says:—"It is reported that Boyd has determined not to row any more matches. If this is correct, the match of the 16th of June, for which Elliott is now actively training, will be necessarily with Hanlan. The Sportsman says that the continuance of the cold easterly winds greatly inconveniences both Hawdon and Hanlan. The former has a severe attack of influenza. Hanlan did not go on the water yesterday, in consequence of stomach disorders."

The Duke of Norfolk has subscribed £20,000 towards the erection of a new church on the site of the present Oratory at Brompton. The estimated cost of the new structure, which will be on a splendid scale, is £75,000—other members of the congregation, which is the most fashionable Roman Catholic one in London, subscribing £8,000, and the Fathers of the Oratory, out of their private incomes, £25,000.

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies such as Pneumonia, Hemorrhages and Lung troubles, when an immediate relief can be so readily attained. Boschee's German Syrup has gained the largest sale in the world for the cure of Coughs, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.
