Miss Joan Greill was maid of honor. She wore a blue and white sylvan dress with matching hat, and carried a colonial bouquet of blue carnations.

### Are Most Marriages Aimed At Parenthood?

Dear Mary Haworth: In a recent column you again expressed the belief of one particular Christian church that the primary purpose of marriage is the begetting of children.

Is it? Hardly! Marriage comes about simply by the process of falling in love. A boy and girl in love do not regard each other as breeding stock; the very thought would seem repugnant. They HOPE to have children.

It would seem logical to any intelligent person that the prime purpose of marriage is to establish a happy union between man and wife; and, secondly, to add further happiness to that union with children.

### SCORNS STUPIDITY

The marriage ceremony does not guarantee the union to be happy. Sometimes it takes a bit of doing to steer the marriage out of rough channels. How pitiful for children to be born into an unhappy situation! And how much better for them to be born into a marriage that has, if necessary, managed to overcome early difficulties.

Your childless correspondent C.D. (July 16)—held at arm's length by her husband—deserves very little consideration. She is too stupid. To put up with that for 15 years, and then merely complain, is incredible.

I have had long association with the medical profession; and except in pathological cases, the situation she describes is most often the woman's fault. Your correspondent takes none of the blame on herself. I sure would like to hear the husband's side of that story! Severely. R.D.

### FIGHTING SHADOWS

Dear R.D.: Aren't you swinging at shadows cast by yourself? You seem to have a bias towards twisting the meaning of views that disturb certain of your fixations; and then attacking your false version, rather than the true version of the disputed commentary.

My precise statement, with which you quibble, was this: "The fundamental rights and purposes of marriage are two: First, to produce and nourish new life, in a continuing sponsorship. Second, to afford man and wife the emotional sustenance of wholesome, exclusive, significant sex comradeship—as a means of expressing and increasing mutual love, which (love) is the chief source of strength, consolation and stability in the married state."

Even in secular society, leaving religion out of it, a marriage is liable to be adjudged fraudulent, and may be set aside by due process of law, if either spouse—man or wife—willfully denies the other the implicit conjugal right of parenthood, when the "injured innocent" party truly wants children. The conjugal right to sex consolation has equal (but not paramount) status before the

### WILL BOYCOTT GOODS

NAIROBI, Kenya (Reuters)—African nationalists from East and Central Africa decided Thursday to boycott all South African goods. The full boycott on South African goods and on goods going into the union—will begin Nov. 1. Trade unions and labor organizations in Pan-African movement countries will be asked to make plans for implementing a boycott on the handling of all South African goods and importers will be asked to help in imposing economic sanctions "for South Africa's gross abuse of human rights."

### Al Fresco Dining Adds To Summertime Fun

Tray breakfasts on terrace or porch; sandwich, salad, fruit and beverage basket luncheons in the backyard, on the beach or at picnic grounds; dinner in any outdoor dining area you can contrive adds to enjoyable living in summer. Assemble foods that can be prepared ahead; paper cups, plates, sauce dishes and paper table "linen." Casual meals to be sure, but well-planned, nicely served and not "thrown together."

If your home is an older house, you probably have a "piazza." If you've just bought a new home, you may also have a porch, for this long-neglected adjunct to happy, efficient home living, is back in fashion. Nothing is more delightful and relaxing than porch meals.

If possible, build a regular cupboard to hold the regular accessories for serving outdoor meals, such as woven straw or plastic table mats, eating utensils, salts and peppers, an electric food warmer, one-unit stove or radiant heat tray.

For dinner, plan menus with one hot course; all other foods can be cold, except possibly instant coffee or tea that call for hot water.

Place all foods together on the kitchen wheel-tray and roll them to the dining area. Place the hot foods, covered and still in their shining cookware utensils, on the radiant heat tray. Set out the opening course and in the twilight of a mid-summer evening enjoy a relaxing meal.

Afterwards, pile everything neatly on the wheel-tray. Back in the kitchen, discard the paperware; wash and steam-dry (don't towel-wipe) the eating utensils and cookware and dishes are done.

HOW YOUR LIVER BILE BREAKS DOWN FAT

Laboratory tests have now proved that liver bile emulsifies fat... actually breaks it down. It is an established medical fact that when liver bile is added to fatty solids, the fat is broken down and forms a smooth, easy-flowing mix.

In your body, precious liver bile helps break down fat the same way. Many foods reach the digestive tract as undigested fatty solids. Your golden liver bile helps break down this fat... unblocks it... for easier and more complete digestion.

Cartier's Little Liver Pills exclusive formula of natural, vegetable ingredients relieves irregularity gently and effectively. At the same time, it actually improves the flow of liver bile needed to break down fat in your body.

So when you feel sluggish, headachy, nervous and need a laxative, get Cartier's Little Liver Pills. Remember, Cartier's not only relieves irregularity, but actually improves the flow of liver bile needed to break down fat.
