NEW Firestone SAFI-TUBELESS TIRES

AT NO EXTRA COST!

35% Safer!

The new 1955 cars will headline many new features, but none of them will be more important to your safety, your comfort or your pocketbook than tubeless tires as standard equipment at NO EXTRA COST! This great new tire — completely new in design and construction — sets entirely new standards of safety, riding comfort, mileage and silence.

Automotive Engineers Acclaim Its Many New Features

When the new Firestone DeLuxe Champion Tubeless Tire was first offered to car manufacturers, they subjected it to their most severe and exhaustive tests. And this new tire passed every test with performance far beyond all expectations. They found it ran quietly and refused to squeal on the sharpest turns; took the danger out of blowouts; abolished roadside delays and provided riding comfort and steering ease never before possible.

You Can Have This Great New Tire On Your New 1955 Car or On Your Present Car

When you buy a new model car of any make, you can have it delivered on new Firestone DeLuxe Champion Tubeless Tires. Or, if you continue to drive your present car, you can have these new tires put on it at no extra cost... no special rims are needed. See your nearby Firestone Dealer for complete information.

PACKED WITH NEW FEATURES FOR 4-WAY SAFETY

NEW SILENT SAFI-GRIP TREAD runs quietly and refuses to squeal on even the sharpest turns. It gives greater protection against skidding and greater traction than any tire ever before offered. And its revolutionary new design makes it a real champion for long, trouble-free mileage.

SEALS PUNCTURES AGAINST LOSS OF AIR. If a nail or other sharp object should penetrate the extra-tough tread and cord body, the SAFI-LINER prevents loss of air, minimizing the danger and annoyance of punctures. Most likely you'll never know you have a puncture... and there's no need to stop and change the tire.

TAKES THE DANGER OUT OF BLOWOUTS. The new SAFI-DIPPED CORD BODY and the new SAFI-LINER and tubeless construction make this tire extra strong and takes the danger out of blowouts. Damage which might cause an ordinary tire to blow out becomes as harmless as a slow leak.

NEVER BEFORE SUCH RIDING COMFORT... SUCH STEERING EASE. You'll immediately notice its sensational riding comfort and steering ease. It absorbs bumps and road shocks and provides a super-soft cushion of rubber and air which smooths out even the roughest roads. Extra-tough CURB-GUARD which protects white sidewalls.

INSTALL A SET ON YOUR PRESENT CAR... NO SPECIAL RIMS NEEDED!
