Grain

WINNIPEG, March 13— (CP)—Coarse grain futures trading showed a firm trend generally on Winnipeg Grain Exchange today.

Shippers were fair buyers of oats. Offerings, in the form of hedging sales, were light and well absorbed.

Barley came in for fair-scale buying by houses with shipping and export connections. Rye trades were mostly on local account.

Some 435,000 bushels of Canadian wheat were allocated for export—400,000 bushels to the United Kingdom and 35,000 to the Republic of Ireland.

Class two wheat prices were unchanged.

Closing Futures:—

Nickel Has Good Year

International Nickel earned $2.08 a share on common in 1949 against $2.55 in 1948 and $2.16 in 1947. Reduction in net earnings due to increased costs, lower midyear demand for nickel in United States and lower prices for copper and platinum metals, Chairman Mr. Robert C. Stanley and president Mr. John F. Thompson estimate capital expenditures for 1950 at $22,000,000. Major items: To prepare for expanded underground mining; to finish construction of plant and equipment for oxygen flash smelting of copper concentrates, and to continue to provide more employee housing. Proven ore reserves increase. Recovery in Company's business during latter part of 1949 has continued into 1950.

The report of the International Nickel Company of Canada, Limited and subsidiaries for the year ended December 31, 1949, issued by Mr. Robert C. Stanley, chairman of the Board of Directors, and Mr. John F. Thompson, President, shows net earnings in terms of U. S. currency of $32,252,314, after all charges, depreciation, depletion, taxes, etc., equivalent, after preferred dividends, to $2.08 per share on the common stock.

This compares with $39,108,404, or $2.55 a common share, in the year ended December 31, 1948, and $33,503,466, or $2.16 a share on common, reported for the year 1947.

In concluding the report to shareholders, Chairman Stanley and President Thompson said: "The year under review started with a pattern of good commercial activity, followed by a recession of several months duration and a recovery during the latter part of the year which has continued into 1950. Our company's business is so dependent on general industrial activity and political developments in the various countries which we serve that to forecast the company's future for this year, 1950, would imply an attempt to predict the trend of world affairs.

"As we change from a seller"s market to a buyer's market, it is a satisfaction to know that we are well prepared to meet this great difference in our metal business. We have a well co-ordinated organization for operations, sales and development and research, which, together with our publicity programme and our Continental Information Bureaux, stands prepared to develop both our new and our old markets for the many products of International Nickel Company."
