

**FACT:** The elements oxygen and hydrogen are 96.5% of ocean water. The other 3.5% is dissolved elements, such as chlorine, sodium, and other salts.

**OPINION:** I'm a conservationist. I only drink water that comes from my own glands.

**FACT:** About 97% of all of the Earth's water is saltwater.

**OPINION:** 97% of Charlottetown's water isn't fit to piss in.

**FACT:** The oceans cover about 71% of Earth's surface.

**OPINION:** Poppa Shine cover about 71% of Collective Soul's songs.

**FACT:** The thermocline is an ocean zone in which the temperature drops very rapidly. It is usually found at around 300 to 800 meters deep, between the relatively warm surface zone and the cold deep zone.

**OPINION:** I ain't swimming in no thermocline. Imagine what that kind of temperature drop would do to your nads.

**FACT:** The thermocline blocks sonar, so it is a favorite hiding place of submarines. The temperature of most ocean water is about 39 degrees Fahrenheit (4 degrees Celsius), which is just above freezing!

**OPINION:** When I play hide-and-go-seek, my favorite hiding place is Don Diego's Tacos. Nobody would ever think to look there.

**FACT:** In 1955, *Mighty Mouse Playhouse* debuted on TV, beginning the concept of animated kids' shows on Saturday mornings.

**OPINION:** *Bleu Nuit* was the beginning of naked French girls on Saturday night TV.

**FACT:** The elephant shrew is a tiny animal only a few inches long that is the only mammal that never closes its eyes.

**OPINION:** Don't undress in front of an elephant shrew. It never closes its eyes, and it will probably laugh at your tiny pecker.

**FACT:** In 1981, a scientific study showed that exposure to disco music caused mice to become homosexual.

**OPINION:** I hope modern scientists are close to discovering the effect of the "Macarena" on monkeys.

**FACT:** Wine can be made from onions.

**OPINION:** If you really want to impress the ladies, offer them a 40 of onion juice.

**FACT:** In 1975, a scientific study reported the discovery of electrical communication between two containers of yogurt.

**OPINION:** Knock! Knock! *Whos there?* Yogurt. *Yogurt who?* Yo, Gurt! Where the fuck is my banana, beotch?

**FACT:** The average number of cats in U.S. households is 2.2.

**OPINION:** The average number of cats in Snoop Doggy Dogg's house is nine trizay.

**FACT:** In 1983, a cat accidentally shot its owner when it jumped on a loaded handgun that was lying on a coffee table.

**OPINION:** If that was Snoop Doggy Dogg's cat, the little fucker would either be dead, or rolling with his posse during drive-bys.

**FACT:** Hamsters no longer exist in the wild. All of the pet hamsters in the world are descended from a single animal (female) that was captured in Siberia in 1930.

**OPINION:** That's a lot of fucking for one hamster.

**FACT:** A scientific study has shown that for previously inactive adults, for each mile walked, their life is lengthened by 21 minutes. The average out-of-shape adult takes more than 21 minutes to walk one mile.

**OPINION:** For every 21 minutes spent watching Spin City, out-of-shape adults lose 21 minutes of their lives.

**FACT:** Every year, about 8,000 people are injured by musical instruments.

**OPINION:** Streetgangs that pack oboes get static from the police 24-7.

**FACT:** The odds are one in 20,000 for a fatal fall for

rock climbers.

**OPINION:** The odds one in 20,000 that a yuppie who wears rock climbing clothes has ever climbed a rock.

**FACT:** The material used in the non-stick surfaces of pots and pans can break off and contaminate the food you eat.

**OPINION:** The material used to stick Post It notes tastes like a bit like Scotch tape, but it's a bit more exotic, and yellow.

**FACT:** The first home air-freshener was developed to control odors in the lion house of the Bronx Zoo.

**OPINION:** Pictou smells like the Bronx Zoo's shit house.

**FACT:** In 1919, a deodorant company first came up with the concept of "B.O." during a successful ad campaign.

**OPINION:** Enigizer's ads with that Australian guy that said "Oi" all the time was the first campaign that made people think they'd smell bad if they *used* the product.

**FACT:** In 1956, Bette Nesmith Graham created Liquid Paper to fix her typing mistakes. Her son, Michael Nesmith, was one of the original Monkees.

**OPINION:** After the Monkees were formed, Bette Nesmith soon realized that Liquid Paper can't fix every mistake.

**FACT:** On some of the islands in the Pacific, locals favor a special delicacy: spam sushi.

**OPINION:** Spam sushi sounds disgusting, but I'm sure it's not as bad as Jello Pudding Pops.

**FACT:** An island in the Pacific Ocean has a population of cats that are all completely black.

**OPINION:** Snoop Doggy Dogg rolls with a white cat named Rease's Pieces, and he has a ferret named Skittles.

**FACT:** Wrigley's found that when the economy was in a slump, people chewed more gum.

**OPINION:** When the economy is good, less gum is chewed because more people can afford to chew nuggets of gold and iron ore instead.

**FACT:** If an alligator is turned upside down, it will pass out.

**OPINION:** That's the best time to tickle one.
