U.S. Accord Seen On Macmillan Sounding Out DeGaulle's Policies

WASHINGTON (CP) — Prime Minister Macmillan will probably go to Paris at the end of June or the beginning of July to see Premier Charles de Gaulle, informed sources said Monday.
Although no firm date has been set, the visit to Paris has been agreed on in principle, the sources said.
Macmillan was expected to discuss the matter in talks with President Eisenhower and State Secretary Dulles that began this afternoon.
Relations with France was an important item on the list of subjects being dealt with in the informal exchanges between the two leaders.
It was understood the task of sounding out Premier de Gaulle on France's future foreign policy would probably be left to Macmillan rather than an invitation being extended to the premier to come to Washington at this time.
Eisenhower and Macmillan were in high spirits, laughing and swapping anecdotes, as they emerged from a 10-minute chat in the president's office.
They were reported to have talked about U.S. missile bases in Britain and sharing of atomic information.
Flanking Eisenhower and Dulles at the first of three days of talks were state department aides and Lewis L. Strauss, retiring chairman of the U.S. Atomic Energy Commission.
Macmillan brought four help-

(Continued from page 1)
At the suggestion of Councilor Gaudet the amendment was left in the committee stage and referred to the Town Planning Committee for recommendation.
Just before the Council meeting adjourned Mayor Johnston informed the Council that "full evidence" had not yet been submitted with reference to the recent theft at City Hall, and that the evidence gathered so far failed to show what person or persons had committed the crime.
Further report on this matter could be expected in a few weeks His Worship added.
WELFARE REPORT
Delivering his first report as chairman the newly-constituted Welfare Committee, Councilor Earle C. Baker disclosed that the Provincial government had paid over to the City an additional \$2,623.37, representing 25 percent additional assistance retroactive to April 1, 1957.
Of this amount the Catholic Welfare Bureau would be paid the sum of \$1,579.58 and the corresponding Protestant Agency \$1,043.79, Councilor Baker noted, adding that these amounts of arrears had been determined by the City auditors.
Councilor Baker then introduced a resolution withdrawing and cancelling the resolution of November 12th, 1957, which indicated Council's intention to terminate the existing agreements between the City and the two Welfare Bureaus.
The resolution also provided that such agreements be now "reinstated, ratified and confirmed," and further provided that the City's share be 25 percent of the "allowable Welfare claims approved" but not to ex-
