How an Ontario Teacher Regained Good Health

"I am a school teacher by profession," says Mr. James R. Thompson, R. R. No. 1, Centralia, Ont., "when I started school teaching I was in very poor health, I suffered a nervous breakdown brought on by overwork and no relaxation. I was unable to think to act, or even to eat properly. Quite little physical sensations were continually running up and down my back, my arms and my legs. I was so many times assuming that I was fairly paralyzed, my head often my heart wasumping like a trip hammer. I determined to consult my family doctor, and he immediately put me under orders. I had to give up my school and return home in order to recuperate. My lost health, I think was in chief due to my nervous system. I tried to get my mind and I drank quinine, but it did not build me up to my normal condition—something was missing; something my system was calling for, better blood. One day, when I picked up a newspaper, I came across an advertisement of Dr. Williams' Pink Pills, suggesting just what was needed in my case—new, rich red blood. I immediately sent for a box, and when the doctor visited me, I told him I had decided to try Dr. Williams' Pink Pills and he seemed satisfied. By the time my box was nearly done, and I determined to get another, by the time I had finished, this I was gradually coming back to normal. My strength was returning, I could sit and walk without strain. For the next few weeks I continued to take the pills, and they were working wonders with me. My heart was becoming clearer, my memory better and my nerves were becoming steeper. I began to go out frequently, enjoying myself. My appetite improved and was even better than before I had my breakdown. I was myself again. I got back to school and in this day I have had no return of the trouble and now when anyone comes to me with nervous trouble, I instantly suggest Dr. Williams' Pink Pills as a remedy, so I believe that what they did in my case they will do for others."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

BURGLARIES IN CITY.—Burglars are again at work in the city. Last Wednesday night the store of R. F. Maddigan was entered and a large quantity of goods, mostly cigarettes and tobacco were taken. Entrance was gained by forcing the front doors. The burglary is supposed to have occurred after midnight as there was a whisky party in progress.

His unexpected death took place in Holy Cross Hospital, Calgary, on Saturday morning March 18th. Mr. McQuaid matriculated from his home school to P. W. College, receiving a B. A. from there, taught school for a short time at Freeland, P. E. I. A NOTABLE FAMILY.—In a recent issue of the New York Times appears a picture entitled: "A ton of notable brothers". This combined weight of the five men is more than 1,000 pounds. In the group, life to right, were Malcolm and Marjock A. Nicholson, of Leadville, Col., United States Senator Samuel D. Nicholson of Denver, Col., A. J. Nicholson of Tulsa, Okla., and Daniel J. Nicholson of Hooper, Utah. They were reunited in Denver a short while ago for the first time since their deaths.

Senator Nicholson was at one time Mayor of Denver. It should not surprise our readers, says the Oakland Maple Leaf, to learn that these worthy men are from "The Island." They were born at Strathalbyn, Lot 67 the sons of a well known and highly esteemed farmer of that part of P. E. I. His thousands of other young Islanders, they came West and have met with success. LOOKING GOOD.—Painters who for some time past have been engaged at work in the Civic building very satisfactory manner. The interior of the building now presents a clean, attractive appearance, the painting which was awarded to Mrs. William Crozier and the calculating to Mr. Hedley Brehaut, has been faithfully performed and the work accomplished with great care.

THE ROADS.—So good were the roads in Summerside vicinity on Tuesday that hundreds of farmers who had heard of the action of the Lieutenant Governor in Council prohibiting the running of motor vehicles until May 1st, were considerably annoyed. In many of the western roads the dust was flying in no place west of Kensington and it was reported, were the roads unfit for motor traffic.

FISHING.—Though there have been several fishing parties out to the fame Duck River during the last few days and many of them comprising persons who are known to make the size of their catch much larger as the distance to Summerside decreases, there have been no authentic case where the spring catch has exceeded the pound and a half mark. However, the experts say that the finny fellows are answering to a fly pretty well, so that with the roads opened to motor cars and a greater territory opened to the disciples of Isaac Walton, there should be some record specimens on display before the end of the month.

The death occurred on Thursday morning, after a lingering illness, of Mrs. M. S. Bulman, widow of the late Mr. W. E. As one of the oldest members of The Daughters of the Empire, she was instrumental in organizing the Saturday Twilight Organ recitals which were so much appreciated by citizens during the winter months. She will be greatly missed by a large circle of friends and the sincere sympathy of the community is extended to her sisters Mrs. Grant, Mrs. Johnston, and other relatives.
