TILDEN ELECTED PRESIDENT

London, Nov. 4.—Rumors prevail here to the effect that Russia demands the immediate withdrawal of Turkish troops from Serbia, and refuses to complete any further negotiations until this demand is obeyed. Turkey, however, cannot consent to such a humiliating course as this.

It is the opinion of many leaders of public opinion that Russia will continue to make new demands until Turkey flatly refuses to obey them.

London, Nov. 6.—Commissioners are trying to arrange a line of demarcation in connection with the armistice. Turkey and a majority of the Powers think the line should be fixed by the positions actually held by the opposing armies when the armistice was signed, but Russia seems disposed to ask the Turks to withdraw to the frontier. Places blockaded by the Montenegrians will continue under blockade during the armistice, but may be re-visited sufficient for immediate wants.

In St. Bridget's Church, Montreal, on Wednesday last, a large congregation was present engaged in their devotions, when suddenly there was a loud shriek, a heavy fall, and a rush by parties near to assist a lady who had fallen in a fit. The lady was Mrs. Galvin, wife of Mr. Galvin, grocer, corner of Montcalm and St. Mary streets. As quick as possible she was removed to the sacristy of the church, and some room was made for her. In a few moments, Father Lanergan entered the church with the sorrowful announcement of Mrs. Galvin's death, adding, "Life is short, and death has happened to-night which is scarcely any necessity for a sermon."

The great increase of crime in New York is strikingly illustrated by the statistics of the State prisons. Eleven years ago there were 1,885 convicts confined in these institutions; last year there were 3,755. Besides this, the expense to the State to much greater than seems necessary. The cost of supporting each prisoner over his earnings was, in 1863, only \$55.66; in 1875 the excess of cost over earnings was \$135.82. The total annual cost of crime in New York amounts to \$38,000,000. Every year the three principal prisons become more expensive and more inefficient, and a recent report states that they are places "where crime is taught and organized, and new gangs are formed for depredations." It is proposed to abolish the office of Inspector of State Prisons and substitute a Superintendent, appointed by the Governor and confirmed by the Senate, who is to hold office for five years.

A remarkable incident occurred at a saw-mill in Acton, Ont., while a pine log was being sawed up into lumber. The outside slab and one board had been cut off, and while the workmen were turning over the log they were surprised to see a large load poke his head out of a hole in which he was imbedded, and where he had scarcely escaped being cut up by the saw. How the stranger got there was a mystery, as he was completely encased in the wood, with no possible means of ingress or egress. As the log was the fourth or fifth from the butt of the tree, the position must have been at least fifty or sixty feet from the ground, and he had no doubt grown up with it from infancy, being probably hundreds of years old. The animal was a rat, and nearly as large as a man's hand. He was perfectly blind, but when taken from his bed he made use of his limbs to crawl away. The tree was perfectly sound, with the exception of a decayed spot of about a foot in length below the hollow in which he was imbedded.
