The Mayor and City Council recommend the week, May 15 - 20, when citizens are urged to co-operate in improving the appearance of our City.

With the approach of Summer and Vacation Time the City will soon become a mecca for tourists and it is hoped citizens will help make and keep our city attractive.

May 20

GET out the old rake folks—put the paint brush to work, and give the old place a good going over. Let's have more beauty and glamour than ever before around the place. Everybody co-operate.

LET'S improve our properties, wherever we can—make the house more livable and convenient. I am ready to help with more electric outlets, better lighting, better cooking electrically, surer and better refrigeration, and many other conveniences. When it comes to economy, I am mighty easy on the family budget.
