PROSPECTUS. THE COLONIAL FARMER, VOLUME SECOND.—To be published Semi-monthly.

GREAT INDUCEMENT! The 'Colonial Farmer' and Agricultural Letters and Correspondence combined! The Cheapest Agricultural Paper in British North America!! TITUS SMITH, Editor. Terms.—One copy 5s.; Six copies 25s.; twelve copies 50s. twenty-five copies 100s. per annum, in advance.

In order to put the COLONIAL FARMER in more immediate connection with the Central Board, and to hold a more frequent intercourse with Agriculturists and Agricultural Societies, the subscriber has determined to publish the above paper—(half its present size)—every fortnight, instead of monthly as heretofore. He has been urged to this course by numerous influential friends, and he believes it will meet with general satisfaction from its patrons.

THE circulation of the work is rapidly increasing, and every possible exertion will be used by the publisher so to improve it from time to time as will make it more worthy of support. The opinions of practical farmers and the press, however, at the present time, are so flattering, that the Publisher cannot shut his eyes to the fact, that the superiority of a periodical, almost exclusively devoted to the interests of the Agriculturist, over all others, will at no distant day, be more generally felt and acknowledged.

At least one number in each month will be embellished with well executed cuts of animals or machinery—as arrangements have been entered into to secure this desideratum. Secretaries of Agricultural Societies, and Post Masters, through out the Provinces, are requested to act as Agents.

VEGETABLE LIFE MEDICINES. THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and ending them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of Moffat's Life Pills and Phenix Bitters have been gratefully and publicly acknowledged by all persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The Life Medicines recommend themselves in diseases of every form and description. The first operation is to loosen from the coats of the stomach, and to remove the hardened feces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual constiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death: and hence the prejudice of these well informed men against quick medicines—prejudice prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red colour from the agency of the liver and the lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Intemperance, Anxiety, Langour and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scurvy, Ulcers, Invertebrate Sores, Scorbute, Eruptions and Bad Complexions, Eruptive complaints, scallow, scapulas, common Colds and Influenza, and various other complaints, which afflict the human frame. In Fever and Ague, particularly, the Life Medicines have been most eminently successful—so much so, that in the Fever and Ague Districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is, to be particular in taking the Life Medicines strictly according to the directions. It is not by a Newspaper notice, or by any thing that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial.
