

MISS 50-MEGATON BOMB

"Come trip my shelter," says 19-year-old Gila Boksenbaum, first year arts student at the University of British Columbia who has been crowned Miss 50-Megaton Bomb.

The winner of the competition held by the student newspaper, *Ulyssee* was picked from letters entered by male students outlining the merits of a girl with whom they would like to spend two weeks in a fallout shelter. Gila was lauded as a "great conversationalist." (CP Photo)

regime, Communist China's chief ally in the Communist bloc. An article in *Investia* Tuesday assures the Albanian people of Russian friendship while denouncing Albania's leaders. "The Soviet people cannot be main indifferent to the fate of

**Izvestia's Attack Strong Against Albanian Regime**

MOSCOW (Reuters)—The Soviet government newspaper *Izvestia* has delivered Russia's strongest attack on the Albanian

the fraternal Albanian people, whose socialist achievements are endangered by the adventurous policy of its leaders, who are more and more plunging into the mire of extreme nationalist and pseudo-revolutionary adventurism.

The article marking the 18th anniversary of the liberation of Albania in the Second World War, is the strongest in a series of Soviet attacks on Albanian leadership. In particular it rejects Albanian—and by implication, Communist Chinese—

**Yachtsmen Buy Schooners To Revive N.S. Industry**

By ED WALTERS  
HALIFAX (CP)—In boatyards along Nova Scotia's south shore from Hackett's Cove to La Have, men skilled in the art of laying keels have gone back to building a type of vessel they thought had gone for good.

Small schooners, from 25 to 43 feet long, are rising on the stocks as Nova Scotia yachtmen and an increasing number of outsiders place orders in what promises to be one of the biggest boat-building booms to hit the province before the Second World War.

The vessels are modelled after the miniature schooners that formerly did the inshore fishing job now taken over by flat-sterned motor-powered Cape Island boats.

About 20 of the older vessels were purchased by yachtmen and converted to pleasure craft between the end of the war and 1960. Then the supply ran out and builders began receiving orders for new schooners—a type of craft most had not considered for two decades.

The little schooners were fairly common in Nova Scotia waters until the war. They were beneath the notice of most well-heeled yachtmen although a criticism of Soviet "appeasement" of the United States in the Cuban crisis. *Investia* accuses Albanian Communist Party Leader Enver Hoxha, President Memet Shehu and "others" of trying to "poison the minds of rank and file members of the party and of the toiling masses of the country, to bring them up in a spirit of hostility and enmity toward the Soviet Union, the Communist Party of the Soviet Union, and other fraternal countries and parties."

few were sailed on Sundays by old-timers who wanted to season their waning years with the salt of bygone days.

**SOME ABANDONED**  
After the war a few were still fishing, others lay rotting on beaches, and some had been converted to motor boats. Few, if any, new ones were being built.

"Now the boatyards are so busy you couldn't get one for love or money," says Rear Admiral H. F. Pullen, Ret., president of the one-year-old Nova Scotia Schooner Association. He bought his 27-foot schooner *Venture* in 1951.

Eight new vessels were launched this year and orders for the trim little craft are coming in so fast the boatyards have waiting lists.

"Built, rigged and ready for the sea, the schooners cost about \$10,000 each. Teakwood decks, fancy paneling in the cabins and other extras cost more."

Last year J. A. Snow, former commodore of the Armada Yacht Club in Halifax, and F. A. Lane, both schooner owners, suggested a race.

ton won, beating 19 competitors. Admiral Pullen announced the schooner race would be held annually, and next year 40 schooners are expected to take part in a 20-mile triangular course in St. Margaret's Bay 20 miles southwest of here.

The admiral said U.S. yachtmen are showing interest in the Nova Scotia schooners and the annual race and they are well come to take part "but they'll have to race according to our rules." And anyone wishing to join the association must prove his vessel was built in Nova Scotia and is schooner-rigged.

**Bowater Co. Official Retires**

MONTREAL (CP)—Sir Christopher Chancellor, chairman of the Bowater Corporation of North America Ltd., announced Tuesday that H.M.S. Lewis is retiring as vice-president and director of the company at the end of the year.

He is also retiring from the presidency of the Bowater Power Company Ltd., Dear Lake, Nfld., and from his other Bowater directorships in Canada.

Mr. Lewis remains a director of the Bowater Paper Corporation Ltd., London, England, and will also remain a director of the Bowater Steamship Company Ltd., London. He will make his home in Bermuda. Mr. Lewis will be succeeded as vice-president of Bowater Corporation of North America Ltd. by Sam Mann. Mr. Mann will become vice-president, administration and finance. D. B. Barry, secretary and assistant treasurer, will become

**Dividend Given By Shawingin**

MONTREAL (CP)—Shawingin Water and Power Co. has declared the usual quarterly dividend.

J. H. Mowbray Jones, president of Bowater Corporation of North America Ltd., will become chairman of the board of Bowater Power Co. Ltd., Deer Lake, and M. G. Green will succeed Mr. Lewis as president of Bowater Power Co. while remaining general manager.

dividend of 25 cents a share of common stock, payable Jan. 11 to shareholders of record Dec. 14.

The dividend at this time of year is normally payable late in February but has been advanced in anticipation of legislation by the Quebec government to expropriate 11 privately owned electric utilities. Southern Power Co. Ltd., will pay its quarterly dividend of 6 1/2 cents a share on the common stock Jan. 15 to shareholders of record Dec. 28. This dividend also is usually payable in February.
