A Suspension of Sentence.

For 25 years Squire Quigg held the office of justice of the peace in Doniphan county, and in the early part of his administration he held the idea that a justice had as much jurisdiction as a district court. Once a shooting scrape occurred in the township, and the culprit was brought before the squire for preliminary examination. After listening to the arguments the squire ordered the prisoner to stand up. He then said, "Mr. Prisoner, it is the sentence of this court that you be hanged by the neck until dead, dead, dead." Turning to the constable, the squire said: "Take this prisoner outside and hang him to the tree in the yard. There is a rope halter in my buggy."

The constable made a move for the prisoner, and then the squire, taking a second thought, said, "Mr. Constable, I guess you had better not hang the prisoner until we see whether his victim dies."—Kansas City Journal.

Her Proper Place.

Miss Brooke, the English actress, once gave a couple of seats for the theater to her landlady, who had never seen her on the stage. On the following day the landlady seemed to be satisfied with the play, but she did not give any opinion of Paula. So Miss Brooke asked her the straight question, "What did you think of me?" Then the landlady exclaimed with a bland, admiring smile: "Oh, Miss Brooke, dear, you're far too good for the stage! You ought to be in a shop, tryin on mantles!"

Screamed ... WITH.. Agony

From the Terrible Itching, Burning Tortures of ...

Eczema on the Scalp

Some of the cures effected by Dr. Chase's Ointment are more like miracles than anything else. The case recorded here was one of the worst ever brought to the attention of Toronto's best physicians, and when doctors gave up all hope of recovery Dr. Chase's Ointment was successful in producing a perfect cure.

Mr. James Scott, 136 Wright Ave., Toronto, states: "My boy Tom, aged ten, was for nearly three years afflicted with a bad form of Eczema of the scalp, which was very unsightly and resisted all kinds of remedies and doctor's treatment. His head was in a terrible state. We had to keep him from school, and at times his head would bleed, and the child would scream with agony. For two and a half years we battled with it in vain, but at last found a cure in Dr. Chase's Ointment. About five boxes were used. The original sores dried up, leaving the skin in its normal condition. To say it is a pleasure to testify to the wonderful merits of Dr. Chase's Ointment is putting it very mildly."

THE FAT IN

the food supplies warmth and strength; without it the digestion, the muscles, the nerves and the brain are weak, and general debility follows. But fat is hard to digest and is disliked by many.

Scott's Emulsion supplies the fat in a form pleasant to take and easy to digest. It strengthens the nerves and muscles, invigorates mind and body, and builds up the entire system.

Clever Advertisers.

A clever advertising scheme was employed by a firm in a southern city. The junior partner of the firm swore out a warrant for the arrest of the senior partner on the ground that he was selling goods below cost and that the firm was constantly losing money thereby.

The case came up in court, and the counsel for the senior partner asked for a postponement in order to have more time to prepare his case. The judge granted the request, bail was fixed and the senior member released. As he left the courtroom the junior partner arose and exclaimed, "If he is released, the sacrifice will go on!"

The news soon spread, and the firm did a better business.

When the case was again called, no plaintiff appeared, and the charge was dismissed. The firm had succeeded in their object—advertisement.

He Fired.

During the siege of Pueblo by Santa Anna, Captain Kendrick of the artillery, later professor at West Point, was in command at Fort Loreto, overlooking the city, when Colonel Childs, the commander of the American forces stationed in that vicinity and who was an excitable man, rode at a mad gallop into the fort and cried: "Fire at once! The crisis is coming!" The battery opened fire, and amid the smoke and roar of the cannon an officer, seeing no enemy, asked Kendrick what he was firing at. He calmly replied, "At the crisis."

His Paper's Motto.

"I've got a good motto for my new paper."
"What is it?"

"Oh, I see; referring to the circulation. That's good. But, by the way, I didn't know you were a publisher."
"I'm not. This is a patent fly paper."

Kaffir Greeting.

"Saku bona" are the first words a stranger learns of the Kaffir vocabulary. The expression is the common form of salutation used by the natives, and its literal translation is, "I see you." It is considered a mark of respect not to give the greeting immediately, the delay showing the reverence in which the native holds his visitor.

Are You Bilious?

A sluggish liver fails to filter the bile from the blood, and when the poisonous matter goes through the body in the circulation, the whole system is tainted and deranged. This is called biliousness and can be completely cured by Dr. A. W. Chase's Kidney-Liver Pills, which act directly on the liver making it healthy and active. One pill a dose, 25 cents a box. The cheapest medicine in the world.

How Hard Bees Work.

Darwin after close observation found that a bee would often visit as many as 27 flowers in the course of a minute, though with other plants in which the honey was difficult to extract the average would be as low as seven. Striking a mean between these two figures, one may say that an ordinary working bee visits 15 flowers a minute, or 900 an hour. Considering the late hours to which a bee works, it is probably no exaggeration to say that it is busy for eight hours a day, allowing for intervals of rest. This would make it visit 7,200 flowers a day, or 648,000 in a period of six months.

Mr. A. S. Wilson in a recent paper showed the enormous amount of labor gone through by bees in making even a small quantity of honey. He found that approximately 125 heads of red clover yield 15 grains of sugar, or 125,000 heads about two pounds. As each head contains some 60 florets, it follows that 7,500,000 distinct flower tubes must be sucked in order to obtain two pounds of sugar. Now, honey contains, roughly speaking, 75 per cent of sugar; therefore the bees must make, in round numbers, 2,500,000 visits for one pound of honey.

THE DOMINION GOVERNMENT HOME,

At Elkhorn, Manitoba, has Found Japanese-Catarrah Cure the Only Real Cure for Catarrah. Wonderful Results on Every Case Tried.

Mr. A. E. Wilson, Principal Government Indian Home, Elkhorn, Manitoba, writes: "Enclosed find \$1 for two boxes of Japanese Catarrah Cure. Would also like to have some more of your books on catarrah. Some time ago we purchased three boxes of your Japanese Catarrah Cure, and must say it gave wonderful results on every case tried. It certainly is an article of unequalled merit." Don't go on experimenting with untried remedies; if you have catarrah in any form, cure it now with Japanese Catarrah Cure. There is danger in delay. Price, 50 cents, by all druggists, or mailed, post paid, by the Griffiths and Macpherson Co., Limited, 121 Church Street, Toronto.
