DAILY CRYPTOQUOTE—Here's how to work it:

A XYDLBAAXR is LONGFELLOW

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Strange But True

By F. H. MacArthur

Seven has many suggestions. To name but a few: the seven stages of life, every seven days the moon changes, in seven months teeth appear in children; in seven months a full-grown babe is formed; in seven years teeth are shed by children; in fourteen years puberty begins, twenty-one years mental faculties develop, twenty-eight years full mental faculties develop.

The human body has 12 centres. 1. Hand power; 2. feet power; 3. speech power; 4. excretive power; 5. Generative power; 6. Digestive power; 7. breathing power; 8. seeing power; 9. hearing power; 10. feeling power; 11. tasting power; 12. smelling power.

The Bible does not include the Negro, Chinese, Japanese, Pina, Australians, or American Indians. The Good Book refers chiefly to the Aryans, Cushites, Phoenicians, Hebrews, and Egyptians.

Why so many nationalities were not mentioned is a profound mystery.

It is interesting to note the following comparisons between the New World and Old World customs of ancient times.

Both used the decimal system in counting. Both worshipped the sun, moon and planets. A year was made up of 12 months. The Jews and Mexicans were identical in customs. Both had a semblance of agriculture. Both used weapons that were similar. The Egyptians and Mexicans had 365 days and six hours for the year, with one extra day every four years. The Phoenician alphabet was the same as the Mayas of America. The order of women called nuns was bound to celibacy. Both drank toasts and invoked blessings. The Mongolians and Indians were both minus a heavy beard. The Indians and Welsh languages had much in common. Both believed in immortality of the soul. Both had bardic and minstrel and both had castles, where the father's trade came to the son.

And when we add another amazing fact, namely, the similarity of animals and plants in Europe with America, one cannot help but believe that at one time Atlantis must have been one strip of land, joining Europe and America.

Because he was an ill-treated orphan 60 years ago, Sam Hurley and his wife Sarah of Greenly, Virginia, now are caring for 700 orphans at their mountain mission school founded entirely on the couple's own savings.

Since Hurley gave up a prosperous business to found the school for homeless kiddies, he and his wife and their helpers have fed, clothed, sheltered, and educated some 4,300 orphans! Don't bank your money in your trouser pockets, as did Eugene Long of Oklahoma.

Long took a nap in his bedroom and later woke up to find that a thief had entered the room and made off with \$4,000. If you open a can of peas and find only buckshot don't blame the canners. Blame it all on the fact that Washington State Trapshoot Tournament had been held a few days previous at a sight adjoining a 20-acre pea field.

of the suit. The question then arose: should he try to ruff out the hearts for a discard, or should he take the heart finesse? It was of vital importance, of course, to get rid of the losing spade.

South analyzed correctly that there was a better chance of winning the heart finesse than of ruffing out the heart king (although, as the cards lay, either plan would have succeeded), and so he took the finesse immediately. With the heart queen holding, and later, with the club suit breaking, South was home.
