He Kept His Nerve.

There's a lawyer in one of the interior towns who has not grown rich at his profession, yet he is by no means a fool. Some time ago he happened upon a client who represented a rich corporation in the east, and the client wanted some papers made out very promptly. The lawyer took the job with a snap, for business was dull, and he was not long in completing it.

Now let him finish his own story.

"In a day or two my man came back," he says, "and was very well satisfied with what I had done. So well satisfied, in fact, that I began to wonder if I hadn't better put up my fee. Twenty-five dollars was plenty for all I did, but I thought I might get more, and was debating whether to make it $50 or $75, when he pulled out a whacking big roll of bills with 100's on the outside. That settled it.

"Well, Mr. G——," he said, beginning to skin off the bills slowly, "how much do we owe you?" and he counted one, two, three, four. "Is that enough?" he asked with his thumb on the turn.

"Well," said I, carelessly, "suppose you skin off another one," and by thunder he did, and I chucked that $500 fee in my pocket and never let on but what $500 fees were merely incidentals in my business.—Detroit Free Press.

Local Notices

THE aroma of the tobacco leaf is so completely conserved in the manufacture of "Myrtle Navy," that age has no effect in diminishing it; even after the plug has been kept for years it gives out its full flavor under the combustion in the pipe, mellowed in tone by its age and making the most exquisite smoke which tobacco can be made to give. Age, too, hardens the structure of the plug and gives to the tobacco, when cut, that almost granular appearance in which all connoisseurs delight. ....

The Telephone Company
—OF—
P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
