

# Will Seek Rebuilding Of Pavement In West Prince

A resolution urging the Provincial Government to rebuild sections of the main highway in West Prince County with permanent pavement was approved at the regular meeting of the Alberton and West Prince Board of Trade yesterday afternoon.

The resolution also called for permanent pavement connecting towns and villages along the main artery instead of light paving. Considerable discussion preceded the motion during which it was noted that not a single mile of heavy paving has been laid in West Prince for over twenty years with exception of a stretch leading to Ellerslie.

Regarding a motor vehicle registration office for West Prince, advocated by the Board and the West Prince Zone of the Canadian Legion for some time, president J.F. Bryan stated that it appeared unlikely that an office would be established this year. Following discussion it was decided to forward a further resolution including an alternate proposal.

# Parisian Magnate Tries To Evict The Canadian Embassy

Canadian Press Staff Writer LONDON (CP) — Notes on a Paris visit: Marcel Boussac, France's "King of Cotton" and perhaps the richest and most influential man in the country, is trying hard to get the Canadian government to move out of its embassy building on the Avenue Foch.

Carnets du Major Thompson, has won a place in the Musée Grévin, France's equivalent of Madame Tussaud's Waxworks. To ensure a genuinely English atmosphere, a copy of the London newspaper, The Times, will be flown to Paris daily and tucked under the arm of the wax figure.

By Marcel Bourseau, just back from a visit to Canada and the United States with 500 French hoteliers. Bourseau says these are some other things North Americans would like to see in French hotels: Lighter meals as well as the "gastronomic" variety, a glass of ice water as well as other drinks; and a piece of soap on the wash basin. The soap went out with the Second World War and some hotels haven't yet reverted to the pre-war practice.

# Arrest Is Made In Silver Theft

Quick action and an excellent piece of sleuthing by Cst. Harry MacKay relieved a Summerside man of three pieces of silverware stolen a few minutes earlier from the store of R.T. Holman Ltd. in Summerside yesterday afternoon.

The major has become something of a classic in Anglo-French circles. Prime Minister St. Laurent of Canada is one of his fervent admirers.

After being notified of the theft around five o'clock, Cst. MacKay nabbed a man just minutes later on Water Street West, with three pieces of silverware on his person and a sugar and cream set and a silver tray, valued at approximately \$25.

# Island Fisheries

Several days may pass before pedestrians will find all sidewalks in Summerside cleared for walking, as the town began yesterday to dig out from under a 16-inch snowfall that was piled in banks as high as eight feet by high winds which accompanied the severe storm.

of soft-shelled clams taken. The beds have been depleted to the point where it is no longer profitable to fish this variety. Quahaugs were in good demand but intensive fishing has depleted the areas to the point where production is governed, mainly, by the annual growth. There is a quantity of quahaugs in areas closed because of pollution. During the year a successful experimental program was carried out under the direction of the Fish Inspection Laboratory to obtain information regarding the time it would take these shellfish to cleanse themselves when placed in clean water areas, etc.

RECORD LOBSTER VALUE The lobster fishery, which is the mainstay of the fisheries of this Province, was very successful during the year. Lobsters were plentiful in most all areas during both the spring and fall seasons, although in some sections they were not as plentiful as in others. The catch amounted to 97,016 hundredweight. During the past thirty five years there were only two years when the catch exceeded that of this year. Also during that time there were only six years when the catch exceeded 90,000 hundredweight, which were as follows:

almost everyone who had access to a shovel, found it necessary to spend at least a part of the day in the great outdoors.

However the work of snow clearing continues and while many hands may not have made the shovels any lighter, it can be said that these many shovels certainly moved much snow.

Thank you ladies and gentlemen and may you have many years of good shooting.
