MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a fish and blood maker and contains all the constituents for nourishment found in wheat. In fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and \$1 at Charlottetown drug stores.

A CONCERT.—A grand entertainment will be given on Monday night next, in Howes' Hall, Brackley Point. The features are new and the concert will, without doubt, be a grand success. The leading roles, will, judging from the costumes in preparation, be exceedingly bright. This is not by any means the first time that the genial Major Howes has organized entertainments for the benefit of tourists and the country in general. Not long since an entertainment was given in which the Major was the leading spirit—which took Brackley Point by storm, especially when the balloon ascension was successfully performed. We wish the Major and his company of "stars" every success.

Trail Twisting Policy.

Two Can Play at Hampering Traffic.

OTTAWA, July 21.

Hon. Mr. Bowell, talking yesterday on the subject of the trail twisting policy of the American Government on the canal matter, said that while the Canadian Government would carefully deliberate on the whole matter, it would be inadvisable to announce a definite policy until the possible action of the President made such necessary. He said that the Canadian Government has undoubted power within the treaty limits to make regulations which would disorganize and destroy the existing inland marine interests of the whole western states.

MAYOR SNOW'S DISAPPEARANCE.—Referring to the disappearance of Mayor Snow, the St. John Globe says: A prominent insurance man who visited Moncton on Tuesday and made an inspection of Mr. Snow's books, declares that while his affairs are somewhat involved they are not in such a condition as to make it necessary for him to fly. The insurance man also ventured the opinion—and in this he was joined by many others of his colleagues and also by Mr. Sanderson, local manager of the Bank of Nova Scotia—that if Mr. Snow returned home arrangements could easily be made which would help him over all his difficulties. Mr. Snow carried a heavy account with the Bank of Nova Scotia, and in addition to this owed a large sum to a friend, besides accounts to the various insurance companies of which he held the agency. It is said that the bank was pressing him heavily, though this is denied, and that he was also worried over the money borrowed from his friend, about \$5,000. That he intended to return to Moncton when he left it on Thursday last is the general opinion. It is known that he had very little money with him, and also that before his departure he paid off several accounts. The theory is that while away he began worrying over his affairs and then determined to skip out. Should his whereabouts be learned, strong efforts will be made to induce him to return to Moncton, and his friends will endeavor to satisfactorily arrange his business affairs.

CONFIRMED.—The favorable impression produced on the first appearance of the greasable liquid fruit remedy Syrup of Figs a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers the California Fig Syrup Company.

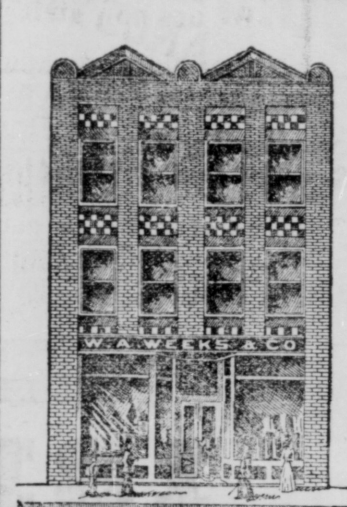

A job is to be found for Mr. Blaine, who has totally disappeared from sight since his fiasco at Minneapolis. President Harrison desires to play a magnanimous part, and so will offer the ex secretary a place among the United States delegates to the International Monetary conference, which is to meet at Brussels. Whether Mr. Blaine accepts or not is of little consequence. In the vernacular of the day he is politically a back number.
