Roman Catholicism.—The *Catholic Directory* of 1868, just issued *permissu superiorum*, gives some details in reference to the present position of the Roman Catholic Church in Great Britain. There appears to be a considerable increase in the Catholic clergy, churches, chapels, convents and monastaries since last year. The total number of Catholic bishops is the same—namely, one archbishop and twelve bishops (besides three retired bishops) in England, and four retired bishops in Scotland. The number of priests in Great Bitain amounts to 1,639, against 1,608 last year; the number of churches and chapels is 1,583, against 1,207 when the last *Directory* was published. The convents of women are now 227 in number, whereas last year there were 220, and the monastries number 67, against 63 last year. Total increase, 31 priests, 76 churches and chapels, 7 convents of women, and 4 monastries of men. Of the 76 churches and chapels, which are more this year than last, about a dozen are private chapels of convents and of various individuals. Of the four increase in the number of monastries, three are merely houses in which two or three of regular clergy dwell together for missionary work; the fourth is the new Dominican priory at Haverstock Hill. In the convents, or regular houses of women, the increase has been very great during the last few years, but it has been altogether, or with very few exceptions, among the non-cloistered or active orders, such as Sisters of Charity, Sisters of Mercy, and the like. The cloistered or contemplative orders hardly seem to increase at all, or very slightly, in this country. The number of colleges and large preparatory schools is 21. Of the 227 convents, upwards of 200 are for the education of girls, either rich, poor or middling class.

Irish Church Revenues.—The annual revenues of the much talked of English Church establishment in Ireland are as follows: Salaries of archbishops and bishops, £80,000; benefices, £503,000; trustees and their chapels, £1,700; minister's money, £1,500; ecclesiastical commission, £110,000; total, £697,000. There is also £50,000 annually to Trinity College; 190,000 acres of land and £30,000 from students' fees annually to the college. If the Church property were put into the market it would bring an annual income of over twenty-six millions of dollars. According to the census of 1861 there were in Ireland 693,000 members of the Established Church, 503,000 Dissenters, and 4,505,000 Roman Catholics; total, 5,701,000. The whole population in 1845, was 8,750,000, but by emigration and famine, the population has been reduced 3,000,000 in twenty-two years.

The Famine in Tunis.—The famine in Tunis is producing dreadful effects. The crops in the Regency have failed for two years in succession, and the inhabitants are reduced to the last degree of destitution. A letter is published, written by Mr. Wood, Her Majesty's Consul-General at Tunis, relative to the sufferings among the Arabs in the Regency. He states that "the famine is hurrying thousands of our fellow-beings to their graves from sheer starvation. In the streets of the town, on the roadsides, in the fields, the corpses of the wretched Arabs are found in frightful numbers. A ghastly harvest is gathered in the morning of those who have died in the night." In some some cases parents have deserted their children on the roads, being no longer able to find food for them, and in others they have sold them for a few shillings to buy food for themselves. In the city of Tunis alone the mortality from starvation amounts to 100 per day, and as private charity becomes exhausted the number will, it is feared, go on increasing. The famine extends to the cattle, the grass having disappeared from the fields. Notwithstanding the severity of the calamity, no disturbances or acts of violence have been reported. Steamers from Glasgow touch at Tunis, and Mr. Wood undertakes to distribute any relief that may be sent to him.

The Colonies of France.—The *Constitutionnel* gives some interesting statistics relating to the colonies of France. Their total population now amounts to 2,192,275. The most populous is Martinique, 159,109. The most valuable commercially is Cochin-China, and then follow, in order, Reunion, Martinique, Guadaloupe, Senegal, and the establishments in India.

The "Pleasures" of Cochin-China.—Every morning, on turning my eyes on the beams and rafters of the bungalow, I saw serpents of a large size creeping and winding over and about them. At first I was horror-struck at the sight, but after a time they had ceased to terrify me, and at length became even familiar to the eye; so that when I awoke, I used to look for them as objects of course, and learnt to distinguish my visitan's one from another, both by the diversity of their speckles, black and green, and by their size; they twined round and round the rafters and beams, but I never knew one of them to fall upon or molest me. Here, also, the trees and bushes were illumined by swarms of fire-flies, which presented on a dark night the grandest sight imaginable. It was my custom to stroll with my friends through the paddy-fields in the interior, and admire the verdure of the country, and the majesty of the silent forest; and often has the black scorpion, two or three inches in length, turned towards us his deadly sting; and the wild elephant, the buffalo, or sanguinary tiger, encroached on our path; and here the boa, and other enormous serpents, fatal alike to man and beast, might be seen coiled beneath the bushes, watching eagerly for their prey.—*Voyages in the East.*

People—especially those in the country—often want to know the best and cheapest place to purchase their Dry Goods. To all such we would say, give Robert Young a trial, confident that those who favor him with their patronage will not be disapointed. He is now offering the balance of his stock of Winter Goods at cost price, and White Cottons and Hoop Skirts at prices that requires to be seen to be believed.

A Roman Catholic Church has been recently consecrated in Charleston, S. C., for the exclusive use of coloured members of that commuuion.

Narrow Escape of the Duke of Newcastle.—The Duke of Newcastle, whilst out shooting on Saturday with a party of friends at Clumber, Notts, narrowly escaped fatal injury. While shooting under cover, the Rev. Fiennes Clinton discharged his gun, from which some shot penetrated the Duke of Newcastle's left ear and injured his face on that side. Medical aid was soon procured and the shot were removed. His Grace has not sustained injury of a vital nature.

Councillor Grady, on a trial in Ireland, said he recollected to have heard of a relentless judge; he was known by the name of "The Hanging Judge," and was never seen to shed a tear but once, and that was during the representation of *The Beggar's Opera*, when *Macheath* got a reprieve. This was the same judge between whom and Curren the following passage of wit once took place at table. "Pray, Mr. Curren," said the judge, "is that hung beef beside you? if it is, I will try it."—"If you try it, my Lord," replied Curren, "it is sure to be hung."

At the last ball of the Mayor of Liverpool, 1,164 bottles of champagne were consumed. No mention is made of headaches.

Russia had an army of 730,000 men during the year. When the veterns are called out it would number over eleven hundred thousand.

Napoleon read the proof of his "Life of Cæsar" twenty seven times, and even then it didn't please him.

A young man confined in a French prison has developed such remarkable genius for mechanical invention, that endeavors are in progress for his liberation. He recently made a straw watch, two and a half inches in diameter, which keeps perfect time.

In Japan it is said there are 20,000 Roman Catholics, descended from the Christian converts left there 200 years ago at the time Japan was closed to foreign intercourse. They are scattered throughout the empire, and there are no new converts.

QUEEN'S COUNTY RIFLE ASSOCIATION.

On Wednesday last, the 4th inst, the adjourned meeting of the above Society was held in the Court Room, in the Colonial Building, to receive and consider the Bye-Laws and Regulations drawn up and submitted by the Committee appointed for the purpose, and to transact other necessary business.

In the absence of Lieut. Col. T. H. Haviland, Major Henry Beer, on motion, took the chair, and opened the meeting.

The acting Secretary was then called on by the Chairman to read the code of rules decided on by the Committee, which, after an animated discussion, in which nearly all the officers present took part, the following rules were adopted for the government of the Association.

RULES OF THE SOCIETY.

1. That this Society shall be known and designated as "The Queen's County Rifle Association."

2. That the object of this Association shall be the improvement and furtherance of Rifle Competition, and the general welfare of the Regiment.

3. That this Society shall consist of all the officers, non-commissioned officers and privates of the Queen's County Regiment of Volunteers.

4. That the affairs of the Association shall be under the control and management of a President, two vice-Presidents, and a Council or Committee of ten members, who shall be elected annually by the members from the officers of the Regiment, and a Secretary and Treasurer chosen from their number. Seven of the above members shall constitute a quorum of Council.

5. There shall be a Patron and a Vice Patron named annually by the Association.

6. The annual subscription of members shall be not less than six shillings and three-pence each.

7. All competitors for prizes must appear in the uniform of their respective Companies.

8. That the annual meeting of this Society shall be held on the first Monday in March of each year, at such place as the President and Council may deem suitable, when all members are expected to appear in uniform.

9. That the Council shall meet quarterly, or oftener if required, and the Secretary shall keep minutes of its proceedings.

10. No monies shall be paid out by the Treasurer, for any purpose, without an order from the President, or in his absence, either of the Vice-Presidents.

11. In all matters of a purely military character, the Council shall confer with the Colonel of the Regiment.

12. Any person subscribing the sum of thirty shillings (30s.) annually shall be entitled to become an honorary member of this Association, on being duly elected by the Council, and shall have all the privileges of membership.

13. A Report of the proceedings of the Society for the past year, shall be submitted by the Council at each annual meeting.

14. That the Council shall have the power of making such Bye-laws as from time to time shall be deemed necessary.

The above rules having been agreed to, it was unanimously decided that a Committee of three officers be appointed to confer with His Excellency, the Lieut. Governor, in order to procure, if possible, a suitable Rifle Range for Volunteers. Lieut. Col. Haviland, Major Beer, and Lieut. Lord, compose the Committee.

As many of the officers were unavoidably absent, it was thought expedient not to proceed to the election of Officers until the next day of meeting, with the exception of an acting Treasurer—and, on motion, Lieut. Artemas Lord was elected as such.

The meeting was then adjourned until Friday, the 20th inst, at 2½ p. m, then to take place at the Court Room, Colonial Building, when officers for the ensuing year will be elected.

All those wishing to become members of the Society are requested to hand in their names and subscriptions to the Treasurer at an early day, as none but those who pay will be permitted to have a voice in the proceedings.

Secretary, pro. tem.

CHARLOTTETOWN DEBATING CLUB.

The adjourned debate on the question, "Had the Nova Scotian Parliament the power, constitutionally, or without an appeal to the people, to assent to Confederation; and are the people justified under existing circumstances, in suing for a repeal of the the Union?" was resumed and discussed by the Club on Friday evening last. After a lengthened debate, the first part of the question being put by the chair, the Club were unable to come to any decision being equally divided; the second part was, however, decided in the affirmative.

The subject for next evening will be, "Were the Representatives of the United States of America justified in impeaching President Johnson." To be opened by Mr. C. W. Hall.

R. R. FitzGerald, Sec'y.

St. Peter's Bay Agricultural Society.

A large and influential meeting of the principal farmers of the Second District of King's County, was held at the store of Anthony MacCormack, Esq. Head of St. Peter's Bay, on Saturday last, the 29th February, for the purpose of taking into consideration the propriety of establishing an *Agricultural Society in the district.* The liveliest interest was manifested in the project by those present, and judging from their standing, intelligence, and determination, there is little doubt but that the Society will be worked out vigorously to the advantage of the District and County generally.

Martin McInnis, Esq, having been appointed Chairman, the members of the District (Messrs. McCormack and Reilly) addressed the meeting, as also did Hilary McIsaac and James Hogan, Esqs., and other gentlemen, upon the benefits to be derived from the establishment of Agricultural Societies, and the scientific prosecution of farming. A letter was read from the Hon. Geo. Beer, wherein that gentleman proposed to become a *member of the Society, and threw out some* valuable suggestions as to the use of lime and mussel mud, which were well received. A proposition from the same gentleman to appropriate £15 to be distributed in prizes, and other ways, was laid aside for further consideration.

A code of Rules and Regulations were submitted, and after some amendment, were approved of. *The following gentlemen were appointed* office-bearers of the St. Peter's Bay Agricultural Society, until the second Wednesday in July next, viz:

Patron—James Hogan, Esq.
President—Martin McInnis, Esq.
Vice President—Mr. Jas. McKay.
Sec'y and Treas.—Anthony McCormack, Esq.
Committee—Hilary McIsaac, David Lewis, and J. R. McKinnon, Esqs., Messrs. John Hughes, Robert Anderson, John McIntyre, John Ryan, Norman Matheson and Peter McAulay.

A vote of thanks was then passed to Mr. Reilly for his trouble in organizing the Society and preparing rules for its government. A vote was also passed to the Hon. Geo. Beer for the suggestions and propositions contained in his letter, after which, Messrs McCormack and Reilly having been instructed to apply to the Legislature for an Act of Incorporation, and a grant of money in aid of the Society, the meeting broke up, highly pleased with the proceedings, and anticipating the most satisfactory results from the proper management of the Society. A large number of names accompanied by the subscription required by the Rules, were handed in to the Secretary, foremost among which, as in every other good work and reform, is that of His Lordship the Bishop of Charlottetown.

A. McCormack, Sec.

St. Peter's Bay, Feb 29.

A Fellowship or Bursary.—It is stated in the newspapers that the Home Government have offered a Fellowship or Bursary of a hundred pounds sterling, to be held for three years, to be decided by a competitive examination, and to be open to all students within the Dominion who may wish to carry on their academic studies during the time specified in Great Britain. The successful candidate may take his course of study either at the University of Edinburg or at University College, London. Examinations in connection with this, it seems, are to be held at the same time in Montreal, Kingston, Toronto, Halifax, and in some town of New Brunswick, afterwards to be named, on the last Monday of June, by examiners appointed by the Governor-General of the Dominion.—*Toronto Journal of Commerce.*

Lord Ranelagh takes a very desponding view of the state of the English volunteer force. He calls it a "sham." "One hundred and eighty thousand, or two hundred thousand men in battalion, without administrative staffs for its command or supply of any sort, is," he remarks, "a mere crowd of coated playthings."

The River Amazon was formally opened as free to the commerce of the world on the 7th September. This privilege extends only so far as the Brazilian territory is concerned. Our readers, of course, are aware that the Amazon is the largest river in the world, between four and five thousand miles in length, and upwards of a hundred miles in width at its mouth. At 2,830 miles from the mouth, it is 500 yards wide. Upon the main stream, and its tributaries, there are facilities for the navigation of ships and steamers of large burden for about 10,000 miles. Smaller vessels, it is understood, could go as much farther. Its depth varies from 43 feet in the upper part of its course to 312 feet at the Para mouth. With its tributaries it drains a territory of nearly 2,500,000 square miles, and most of that among the most fertile in the world. What a magnificent country it it were only peopled by Anglo-Saxons.

We commend to notice the following obituary:—"My husband is no more. He did not wish too live longer, and if he had it would have been no difference, for gout entered his stomach and was soon followed by death. I shall marry the doctor who so kindly attended my late husband; I learned then to trust him. Soft rest the ashes of the departed one, whose wholesale liquor business I shall continue at the old stand!"

The London *Star* is humorous in relation to a very serious matter:—"The land in England is said to be owned by some thirty thousand men. We have heard of a person who was awfully uneasy in his mind lest these thirty thousand, out of patience with strikes, disgusted with reform, worried by railroads, shocked at the increase of population, should one day combine and give the whole British nation notice to quit."

Gentlemen, if you want your horses' coats to assume a smooth and glossy appearance, use Sheridan's Cavalry Condition Powders.

Formerly the prejudice against patent medicine was much greater than at present. People begin to find out that many of them possess much intrinsic merit. This is particularly the case with Blood's Rheumatic Compound and Pain Killer.

☞ The Paris *Presse* publish the following curious piece of intelligence:—The Minister of War has been for some time past in communication with M. Schultz, formerly a captain in the Prussian artillery, and the inventor of a new gunpowder, which he terms 'white powder.' The object of these communications is to secure for France the secret of manufacturing the preparation, in which neither saltpetre, charcoal, nor sulphur is used, these being the ingredients of the gunpowder now employed. The white powder is superior to the ordinary kind, especially for rifled arms, as it leaves no deposit in the barrel, and its projectile force is greater.

HUNNEWELL'S

UNIVERSAL COUGH REMEDY.

Ten Years have clearly proved that the theory of simplicity, the great element of this splendid preparation, which allows its use whenever there is tickling or irritation in the Throat, and producing no debility, is the only and true theory by which *Colds, Coughs, Hoarseness, Bronchial Complaints,* and all *Throat Affections,* which, if neglected, end in *Consumption,* can be effectually cured.

☞ *Sore Throat,* the great origin of *Diptheria,* when neglected, is cured by making a *Gargle* with equal parts of water.

☞ *Whooping Cough* is completely relieved of its violence by a constant use of the remedy.

Holloway's Ointment and Pills.—Cough Emaciation.—These symptoms, slight, but steadily advancing, mark a depraved condition of the body, which will run its rapid course to consumption, unless some resistant remedy be at once applied. All congestion of the lungs, and engorgements of the air tubes, are removed by rubbing Holloway's Ointment upon the back and front of the chest; and all impurities are extracted from the blood by his purifying Pills, which establish a good digestion, and so strengthen the system, and avert both present and future danger. These potent remedies require no foreign aid to change the consumptive tendency, and to remove all obstructions springing from impure blood, deficient *nervous power, or other constitutional or local* defects.

IN CHANCERY.

Re Mark Nathaniel Wright, and others, infants, by Betsy M. Wright, their Guardian.

To be let on lease, at such yearly rents, and for such term of years, not exceeding five years, as may be agreed on, that Valuable Freehold Farm, situate on Township 26, fronting on the Road between Somerset (formerly South-west Settlement) and Freetown, Bedeque, containing 125 acres, a little more or less, with the Messages, Mills, Buildings, and Appurtenances, known as the property of the late George M. Wright, Esquire.

The Land is of superior quality, about 60 acres of which are cleared and in a good state for cultivation, the residue being covered with hard and soft wood. The principal Dwelling House, a 1½ storey building, is 36 by 28 feet, with a Kitchen in the rear, 25 by 18 feet; contiguous to which are Wood-house, Carriage-house, Stables, Work-shop, and Barn. The Mills, comprising a very superior Grist Mill, (with three pairs Runners), Shingle, Saw, and Carding Mills, are propelled by a powerful stream; and their situation for business purposes is very eligible.

On the premises are also a Cottage and Workshop for the use of a Miller.

The Lessee will be required to keep the Dwelling House and Mills insured to a reasonable extent, and the same with the Farm and Premises—in a tenantable state of repair and condition.

Possession can be given immediately. Application to be made to Mark Butcher, Esquire, Charlottetown, or to the undersigned.

BELL'S TAILORING ESTABLISHMENT. NOTICE!

The Undersigned takes this opportunity of returning thanks to the large number of his customers who have so promptly complied with his terms and paid for their work on delivery. There are, however, a considerable number who have not paid thus promptly; and he respectfully requests all such to call and pay their respective accounts without delay. He would further remind them that their respective amounts, although a trifle to each, would in the aggregate materially assist in making up some of the deficit which their indebtedness has occasioned.

HORSES.

CARLTON'S CONDITION POWDERS FOR HORSES COWS, SHEEP, & ALL STOCK.

FATTENING STOCK.

Farmers will find it a saving to them of many dollars by using these Powders. When fattening stock, by mixing a little of these Powders with the food, you will find that they will fatten quicker, and the flesh will be firmer and better in every respect.

The many

DISEASES OF HORSES

can almost all be *prevented or cured* by these Powders.

One Powder drives out Worms.
One Powder cures Bots.
One Powder puts a Horse in condition.
One Powder makes a Horse shed his coat.
One Powder gives a soft and glossy appearance to the hair.
One Powder cures the Horn Distemper in Cattle.

CARLTON'S CONDITION POWDERS,

given according to directions, are the best thing in the world to strengthen a horse, and restore him to health and vigor after severe exposure or hard driving.

These Powders cause a healthy action of the digestive organs, and purify the blood of animals, thereby equalizing the circulation of the blood and imparting vigor to the whole frame. This soon demonstrates itself by an improvement in the appearance of the coat, for it is a certain fact that no animal can be in perfect health if the coat be rough and unthrifty.

CARLTON'S CONDITION POWDERS

will be found a perfect tonic and restorer after attacks of any acute diseases, such as Influenza, Strangles, Inflammation of the Lungs, Nasal Gleet, etc.

Every one who owns Stock

of any kind should use this Medicine. It is always beneficial, and is so harmless that it can always be given without fear.

Farmers who are fattening their stock should use these CONDITION POWDERS. They will keep all kinds of stock healthy and in good heart, and make them fatten much easier and quicker than they otherwise would. Find the signature of

J. Carlton Comstock

in full on the wrapper of each Package. This is the only test of the

True Carlton's Condition Powders.

Take no "Condition Powders" without this signature. Sold by all dealers.
