INFLUENCE.

Drop follows drop, and swells
With rain the sweeping river;
Word follows word, and tells
A truth that lives for ever.

Flake follows flake, like spirits
Whose wings the winds dissever;
Thought follows thought, and lights
The realm of mind for ever.

Beam follows beam, to cheer
The cloud the bolt would shiver;
Throb follows throb, and fear
Gives place to joy for ever.

The drop, the flake, the beam,
Teach us a lesson ever;
The word, the thought, the dream,
Impress the soul for ever.

VARIETIES.

BOKEN HEARTS.—If men, my dears, were to pay, like servants, for everything they broke, they wouldn't be so fond of breaking their hearts for every pretty girl they saw. The fortune of a Rothschild couldn't stand, my dears, against such a ruinous amount of breakages. Why, I have known a man's heart break as often as an America bank, and yet he would open the next day with the same brass plate on his face, on which you could plainly read "Assurance," and his heart would go on issuing the same amount of false notes as before Besides, what becomes of all their *broken* hearts, I should like to know? Where do they all go to? Along with old moons, I suppose; or they may be keeping company, their's no knowing where, with all the pins that are lost, each heart being stuck through with a pin, like the curious insects in a museum.

A HUNDRED MILES AN HOUR.—The *Scientific American* has an engraving of the Railroad which is to run a hundred miles an hour with perfect safety. Its distinctive principle is that the cars run on a single track for the train to be hung upon it. The train is, in fact, placed a straddle of the rail, running on wheels, to whose axles the cars are hung. It is obvious that, with the rail running, as it were, through the car, the latter could not be thrown off the track by any amount of speed, and no obstruction of sufficient magnitude to do mischief could be made to lay upon a single rail raised six or eight feet from the ground.

To become slandered—be connected with a paper, tell the truth, and tread on the toes of some rogue.

Mock Turtle. Calling a husband "my dear" in public, and "you brute" in private.

Mrs. Price, before her marriage with the worthy alderman of that name, was a widow with a large fortune, and her name was Rugg. On being asked a few days after her second marriage how she liked it, replied: "Oh, very well, indeed; I sold my rugg for a good Price."

The Forlorn Hope of Ladies—expecting an old sweetheart to marry you on the death of his third wife.

That "all is not gold that glitters," is sufficiently proved by the base sovereigns now in circulation.

The Russians having a plenty of tar and rosin, will be sure to come off well in a *pitched* battle!

A gentleman, speaking of Cincinnati, says its most appropriate name would be *Ham*-burg of America. "Yes," replied another, "I think it will be the *meat*-ropolis of the United States."

"Come hear, my little man," said a gentleman to a youngster of four years of age, when sitting in the parlor where a large company where assembled, "do you know me?" "Yes, sir, I think I do." "who am I, then—let me hear?" "You are the man what kissed sister Jane last night in the parlor." Jane fainted.

In the old English ale house, it used to be the custom to keep the accounts of each beer bibber by scoring down the pints and quarts—hence the warning phrase: "Mind your P's and Q's."

Cicero has said of men: "They are like wines; age sours the bad and betters the good." We cannot say that misfortune has the same effect upon them.

What kind of a man do women like best? Why, a *husband*-man, of course.

The middle-aged lady o respectable connection, "who never nursed a tree or flower," has gone south, to marry the blacksmith by whom "the last link was broken."

It is said that of five hundred and forty young ladies who fainted last year, more than one half fell into the arms of gentlemen. Only two had the misfortune to fall on the floor, and they were not good looking.

"Is there much water in the cistern, Biddy?" enquired a gentleman of his Irish girl as she came up from the cellar. "It is full on the bottom, sir, but there's none at the top," said Biddy.

When is beer fit to be eaten?—When it is a *little tart*.

BELLS! BELLS! BELLS!

THE Subscribers manufacture and keep constantly on hand, all sizes of Church, Factory, Steamboat, Ferry, Locomotive, School House and Plantation Bells, with the *best* description of Hangings.

These Bells are made from the *best* stock, and the small sizes undergo the same process in manufacturing as Church Bells An experience of thirty years, with a great many *recent* improvements, and an entirely new method of casting, enables us to obtain the most melodious tone, combining also, in extraordinary vibration.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have fifteen Gold and Silver medals at our office, which were awarded for the "best Bells for sonorousness and purity of tone." We pay particular attention to the getting up Peals or Chimes, and can refer to those furnished by us. Our establishment is contiguous to the Erie and Champlain Canals, and Railroads running in every direction, which brings us within four hours of New York. Cash paid for old Copper. Old Clocks, Levels, Compasses, Transits, Theodolites, &c., for sale, of superior workmanship. All communications, either by mail or otherwise will have immediate attention.

Twelvetrees Brothers' Soap Powder
(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST—no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad Washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors. and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
