## Sleeper Picks

by Marc MacDonald

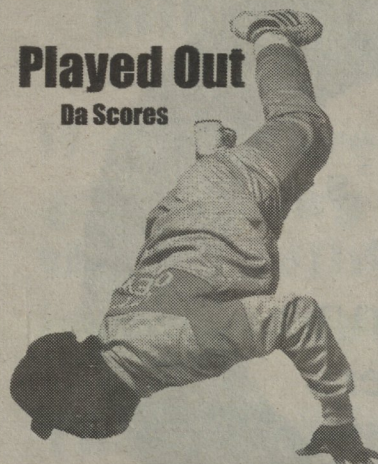

**The men's soccer team wiped out Acadia on Sunday, September 17.**

By the time you are reading this, the UPEI 2000-2001 season will have kicked off and 4 games will have been played. After all is said and done and rosters are finalized and new coaches get usde to their respective benches, I predict that this sports season will be very similar to last year's season. This of course means that the Men's Soccer team and Women's Basketball team will be winning games and possibly even championships. My sleeper pick is the Men's Basketball team. With a new coach, some promising off-Island recruits and a strong core group returning from last year this team may surprise some fans as well as other teams in the league.
