

On Sunday the twenty-first, the PEI Tackle Football League had its first game, between the Charlottetown Timberwolves and the Souris Wildcats. The age limit for the league is 19, and there are several university and college students who play. A crowd of over a hundred showed up for the game, showing that there still is interest in football on PEI. For more information read Allan Manley's article on page 6 on UPEI's football team, which vanished over 20 years ago.

There will be a general meeting of the Student Union held on Sept. 24 at 12:30 p.m. in the courtyard of the WA Murphy Student Centre. Executive Members of council will be giving their reports and candidates in the upcoming by-election will be giving speeches and taking questions from the crowd.

Clare Henderson, Chair of Council

Residence Life

By Rebecca Shorten

"What do you mean my computer has worms?
Should I call the veterinarian?"

Cast off the chains of market-structured consciousness.
-Rick Crawford

and this is the state we are turning
our earth into, a concrete tree
forest of mechanical social events centered around
obtaining, for a very small minority,
individuals living on this earth, all
of its resources, and all other living
organisms on the planet as a means to an
end - a way of enslaving the earth and all
of its occupants into lives sold and stolen for money
and power, a high seat in society for the thief
of lives, master of lies and deceit and tyrants of the
world, a world falling to pieces environmentally,
socially, culturally, historically, a world, and earth, a
once thriving jungle of life and diversity, of grinning
health, losing its stitches, breaking its seams in terms
of strain, and wearing thin in every way, coming apart
fast, and for good. WE MUST BOLDLY STEP OUT OF LINE TO
CHANGE THIS FUTURE SINKING

By Brad Deighan
