The Telephone Company

P. E. ISLAND. PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules: 1st. Speak with the mouth about four inches from the transmitter. 2nd. Speak in a moderate tone of voice, not too loud, and distinctly. 3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear. It is possible to talk and be heard when standing back ten or fifteen feet from the transmitter, if you speak loudly enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
