Quality Counts in Home Dyeing.

Progress, is the watchword of all economical women who dye at home—old-fashioned powder dyes that streak are relics of a forgotten past. The day of uncertainty about results in Home Dyeing had an inglorious ending with the advent of that New English Home Dye of highest quality (it washes and dyes at one operation) Maypole Soap.

Maypole Soap Dyes.

If you can't get them of your druggist or grocer (10 cents for any color or 15 cents for Black) send the money to the Wholesale Depot, 8 Place Royale, Montreal, and get the Soap and some useful advice about successful home dyeing.

NOTES AND COMMENTS.

—Now it is the "ingenious Yankee" who has invented a wireless telephone. What is most of all wanted in Charlottetown is a wireless telephone. But this we fear even the "ingenious Yankee" cannot supply.

—Commenting upon the fact that the Filipinos don't seem to stay thrashed, the Montreal Gazette remarks that "if the beggars were only Anglo-Saxons this would be a virtue in them."

—All the published reports of the battle of Omdurman, agreed that the most brilliant feat of arms of the day was that achieved by Brig-Gen Macdonald, whose brigade was caught between two divisions of dervishes, and was only saved from immolation by a rapid change of front, which enabled it to repulse a second attack from the rear after clearing its front. It was implied by more than one correspondent that the possibility of such an attack had been unforeseen by Lord Kitchener, and that grave disaster was only averted by the resourcefulness and promptitude displayed by General Macdonald. No doubt the latter acquitted himself nobly, fully justifying the confidence reposed in him, but in a speech which he delivered the other day in Glasgow he gave a very different account of the whole affair. He declared that it was he who attacked the dervishes, not the dervishes who attacked him; that the situation had been foreseen by Lord Kitchener, who had provided him with three batteries of artillery and several Maxim guns, with which he was able to annihilate the first attack at long range, and that he was in readiness for the second attack before it developed. The completeness of the enemy's rout was due to the admirable fire discipline of the British troops. The aim of Lord Kitchener's strategy, he added, was to cut off the dervishes from their fortifications.

Alfred A. Taylor, of Margaree says: One bottle of MINARD'S LINIMENT cured a swelling of the gambie joint, and saved a horse worth \$140.00.

Thos. W. Payne of Bathurst, saved the life of a valuable horse that the Vet. had given up, with a few bottles of MINARD'S LINIMENT.

"Father of Nations! Hero of the feeble hand,
Strength of the strong to whom the nations kneel.
Of our scant people mould a mighty State
To the strong, stern—to thee in meekness bowed!
Father of unity,—make thy people one;
Weld, intertune them with a poet's flame
Whose forging on thine anvil was begun
In blood, late shed to purge the common shame,
That so our hearts, the fever of faction done,
Banish old feud in our young nation's name!"

OPERA HOUSE—Closing exercises of the Prince of Wales College tomorrow night. Arrangement to attend.

LECTURE—Come to Wright's Hall this evening and hear Rev. F. F. Fallerton's lecture on "Mary Queen of Scots" illustrated with Stereopticon views. The lecture is under the auspices of Lady Wallace Lodge, No 27, so come and bring a friend with you, and help forward a good cause. Chair taken at 8 o'clock.

EVANGELIST WHISTON—The large audiences that Evangelist Whiston continues to attract night after night at the Central Christian Church are proof that his sermons are interesting as well as instructive and helpful. "A grand sermon" was the common comment last night. Mr. Whiston has a bright sparkling way of his own of presenting the truth. His earnestness and fearlessness constitute his great power. Tonight he speaks upon "Excuses". A male quartette is expected to assist tonight at 8 o'clock.

THE BOSTON BOAT.—The steamer Halifax arrived from Boston this morning. She brought the following passengers: Mrs T J Moody, H Morrison, Miss Datcher, Thos Madden, M E Conley, Miss Hendrican, Lucy Gutchel, Mabel Wadwell, Dr W G Burke. From Halifax: W E Murray, M E Coleman, Mr Elean. The Halifax left on return to Boston this afternoon. Her outgoing passengers included Mrs McCarron, Miss Olive M Clarke, D A McLeod, S B-er, Miss Katie McLellan, Miss C McKay, Edward McCormack, Mrs S Gorman, Miss O M Clarke, M McDougall, Miss A Crane, Miss Munroe, Miss Taylor, A Lemassey, Mr and Mrs J C Clarke.

BAD ACCIDENT AT ALBANY.—A very bad accident occurred at Albany, on Sunday evening, whereby the six year old son of Mr. Abraham Noonan, postmaster at the place, lost four of his fingers. A gentleman had taken his wheel from the train on Sunday evening and as it was raining stood it in a shed in Mr. Noonan's yard, intending to leave it there until the roads were fit to drive on. On Sunday Mr. Noonan's two boys, aged respectively six and eight years, were looking at the bicycle, seeing what kind it was, etc., and one of them picked it up and gave the pedals a turn. Some way or other the smallest boy got his fingers caught between the chain and the teeth of the hind sprocket wheel. The father hearing the boy's cries rushed out and was horrified to find two of his son's fingers lying on the ground. The doctor was immediately sent for. The two remaining fingers were so badly damaged that they had to be amputated.

FIGHTING CATERPILLARS.—The orchardists in Eastern Maine are having lively times these days in waging war against the army of caterpillars that seems to have swept down in a cloud from the unknown, and is now destroying the fruit trees at a rapid rate. Some of the orchards that a week or ten days ago appeared entirely free from the pests are now covered with the webs, and nests can be seen on nearly every limb. The farmers who free them one morning go out to look them over the next day only to see another crop larger than the one already disposed of. Parties arriving in Bangor from Eddington, Clifton, Dedham and the eastern towns report the conditions as serious. They say that never for many years has there been such an awful mass of living, crawling destruction. It seems as if every new-born leaf has its caterpillar, and before its stem is fairly straightened out to receive the strengthening rays of the sun its framework is eaten away.
