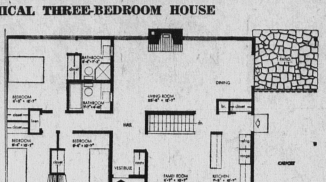
ECONOMICAL THREE-BEDROOM HOUSE

ARCHITECTS A. Debicki and P.S. Lemare, of Vancouver, co-operated in the design of this three - bedroom bungalow. The recessed front entrance is protected from the weather by the main roof while the side entrance is convenient to the kitchen and sheltered by the carport. The basement stair is in direct line from the side entrance.

The living- dining area at the rear of the house has access to a patio, located behind the carport. Other features include coat closets at both front and side entrances, a fireplace, family room and good separation of living and sleeping areas. The master bedroom has a private bathroom. Either the front or back elevation of this house may face south to obtain the most advantageous orientation.

The floor area is 1,261 square feet and the exterior dimensions are 45 feet, nine inches by 28 feet with an additional 11 feet on the width for the carport and patio. Working drawings for this house, known as Design 2306, are available from Central Mortgage and Housing Corporation in Moncton at minimum cost.



Solid Support Said Needed For Satisfactory Porches

There are almost as many types of porches as there are house designs. Porches may be part of the building itself or may be detached. Sometimes a porch is nothing more than a slab of concrete resting on the ground; in this case it is called a stoop. A porch with a sloping base projecting from the concrete foundation is called a corbelled porch. The porch can also be supported on piers or on wood or steel columns on piers, or it may rest directly on the foundation.

Stoops or other concrete porches without foundations should not be built unless the ground beneath is firm. A heavy concrete stoop on loosely packed soil may sink a foot or more before it finally comes to rest. Sinking porches are often associated with frozen earth used as fill. A corbelled porch with its base entirely underground is not recommended with soils which expand in freezing conditions. As the earth expands and pushes up against the corbelling there is danger of the foundation splitting.

BELOW FROST LINE

Supporting piers should extend below the frost line. The depth of the frost line varies in different parts of the country depending upon the length and severity of the winter.

Wooden supports resting on piers should be kept clear of the ground and the underside of the wood should be tarred to protect it against dampness. In concrete porches which are joined to the foundation, reinforcing rods are frequently used. The rods should be placed in the upper third of the concrete, not in the lower portion.

Handrails should be installed on the porch if it is more than two feet above ground level or if it has more than three steps.

Flooring for use on outside verandahs or porches should be made of wood that weathers well. Good quality pine, Douglas fir or Pacific Cypress (also known as coast cedar) are suitable for this purpose.

S'side Pair Face Robbery Charge

SUMMERSIDE — An 18-year-old Summerside youth, Vincent Gallant, pleaded not guilty to a charge of robbery with violence when he appeared before Magistrate Richard S. Hinton, QC, yesterday morning in police court and was remanded for hearing until Oct. 15.

Alfred (Toady) Cahill, facing the same charge, was reported to be "too ill" by the jailer to appear yesterday morning. However Cahill was on hand for the hearing at 4.30 p.m. and was remanded without plea until Oct. 15.

Gallant told the court in the morning he wished to retain a lawyer while Cahill stated he did not seek counsel.

Police Chief S. D. A. Wanamaker said he was not in favor of bail for the duo due to the seriousness of the charge but if it was granted that it should be substantial. No decision was made on granting bail.

The pair was apprehended after they allegedly attacked and robbed Emma Arsenault, a Summerside pensioner, late Sunday night while he was walking near his home on North Market Street.

Taken from Mr. Arsenault was a cheque, cash and a watch with a total value of $85.

It is expected that the first session of the council will close on Dec. 8.

HANDICRAFT

ready bringing in several thousands of dollars to each province.

The idea was conceived and fostered in order to compete with and overcome the flooding of the souvenir markets in those areas with cheap foreign-made items, which are a frequent cause of complaint by tourists who are on the lookout for home made souvenirs.

OFFICIAL OPENING

Sponsored by the provincial government, the exhibition will be open Wednesday and Thursday afternoon and evenings, from 2 to 5 p.m. and 7:30 to 10 p.m. The official opening is slated for 8 o'clock this evening.

On hand are displays of hand made drapery materials, rugs, tapestries, dress and blouse material, craft jewellery, leather work, wood turning, greeting cards and jams and jellies.

In addition to the displays, the visiting instructors will give demonstrations in the making of any of these items to anyone wishing to see how it is done. Thereby, each one an opportunity for any person to indicate if they would like to be trained in the making of handicrafts.

Through this exhibition the local government feels that an industry of comparable size to the other provinces can be developed, which can supply markets across Canada.

The present plan is to establish several small community industries, each employing a few people, and these to be augmented by individual craftsmen working in their own homes throughout the Island.

THE INSTRUCTORS

The group of instructors with Dr. Creswell are: Mrs. Hyer, senior instructor in weaving in N.B.; Miss Valerie Leger, weaving instructor; Alfred Prindle, wood turning; Mrs. Lucy Wiltewsall, silver jewellery; Mrs. Helen Robertson, leatherwork; Miss Jeannie Albert, place mats, aprons and wall hangings of burlap made by the textile painting method.

Of the various displays, the fans and jellies are by Mrs. George Miles, Maugerville, wood carving by W. Bronnum, and tapestries by Dr. Crowell.

Mrs. Percey Lester, Hampton, N.B., president of a community group known as the Hampton Handicrafts, will have a display of weaving done by her group.

Island Livestock Slated For Royal

Several Prince Edward Island livestock breeders are sending cattle to the Royal Winter Fair in Toronto early next month. Names of all the breeders who plan to show are not available yet but present indications are that the entry list from this province will be light.

E. A. Myers, Hazelbrook, is sending three Jerseys. They include a heifer he has entered in the Sale of Stars, and his sire that was senior and grand champion at the provincial exhibition here in August.

Agriculture Minister Andrew B. MacRae is sending a couple of heifers from the Rasdale Ayrshire herd that he owns jointly with his father, Fred T. MacRae, on the Union Road.

Ernest Land and Son Mt. Herbert are also expected to send three Ayrshires.

GUERNSEYS GOING

At least four Guernsey breeders are planning to send animals, it was learned from Livestock Director L. W. Roper. They include Harold Palmer and Sons, Kensington; Harrison Green and Sons, and Owen Younker and Son, Kingston; and Eric Laird, North Milton.

Mr. Laird, who also showed the grand champion Holstein cow, Wrightaway King Lisa, at the provincial exhibition in 1961 and 1962, is sending one entry for the Holstein show. Two animals will go from the Lewisdale herd of Lewis Brothers at York, and Parker Newson, Kingston, will send two animals, according to present plans.

No information was available yesterday on Dual Purpose Shorthorn entries, although animals from this breed have been the heaviest prize winners at the Royal from this province in recent years.

Impaired Charge Is Heard At S'side

SUMMERSIDE BUREAU OF THE GUARDIAN

The case of Wendell Francis Sonier, Rustico, charged with driving without control of motor vehicle while impaired, was heard before Magistrate W. Chester S. MacDonald in Prince County Magistrate's Court yesterday before being adjourned to a later date.

Cst. Ian Oland, RCMP Borden, testified that he and Cst. Rowan were travelling on highway 1A August 31 when they came upon a 1953 Chevrolet car parked on the side of the road.

They stopped the car and Cst. Oland stated that a man who identified himself as Vincent Adolf Pineau was standing by in a state of intoxication. Accused, Sonier, was sitting behind the wheel in the front seat of the car. A female passenger, sitting in the middle of the front seat, pulled the keys out of the ignition and put them in her pocket. She also put a quart bottle of gin under her blouse. When asked to get out of the car, Sonier was very unsteady on his feet. The female was identified as Velda Rose Gallant, North Rustico. All three were arrested and taken to Prince County jail.

At the jail, Mrs. Neil Sharpe was employed as matron to search Miss Gallant, and she produced the keys and liquor. Cst. Oland said he later went back to the stalled 1953 Chev car had the keys fit the ignition and started the motor.

WAS BELLIGERENT

Cst. William Rowan, Summerside RCMP, testified that he saw Sonier sitting behind the wheel of the Chev when the two RCMP officers arrived at the scene. When Sonier was put in the police car, Cst. Rowan stated that he was very belligerent, cursing and swearing, and had a strong odor of alcohol from his breath. He was unsteady on his feet when walking from the police car to the jail.

Frank Gallant, Rustico, witness for the defence, testified that he had driven the car from Rustico to where it was stopped on the side of the road. He said it stalled, and thought it was out of gas. He stated that he stood on the roadside, waiting for a passing motorist, when the RCMP arrived.

Other defence witnesses were Velda Rose Gallant, the accused and Mrs. Vincent Pineau. Defence council was J. Watson MacNaught, QC.

Harold Ingham Bryanton, North Tryon, was fined $75 and costs pleading guilty to a charge of driving while his ability was impaired by alcohol. RCMP evidence revealed accused was stopped for "hit and run" and was found to be in a state of intoxication.

Kenneth James Ready, St. Eleanors and Shelton Adams, Kensington, were each fined $75 and costs on separate similar charges.

CARELESS DRIVING

John Murphy, RCAF Station Summerside, was fined $10 and costs for driving without due care and attention. RCMP stated Murphy was following another car at a distance of from three to four feet and he was pressing on the brakes and letting them off, so that the front end was bouncing up and down. He had also been drinking a bit. Two girls were passengers in the car. Magistrate MacDonald warned accused that the next time in court, he would lose his license.

Also fined $10 and costs for driving without due care and attention were Douglas Ralph Little, Central Bedeque, James Allan MacDonald, RCAF Station Summerside, and Raymond Edward Pleau, RCAF Station Summerside.

One accused was given a warning for failing to transfer the registration of a motor vehicle. He told the court he had purchased the car only three days before his arrest.

Six accused were each fined $20 and costs on separate charges of possession of intoxicating liquor in a place other than the residence.

One accused was fined $20 and costs for public intoxication.

One accused was fined $10 and costs for failing to supply the name and address of the driver of his motor vehicle to an RCMP officer.

Conference Here To Study Industrial Safety Aspects

Aspects of industrial safety practices, as they apply to this province, will be examined at a meeting at the Charlottetown Hotel on Thursday, October 25.

The safety conference, the first of its kind in this province, is being sponsored by the P.E.I. Workmen's Compensation Board.

Board chairman, Wilfred McAleer, said yesterday that letters will be going out to plant managers, superintendents, foremen, and representatives of labor unions, to attend the conference.

Planned for the day are the showing of safety films, exhibitions of safety equipment, and lectures by safety experts from Nova Scotia and New Brunswick.

Mr. McAleer said the conference will be the beginning of a safety education program that will be followed up through the province later this winter. "The follow-up," he said, "will see lectures and films presented at other centres in the province."

He said the Charlottetown conference may be "the seed which will see industry in the province forming its own accident prevention association or accident prevention committee. It may also lead to the appointment of a full-time field man on safety procedures."

'Duke' Nielson Suffers Injuries

HALIFAX (CP) — Julius (Duke) Neilson, bass fiddle player in Don Messer's orchestra, the Islanders, is in satisfactory condition in hospital here with multiple injuries suffered in an auto accident Monday.

Neilson, his wife, two sons and a daughter were injured in a three-car accident in nearby Bedford. A hospital spokesman said Tuesday all were in satisfactory condition.

F. H. Gillespie Dies At Moncton

MONCTON (CP) — Funeral service will be held here Thursday for Francis H. Gillespie, former Atlantic region general chairman of the Canadian Brotherhood of Railway Transport and General Workers (CLC).

Mr. Gillespie, 60, died in hospital here Monday after a lengthy illness.

A former Canadian National Railway employee, Mr. Gillespie was general chairman of the union for about 20 years until his retirement four years ago.

TIGNISH LEGION RECEIVES CHEQUE

The Ladies Auxiliary of the Royal Canadian Legion, Branch No. 6, Tignish, presented a cheque of $100 to the branch last Thursday evening. Mrs. Reg Eldershaw, president, speaking on behalf of the ladies, requested that the cheque be used to further the good work carried on by the Legion in the area, and wished it continued success. Mrs. Edgar Peters, secretary-treasurer of the Ladies Auxiliary is shown making the presentation to the Legion president, J. Peter Gaudet, who offered a word of thanks to the ladies, along with the treasurer, Hector Buote.

Grain Harvest Reports Vary But Yield Is High

Farmers across the Island are in agreement that there is an excellent crop of grain this year, although there is a great difference in the progress they have made with their harvesting. Most farmers in the western part of the province have nearly completed their harvesting operations—a few of them have been through for some time—but there is a great deal of grain to harvest in the central and eastern areas. Several people said yesterday they have only begun harvesting.

Reports on storm damage from the weekend wind and rain vary almost as widely. Some farmers report the grain fields badly smashed by the storm, others report lesser damage while other say their crop was not hurt at all.

LOSES 20 PER CENT

One large grain producer in the Pownal area estimates that he has lost 20 per cent of his grain by the storm smashing it and breaking the heads off. Many report severe damage over the weekend, though the reports very widely.

Stories on high production are heard from all over the province. Chester Pratt, St. Peter's Road said last night that 96 bushels and several pounds had been harvested on a measured acre on Vernon River's farm on the Church Road at Midgell. Mr. Pratt reported he took 926 bushels off 11 acres on his own farm.

ALBERTON AREA

Reports from the Alberton area state that Harold Gard, Mill River got 1,900 bushels from 33 acres for an average of 76 bushels per acre.

B.B. Jones, Bunbury, said last evening that his oats are yielding 70 bushels on the lighter parts of his field and production is really heavy in the better areas. Mr. Jones has completed approximately two-thirds of his harvesting operation.

Mr. Pratt said last night that he has had no difficulty with grain lodging," or being broken down, since he started sowing much less grain 1 per acre in the spring. He sows two bushels and one peck per acre and gets a strong-strawed oat that gives excellent production he said. He used to sow up to four and one-half bushels. The St. Peter's man who has been growing grain for more than 40 years said that he used to work on the principle that the stronger the land was the more grain should be sown in it for a big crop. But he found that was wrong, and for the last six or seven years he has been sowing light and reaping the benefits.

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this amazing ointment right in the privacy of their own home without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among those sufferers were a very wide variety of hemorrhoid conditions, some of even 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository or ointment* form called *Preparation H.* Ask for individually sealed convenient Preparation H Suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded.
