

MEMORIES.

BY REBECCA BUTTER SPRINGER.

To-day—a long, dark, rainy day— I sat me down, in silence, near A chest of things long hid away: Trifles to memory dear.

With gentle hand I raised the lid: The scent of roses filled the air, And lavender, from leaves long hid Among my treasures there.

"Like fragrant memories," I said Softly unto myself, and smiled, "This rested on the sunny head Of a beloved child."

I gently touched the little cap, And thought of the long vanished time When, full of glee, upon my lap My darling used to climb.

I look up now into the face That smiled so sweetly on me then, And joy to see him take his place With noble-hearted men.

Some baby shoes—that used to be On feet that pattered to and fro— With tints that pattered to and fro— With tints that pattered to and fro—

The feet, grown strong, along the way Of life are toiling—offices rough— So they, dear Lord, go not astray, We feel it is enough.

Here lies a sunny tress of gold, That shaded once the fair young brow Of one whose summers soon were told, She dwells with angels now.

And here a lock of snowy white— O! life so full of tender grace! We still must feel the truth and light, That shone from that dear face.

Round which these snowy tresses lay Like silver coronet so fair! The influence of that life to-day Speaks through this tress of hair.

Here is a soldier's cap. Ah! me! The tears are falling thick and fast, Shut down the lid, and turn the key: Sweet memories are past.

A Formidable Enemy.

James W. Newman, farmer, of Lachine, who went to Minnesota in the spring of 1857, has seen a great deal of Indian and Half-breed fighting. He was in the Red River region in 1858 or 1859, and remained there until 1861 or 1862, during which period warfare with the Indians was continuous.

MORRIS & IRELAND'S

NEW IMPROVED PATENT EIGHT-FLANGE FIRE-PROOF SAFE.

THE only Eight-Flange Safe in the world, and containing more improvements than ANY SAFE made, such as:

1st. THE PATENT INSIDE BOLT WORK, which is placing the bolt work with the whole of the flange (six inches) between it and the outside, that is, as far from the fire and thief as it can be.

2nd. THE PATENT HINGED CAP—the back plate of the door being on hinges, enabling the owner, by turning a thumbscrew, to have easy access to the lock and bolt-work. He can thus easily change the lock, clean, oil, and keep the bolt-work in good order.

3rd. IRON INSIDE LINING, stronger than wood, and which retains the moisture in the filling for an indefinite time. Wood is thicker and weaker, and after a few years absorbs the moisture and "requires filling over again."

4th. FOUR-WHEEL COMBINATION LOCKS, the simplest, strongest, most efficient and easiest to change of any in use.

5th. SOLID ANGLE IRON FRONTS, BACKS AND CORNERS, which prevents warping or injury to safe from falling, or falling walls or timbers.

6th. EIGHT FLANGES—the most important improvement ever made in fire-proof safe, providing eight laps, thus preventing the passage of heat, it having to pass over twelve inches, no injury arises from this source, as in other safes containing one, two or three flanges.

THESE SAFES have stood the test of years, and the greatest fire on this continent, and have the CHAMPION RECORD in the Boston, Chicago and Haverhill Fires.

We are selling these safes as low as any good safe, and are disposing of large numbers throughout the Dominion.

BANK WORK AND VAULT DOORS are specialties of our firm. For prices, testimonials and information, address,
