Ice Floes Rob Seal Hunters

—Yesterday the people of Alberton awakened to see the harbour sealed in by ice flows, and on the ice were huge quantities of seal skins presumably belonging to the sealers, who were noticed off the north shore several weeks ago. Also drifting along the north shore were seal carcases which extended round the coast as far as Tignish. Men from Alberton rowed out to the heaps of pelts in the hopes of bringing them to shore, but found the pelts too heavy for the little boats and had to abandon this idea.

It is interesting to note that when the Guardian mail plane flew over the area Tuesday on its daily flight the straits were full of drift ice and as a result of the heavy winds which prevailed during the night, the straits yesterday were clear and the ice drifted in to the harbor bringing with it the labors of men, who were unable to rescue the pelts when the ice started to break up during their hunting trip.

IN MEMORIAM

MR. WILLIAM MATHESON

There passed away in the home of his daughter, Mrs. John Hardy of Pleasant Grove, P.E.I. on March 19th., Mr. William Matheson in his 87th year. Until 1947 Mr. Matheson lived in Valleyfield East where he was a successful farmer. Because of his lovely Christian character, his kindness and goodwill to everybody, and his strong support of every worthy cause, Mr. Matheson was very highly esteemed by all who knew him. A very beautiful evidence of his love for the Gospel and the church and of the fine thoughts which welled up in his soul was a liberal gift of money which he gave last year to the Valleyfield Church, allocated one third for lighting and two thirds for foreign missions.

The funeral service, held in the Valleyfield church—the church in which he worshipped for many years—was very largely attended and conducted by the Minister, Rev. A.C. Fraser assisted by Rev. John Douglas. The favourite hymns, of the deceased, "The Lord's My Shepherd" and "What a Friend we have in Jesus" were sung with Mr. Norman Nicholson at the organ. Mr. Matheson is survived by two sons, Dan in Boston and John in Charlottetown and two daughters, Mrs. Herb Vickerson (Sadie) in Boston, and Mrs. John Hardy (Katherine) in Pleasant Grove.

Nato Trainees To Graduate At S'side May 4

On May 4th the first course of Nato trainees will be graduated from the Air Vavigation school at R. C. A. F. Station, Summerside, as air navigators. The course will consist of students from Italy, Belgium and Norway. French navigators will graduate at a later date and a group of R.A.F. students have just commenced training.

Yesterday afternoon the commanding officer of the Summerside Station, Group Captain H. G. Richards, O.B.E., outlined to a group of press and radio men the work that is being done in training these people from European countries. Today the news men will go on a regular navigation training flight with Nato trainees to Goose Bay, Labrador.

G-C Richards said that there is a great deal of misunderstanding about the expression "Nato" and he explained that it is a word used for trainees from countries belonging to the North Atlantic treaty organization hence Nato. With the exception of the French airmen who take their instruction in their own language, all Nato personnel are taught in English, he said, and "It is an eye opener to see how quick they can absorb instruction in English as many of them did not speak the language when they arrived."

He thought they deserve a great deal of credit. Their record has been excellent and there have been only two failures so far. G-C Richards expressed the opinion that Canada showed excellent foresight in giving basic training techniques of navigation may become tandardized throughout the Nato countries. There is also the fact that their presence has broadened the outlook of the Canadians who are associated with them and he hoped the Nato students will also have a broadened viewpoint as a result of their stay here.—S.
