**They discovered Aluminum!**

**AN "INSIDE STORY"**

**1900**—It wasn't only Grandma's cooking that drew the crowds. She had the first aluminum saucepan in town! In many other Canadian homes, too, this was the beginning of a bright, new era of better cooking utensils.

**1925**—When mother got married, she already knew how to enjoy life with aluminum. She brewed Dad's coffee in an aluminum pot...cooked those big family meals more easily in quick, even-heating aluminum.

**1950**—Today, daughter's kitchen belongs to the "aluminum age". She enjoys a larger selection of aluminum utensils. This "food-friendly" metal also protects the flavour, quality and purity of the foods she buys.

**HINTS TO THE HOUSEWIFE**

Whenever you see aluminum on the outside of a food or a drink, there's an "inside story" of cleanliness and purity.

Aluminum utensils clean easily. To remove natural deposit left by foods and water, use a tablespoon of vinegar in boiling water.
