### Market Prospects.

We shall this year have a larger quan-  
tity of farm produce to dispose of than ever  
we had. The crop of oats, now nearly  
secured, is a magnificent one. There will  
be nearly (if not quite) enough wheat to  
supply the home demand for flour. The  
potato crop is likely to be a splendid one;  
and all the other cereals and roots we grow  
are in abundance. Thanks to the Giver.

What are the prospects of the foreign  
market? This is now the question. Until  
new grain is offered in the English and  
European markets, the trade will, necessar-  
ily, remain inanimate, and it will be im-  
possible to quote prices. But the indica-  
tions are that the demand will not be very  
great or brisk. The year has been an  
abundant one all round.

The following are the estimates of the  
European crops of wheat and rye, made by  
the Vienna Corn Exchange, a representa-  
tive body having unusually good facilities  
through agents of recognized authority for  
getting correct reports from the whole of  
Europe. In the following "100" repre-  
sents an average crop:—

The *Mark Lane Express* publishes its  
usual annual reports of the condition of the  
grain crops from every county in England  
and most of the Welsh counties. The fol-  
lowing statement shows the result compared  
with the like return of last year:—

It is reported that there are 9,597 more  
acres under potatoes this year in Great Britain  
as compared with 1879, and that "the gross  
yield will be vastly greater, as everywhere  
this crop is reported to be one of the most  
profitable since the blight first attacked the  
tubers, upwards of thirty years ago."

On this side of the Atlantic, abundance is  
general. The grain crops all through Cape  
Breton, we are told, "have far surpassed  
those of any previous year in the history of  
the country. The quantity sown is nearly  
double that of last year, while the quality is  
also improved. The yield of wheat will  
average twenty-five bushels per acre. Warden  
McKeen, of Mabou, will cut 34 bushels of  
winter wheat to the acre. Along the Mabou  
and Margaree districts no better crops could  
be wished for. Little or no weevil is seen.  
The ears are well filled. It is thoroughly  
ripe, and, owing to the spell of fine weather,  
very even, and is being gathered in with great  
rapidity. Almost enough wheat has been  
raised to supply the whole island this year."

In Nova Scotia (proper) and New Brunswick  
the yield has also been unusually large.  
The United States, too, are blessed with  
good crops. In fact, whichever way we  
look, there seems to be little opening for a  
very brisk demand. A large buyer of oats  
in this city, however, informs us that there  
will likely be fair prices for oats; and if  
this information turns out to be correct, it  
will be well for our Province. White oats  
in small quantities are already equired  
after.

THE ALLEGED CHILI-PERUVIAN TREATY  
OF PEACE.—There is some doubt whether a  
treaty of peace has yet been signed between  
Chili and Peru, as was stated in our des-  
patches a few days since. It seems at least  
that no tidings of such an event had offi-  
cially reached the Peruvian consul at New  
York, Mr. Tracy, who does not believe the  
news, and stated to a *Herald* reporter, on  
the 5th instant, that he knew that his gov-  
ernment were making active and extensive  
preparations for the continuation of the  
struggle, and it was not likely they would  
consent to sign a treaty under such condi-  
tions as were mentioned in the despatch.

S. S. HOWICK.—The *Montreal Gazette* of  
the 6th says:—We notice that this vessel is  
announced to sail on an early date with freight  
for Charlottetown, Pictou, St. John's Nfld.,  
and Sydney, C. B. Parties interested should  
apply to Messrs. Bogue, Dixon & Co, who are  
agents in the matter.

THE resignation by the Grand Duke  
Nicholas of the command of the Imperial  
Guards, shows how the Russian administra-  
tion is honeycombed with corruption.  
Nicholas and other Grand Dukes embezzled  
the regimental funds systematically. Gen.  
Louis, on meeting with opposition from  
the Grand Duke, disclosed his peculations.  
The Czarowitch was indignant and, it is  
said, compelled the Grand Duke Nicholas  
to resign. The builders of the Czar's new  
yacht charged £20,000 (\$100,000) extra,  
giving secretly a check to another Grand  
Duke for that amount. This practice is  
common in Russia.

A Montreal despatch of the 5th has the fol-  
lowing:—Private cablegrams have been receiv-  
ed here to the effect that Sir John Macdonald  
has succeeded in transferring the Canadian  
Pacific Railway to the London syndicate.

That Stove Ring.

The *Toronto Globe*, a few days ago, pub-  
lished the form of an affidavit by which  
the stove manufacturers of Ontario have  
bound themselves to raise prices and keep  
them up; and then pointed to it as a proof  
that the National Policy is creating mono-  
polies. The *Patriot*, ever eager to howl  
against the N. P., reproduces the article of  
the *Globe* and tells its readers that the stove  
ring is only one of the many monopolies  
brought into existence since the introduc-  
tion of the present tariff. The *Orillia  
Packet*, a well-informed journal on the sub-  
ject, rudely interrupts the 'glory hallalugh  
chorus' which the Grit organs have been  
grinding out all along the line. Here is  
what it says:—  
"The *Globe* has made a continual out-  
cry that Protection has created rings which  
have raised prices in Canada. It has been  
challenged again and again to name an in-  
stance, and it has finally produced the  
Stove Manufacturers' Union as the instance.  
The *Mail* produces the price list of the  
Gurneys, and proves that their prices of  
stoves are actually less now than they were  
in 1878. That meets one part of the cry,  
but not the other. Let it be known that  
the Stove Manufacturers' Union has not  
been created by the tariff, for it was in ex-  
istence throughout the administration of  
Mr. Mackenzie, and further, that its efforts  
to combine on a price list were more strong-  
ly effective in 1877 than in 1879.  
Scenes from the Long Parliament are  
being re-enacted at Westminster after  
slumbering 150 years. A formidable weap-  
on is being waived over the heads of the  
Peers. The Lord's rejection of the Irish  
Registration Bills has raised a constitu-  
tional storm. Mr. Parnell proposed to  
attack the principal clause of the rejected  
measure to the Appropriation Bill, which  
the Lords cannot modify and must pass;  
but although the Government condemned  
the conduct of the Lords, it was opposed to  
Mr. Parnell's proposal. Mr. Forster the  
Secretary for Ireland declared in the House  
of Commons that "the Peers owed their  
power to the accident of birth," and that  
"certain circumstances may render it  
necessary to alter the constitution of the  
Upper House."  
ORPHANS FOR CANADA.—The object of  
Cardinal Manning for sending between 2,000  
and 3,000 orphan children to Canada, with a  
view to their filling situations in Roman  
Catholic families, is concurrent with a scheme  
adopted by the Quebec Government for the  
settlement of the Eastern townships. The  
occupation of these townships in the Province  
of Quebec by a Protestant and English speak-  
ing population has failed. The Quebec Gov-  
ernment has now set apart 100,000 acres for  
settlement by old country immigrants,  
Protestant or Catholic. As the former natu-  
rally go to Ontario and the West, beyond the  
region where the people, as in Quebec, are  
French in tongue and manners, the Cardinal  
might find this allotment a good opportunity  
for promoting the emigration of some of his  
adult flock to a district where, in religion,  
they would be at home.—*English Paper.*

There will be nine races at Kentville, N.

than the 15th of September instant.

AN INTERESTING LAWSUIT.—Halifax has  
been startled of late by the announcement  
on the street that an action has been enter-  
ed in the Supreme Court by Mr. F. H.  
Baker, editor of the *Mayflower*, and lobster  
packer, against Mrs. Mary Black, of this  
city. Mrs. Black is the widow of the late  
William L. Black, and is probably the rich-  
est widow in Canada. Her fortune is esti-  
mated between \$500,000 and \$700,000. The  
plaintiff's claim is \$150,000, and so far as  
can be learned it is made up of claims for  
services rendered in promoting the interests  
of the defendant. Nearly every lawyer of  
any position has been retained in the cause  
and it is the subject of universal interest in  
every portion of Halifax.
