—THE ISLAND MARKETS—The Maritime Retailer and Business Review, published in St. John and edited by Ralph G. McInerney, nephew of Bishop O'Leary and an officer of the original 195th P. E. I. Battalion, has the following to say in its April issue regarding Island Market conditions: Prince Edward Island, which is principally a farming country, is just beginning to break through the shell of ice that coats it every winter, and take on the look of activity that usually heralds the coming of spring. Farmers, the principal buyers, are now thronging the stores, buying supplies for their spring seeding. Fishermen are procuring their equipment. From all indications it is believed that both the farming and fishing industries will have an earlier start on the Island province this year than for many seasons in the past. Sales are picking up, collections are good, there have been practically no failures during the winter and now with the prospect of a good summer's business ahead, the retailers are showing more confidence, and the people are beginning to buy.

Study Tour for Boys

About the best thing a father can do for his boys is to encourage them to travel and see something of the world, before they become too keenly engrossed in commercial life. Travel is a great educator—it enriches the mind and fits the youth to better fill his place in life. A normal boy is observant—he assimilates and retains knowledge. Travel gives him his opportunity—it fits him for every phase in life.

A tour of Europe is at present being organized under the personal supervision of Mr. T. H. Matthews, M.A. (Oxon), Assistant Professor of Mathematics, McGill University and late Instructor—Lieutenant Royal Navy. In addition local guides will be secured to conduct excursions and give lectures on the artistic, historic, literary and economic significance of the sights seen and the places visited. A most carefully planned and interesting itinerary has been arranged including visits to Montreal, Liverpool, Chester, Stratford-on-Avon, Oxford, London, Paris, Versailles, Fontainebleau, Rheims, Lyons, Marseilles, Cannes, Nice, Monaco, Mentone, Genoa, Pisa, Rome, Naples, Sorrento, Capri, Pompeii, Vesuvius, Florence, Venice, Trent, Innsbruck, Munich, the Passion Play at Oberammergau, Nuremberg, Mayence, the Rhine, Cologne, Brussels, Louvain and Ostend, returning through London and Liverpool.

This exceptional tour starts from Montreal on Saturday, June 24th, calling at Quebec, by the splendid White Star Line steamship "Canopic" (12,100 tons). A period of approximately two months will be occupied by the tour as by the itinerary the return trip is made from Liverpool by the fine steamship "Regina" (16,500 tons) arriving at Montreal on August 26th.

The arrangements for this tour are most complete and the charge, which is a minimum one, covers everything in the way of transportation, hotel accommodation with three meals a day, transfers, sight seeing fees, in brief all necessary travelling expenses for the entire tour. Apply to any agent of the Canadian National Railways for further particulars.

"Tiz" Fixes Aching, Swollen, Sore Feet

Just take your shoes off and rest put those weary, shoe-crinkled aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost

talk and then they'll take another dive in that "TIZ" bath. When your feet feel like lumps of lead—all tired out—just try "TIZ". It's grand—it's glorious. Your feet will dance with joy, also you will find as pain gone from corns, callouses and bunions.

There's nothing like "TIZ" it's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. A few cents buys a box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.

A Life for A Dollar

NEVER was human life so cheap as it can be bought today in the famine districts of Russia. \$1 will save a child's life by providing food for a month. \$10 will save ten children from starvation. \$500 will establish a kitchen and feed 100 children until the next harvest.

Will you save a life with a dollar? Could any other dollar you have—or ever hope to have—bring such soul-satisfying returns? Wouldn't you sleep better—feel better—be better—if you knew that a dollar of yours saved a child's life?

Only—anything you do to save the children of Russia in their desperate fight against death from starvation, must be done at once. Won't you send the dollar NOW? A child's life depends on it.
