

THE ROAD TO HEALTH AND LONG LIFE

SECURED BY
HOLLOWAY'S PILLS.

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretory powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements for sustaining and repairing the frame.

Weakness and Debility

How many persons suffer from debility without knowing the causes why they are feeble! In most cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are therefore confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Diseases of the Head and Heart.

These formidable diseases are, unfortunately, of frequent occurrence; for the most part they creep on gradually, but may be prevented by proper precautions. Holloway's Pills are the surest preservatives against all derangements of the brain, and are the speediest correctors of irregular circulation. If they be taken without delay when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvellous.

Females of all Ages and Classes.

The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the peeress, universal favour is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach and Bowels.

Whenever the stomach, liver, or bowels are disordered by high living, climate, over-indulgence, undue exertion or other causes, these fine regulating Pills will soon rectify the evil, and speedily bring back energy, strength, and cheerfulness to the frame where previously all was lassitude, gloom and dejection.

Despondency, Low Spirits.

The misery occasioned by a disordered digestion is, unfortunately, felt by most. These famous Pills should be taken in appropriate doses to adjust the disturbed functions. They dispel headache, biliousness, nausea, lowness of spirits, and all similar ailments. A course of these invaluable purifying Pills never fails in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience.

Influenza, Diphtheria, Bronchitis, Coughs and Colds.

In our changeable climate, few persons escape without colds, sore throats, influenza, diphtheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure. While the Pills are expelling all impurities from the body generally, Holloway's Ointment should be well rubbed upon the chest and throat: it will penetrate the skin, reduce inflammation, and restore lasting soundness.

Holloway's Pills are the best known remedy in the world for the following diseases:—

Ague	Dropsy	Inflammation	Sore Throats
Asthma [plaints]	Dysentery	Jaundice	Stone and Grave
Billious Com-	Erysipelas	Liver Com-	Secondary Symton

N.B.—Directions for the guidance of patients in every disorder. There is a considerable saving by taking the larger sizes.

affixed to each box.
Sold by all Druggists

THE PRINTING PRESS

How wisely events follow each other in proper order! Just at the time when the mind of Europe was waking from a thousand years lethargy and when means were required to spread abroad the results of the inquiries which the learned were making in all branches of science, Caxton gave to the world the Printing Press. By its instrumentality the discoveries and inventions of one land have become the property of the entire globe, and the advancement of science has been greatly promoted. No man of the present age has more fully comprehended this truth than Holloway. The same intellect that led him to the studies which resulted in the production of his celebrated Pills and Ointment saw at once the immense advantage, to the world as well as to himself, which might be drawn from this source. He laid his discoveries before the world, sowing his seed broadcast, wherever a written language is read, and modestly awaited the result. His confident statement of his theory led men to try his remedies; their intrinsic excellence when once tried established them firmly in the confidence of the public of both hemispheres, and Professor Holloway stands now in the estimation of the people, as the most powerful opponent of all disease. For disorders of the liver and stomach, the Pills are claimed to be a swift and sure specific, and the claim is verified by an overwhelming mass of testimony. Now we all know how entirely the bodily health depends upon the condition of these two important organs. If the digestion is impaired, the bowels disordered, and the liver torpid or congested, the whole frame suffers; the strength declines; the spirits droop, the complexion becomes cadaverous, the flesh wasted, supineness and despair take the place of energy and hopefulness; the sick man becomes as dead to the great object and pursuits of life as if he were entombed alive. Out of his self-sepulchre, as it were, this powerful remedy lifts him as is by magic—a few timely doses of the Pills brings back digestion, appetite and physical energy. These statements are too plain and too easily contradicted if untrue, to admit of the lightest doubt. On the contrary we know them to be nothing but the literal fact. They are not founded merely on common report, but upon the testimony of parties occupying high positions in society—men of unblemished reputation and matured judgement—that likewise is confirmed by circumstances within our immediate knowledge.—*Iverach Telegram.*
