THE DOCTOR'S STORY

Further Details of the Sensation at Gravenhurst.

A PROMINENT PHYSICIAN INTERVIEWED—SCIENCE HAS ITS SAY—ALMOST A RESURRECTION.

(From our own Reporter.)

GRAVENHURST, Oct. 21.—Further investigation discloses the fact that there is hardly anything else spoken of in this town but Sam Murray's wonderful recovery. His case is considered marvellous, and no cure at the shrine of St. Anne de Beaupre ever startled people like his case has this section of the community. In the hotels you hear his name mentioned, and being well known along the different towns on the Northern railway, Murray's case attracts unusual interest.

Dr. Cornell is one of the most popular men in Gravenhurst. He runs a large drug store, and has a very extensive practice. He stands high in the medical profession, and is Grand Trunk physician for that section. His drug business is one of the largest in Northern Ontario. He was seen at his office. He said: "I have known Murray for a long time. He was employed on the Grand Trunk Railway as a brakeman for several years. His fingers were crushed and he was in a very bad way. He was carried into my office. He had fallen down on the street. I found that he was suffering from paralysis. He had been disabled until recently, but I don't care to talk very much of his case. I am not seeking cheap notoriety."

"But, doctor, I suppose you have no objection to answer a few queries to substantiate what Murray says?"

"Well, no; go ahead."

"Was Murray ill for a long time, and is it true that his disability claims were paid by the Grand Trunk? You attended him for some time, you say, and you should know?"

"Yes, I attended him, and he was pretty low. Although I never give up hope, I thought he would never be able to get about again. After he fell the first time he kept pining about and took three or four other spells. He was then confined to his house, and later on took to his bed. Boils and eruptions broke out on his legs and arms, neck and face, and his blood was in a very bad way. He kept gradually getting worse, and everybody thought he would die. He complained of his back very much. I attributed his disease largely to overwork. I believed he would never be able to resume his duties again. He was paid his total disability claim by the Grand Trunk at that time."

"How does it come that he is about and working again?"

"Well, you see as a professional man I hardly like to say. It might look as if I were lending myself to some advertising scheme, and I would rather say nothing on that subject."

"But, doctor, that is not fair. Does Sam Murray know what cured him?"

"Well, he says, and everybody says, it was some pills he bought here that cured him."

"What pills, doctor? Do you know the name of them?"

"There you go again. Now, I said I did not want to put myself in a false position before the profession."

"But he bought the pills in your drug store. What pills were they?"

"Well, I'll tell you the truth; they were Dodd's Kidney Pills; and remember, I want you to say, if you say anything about me, this is the truth. Sam got the pills here, and he says they cured him. They saved a lot of them to others and they all speak highly of them."

"Doctor, would you, as a physician, prescribe these pills in your practice for kidney troubles?"

"Yes, I would. Knowing the active principles of the pills they are such as I would prescribe to patients suffering from kidney troubles, for they are both a tonic and a diuretic."

"Doctor, is it true that diseased kidneys poison the blood?"

"Yes, the blood gets full of uric acid?"

"Will the curing of diseased kidneys cleanse the blood of uric acid and impurities?"

"Well, it is only natural to suppose that if you remove the cause of a disease you can expect a cure."

"Do you consider Sam Murray's case a remarkable one?"

"Yes, I certainly do."

"Yes, he got his sick benefits first through me, and then when it was expected he would die his total disability claim was paid through me also. I never thought Sam would recover. He says he was cured by taking Dodd's Kidney Pills."

THE PROPRIETORS.

Mr. J. A. McKee, of the firm of L. A. Smith & Co., manufacturers of Dodd's Kidney Pills, was seen at their place of business in Toronto. He was very busy, but was willing to speak of the Murray case. He said, in answer to some questions: "Yes, we have heard of Murray's wonderful cure at Gravenhurst through taking our Dodd's Kidney Pills. But his case is only one of many. Here are several others just as startling," pulling a bundle of letters out of a drawer. "We have not been advertising these pills to any great extent, and we are astonished at their rapid sale. The only way to account for it is that they sell in Toronto. Those who use them tell their friends about them, and they are advertised in that way. These pills are new departure in medicine. The formula has been used successfully by one of the most eminent specialists in the world for the cure of kidney diseases. But his services are only available for the wealthy, and even if the formula were known to all practitioners could not be made up by the drug stores for special facilities have to be arranged for compounding them. Hitherto kidney remedies have been put up in liquid form. A certain percentage of alcohol has to be put in such mixtures to keep the medicine. This alcohol, it has been time and again demonstrated, counteracts the beneficial effects of the drugs contained in the mixture, for there is nothing worse for the kidneys than alcohol, and it defeats the objects for which the remedy is intended. We obviate this difficulty by having the active principles of the drugs put up in concentrated form in the shape of a pill, which is easily taken. They are neatly put up in boxes with the trade mark 'Dodd's Kidney Pills' on each box, and are for sale by all druggists and dealers in medicines at fifty cents per box. We will mail them direct on receipt of price."

From these interviews with and the investigations made your correspondent has proved beyond a doubt that such a man as Sam Murray exists, and that the facts of his case as published in the Gravenhurst Banner are true in every particular. Not only does Sam Murray himself speak out, but his evidence is supported by documentary proofs and also by Dr. Cornell, a well known physician in Gravenhurst, the mayor of the town, the station master and others. Also that Dodd's Kidney Pills effected his cure after the case had been given up as hopeless.

Miss Annie Clark, of Philadelphia, stepped upon a match on Monday night, which ignited her hair to her clothing. Her injuries proved fatal. Moral—Don't wear long dresses.

William Chambers, aged 104, of Dawn Mills, a veteran of Waterloo, went to Sarnia a few days ago to visit the tunnel, and was given a reception by some of the leading citizens.

Rev. Dr. McCulloch and wife, of Truro, N. S., celebrated the golden jubilee of their marriage at that place on Thursday. They were the recipients of several addresses and many handsome presents.

Bishop Huntingdon says: "It is not scientific doubt, not skepticism, not pantheism, not agnosticism, not Romanism, that in our day, in this land, is likely to quench the light of the Gospel or reclusively Christ. It is a proud, censorious, luxurious, church-going, hollow-hearted prosperity."

Mr. Gladstone not only studies Homer, but in respect to the claim made that the great poet was born in seven different cities, the proud poet was in error. In a recent address, while not exactly naming more than one birthplace, he got around it in the following fashion: "I am a Scotchman by blood, and a Lancashire man by birth. I have lived most of my life in London, and in one way or another I belong to most parts of the country."

The German Emperor seems to oppose the exchange of titles for money by the marriage of German nobles to the daughters of wealthy Americans. It is too bad that the spirit of restriction puts an impediment in the way of such harmless reciprocity. As the Toronto Globe remarks, "if there is anything in the world that a Yankee loves better than money it is an aristocratic title, and as the German nobility are more blessed with titles than money, the common-sense principle of free trade should rule in the matter."
