in chemical baths when the plates are treated.

KEEP THESE IN MIND!
Some of the early signs of cancer are:
A lump in the breast.
Unnatural bleeding from a body opening.
A sore that does not heal, particularly of the skin, face, mouth or lips.
Any persistent change in bowel habits — such as diarrhoea or constipation.
Many Canadians are enjoying life today because they found that early cancer can be cured.
Keep these danger signals in mind and see your doctor if one appears.
