cost our merchants some money, but they and all our people will benefit tremendously," he said. Director of the P.E.I. Travel Bureau, Brigadier Reid was reviewing the 1950 tourist season, which he said was the best yet. In spite of the International situation and the unusually cold summer, six thousand more cars entered this Province than last year and increased our tourist revenue by some \$200,000.00.

The City Council, equally divided over the parking meter question, last night authorized the Worshipful Mayor, B. Earle MacDonald and City Clerk J. A. Fullerton to sign a contract for the installation of 150 meters. The motion was passed at the regular monthly meeting of the Council.

The twin automatic meters per meter use of one meter by two cars at the same time. The price of such a meter is about \$25 more than the single meter but its use halves the number of meters required.

The death occurred in the Prince Edward Island Hospital last evening of the Hon. Murdoch Kennedy, of Bradabane, a former member of the Provincial Government and former director of the Canadian Government Railways, and widely known throughout the Province in business and political circles. WEDNESDAY

—GRANTED SCHOLARSHIP— Mrs. Charles McDonald, Hanover Street, Summerside, has been advised that her nephew, Frank Walton, son of Mr. and Mrs. George Walton of Moncton has been granted a Lord Beaverbrook scholarship to attend the University of New Brunswick.

There is no reason why Prince Edward Island should not become the vacation Province of Canada. We have the beaches, scenery, recreation facilities, everything the tourist wants. The finest harness racing in the world, unsurpassed golf courses and tennis courts, all kinds of agricultural and fishing products to furnish the best in fine food, said the speaker.

Hon. C. C. Taylor, of New Brunswick, stressed the importance of greater attention to soil fertility. He also expressed opinion that margarine was "here to stay" and that protection must be given the dairy industry, a basic factor in the agricultural economy of New Brunswick.

One hundred and forty four twin automatic parking meters will be installed along the streets in the central shopping district of the City, it was announced yesterday following a survey of the location and signing of the purchasing contract by Mayor B. Earle MacDonald and City Clerk J. A. Fullerton. The meters will not be installed for at least 30 days.

FRIDAY

Impressive ceremonies are being planned for Summerside on Sunday by the R.C.A.F. It is "Battle of Britain Sunday" which is observed every year at this time by the Air Force to commemorate the gallant defence of Britain ten years ago by a handful of brave airmen and to pay tribute to the memory of those who gave their lives in that defence.

Very Rev. J. Elliott MacGuigan, S. J., eldest son of Dr. J. D. MacGuigan, Charlottetown, has been appointed rector of the Jesuit Seminary in Toronto for the coming term. It was announced yesterday. Father MacGuigan, a Doctor of Canon Law, brings several years of teaching experience to his new appointment. Ordained in Dublin, Ireland in 1936, he spent one year at St. Asaph's College in Northern Wales, after which he spent two years in Rome studying for his Doctorate of Canon Law. He returned to Canada in 1940 and has spent most of the intervening time in teaching.

OTTAWA, Sept. 14 (Special)— Works Minister Fournier today told the House of Commons that the Federal Government is now full owner of the site of the proposed Federal building at Charlottetown and that his department will probably ask for tenders to have buildings on that site torn down. Although pressed to make a more complete statement on the Charlottetown building by W. Chester S. McInnis, Progressive Conservative member for Queen's, Mr. Fournier said he was not prepared to commit the Government any further than for the demolition of buildings now on the site. The Minister also indicated that plans for the structure which have been under preparation for some time past, will be completed.

The staff of Prowse Bros. held a banquet at Sandy's Restaurant, Marshfield, last evening in honour of the Hon. T. W. L. Prowse, on his recent appointment as Lieutenant Governor of Prince Edward Island. Almost the entire staff of twenty-two was on hand to offer congratulations to Mr. Prowse, and under the chairmanship of Mr. P. B. McInnis, the evening was a most enjoyable one for all those in attendance. During the evening a presentation speech was made to Mr. Prowse by Mr. H. H. Jewell, after which a writing set was presented by Miss Mary E. Bradley on behalf of the staff. Mr. Prowse thanked the staff for their thoughtfulness, expressing pleasure as he looked back over the many years they had spent together, and speaking with optimism as to the future.

NEW YORK, Sept. 12 (Special)— Charlottetown stands out as a rich market, with income and spending at a level above that of most other cities in Canada. This is brought out in a new, copyrighted survey of buying power, prepared by Sales Management, covering all sections of Canada and the United States. The high standard of living prevailing in Charlottetown is indicated by the volume of retail business done in the past year. The local stores registered a sales total

of \$14,017,000, which was well above the city's quota. On the basis of its population it should have accounted for only 1.291 percent of Canada's business. Actually, however, it did 1.612 percent.

This \$14,017,000 sales record was a gain over the volume of business done the previous year, \$11,716,000. The ability of local families to spend more was made possible by better incomes. The 4,100 families in Charlottetown attained a gross income of \$13,027,000 in 1949. Dividing the one by the other yields a per family income of \$3,177, which was higher than the \$2,262 earned per family in Prince Edward Island.
