'Hands Off' Newfoundland Is Advice From Premier

Expressing the opinion that Newfoundland's strike problem is peculiarly its own, Premier A. W. Matheson said Monday night other provinces of Canada should adopt a "hands off" policy.

The Premier was speaking at a regular meeting of the Trinity United Church Men as part of a group of four panelists.

"I am not opposed to unions," he said. "But I feel that in this instance it is entirely a provincial matter and I somehow feel that if we in this province were faced with a similar problem we would react in much the same way."

Mr. Matheson saw a similarity in the Newfoundland dispute and that faced by Premier Walter Jones in 1947 when the Premier took over Canada Packers. "The people of Prince Edward Island showed their approval of Premier Jones' action by returning him with a resounding majority," he said.

Other members of the panel were Dr. George Fisher, director of veterinary services, Rev. Burton Crowe, minister of Park Royal Church and Peter Lewis, history teacher at Prince Wales College.

Y's Menettes Plan Show

The Centennial Y's Menettes met in the Y.M.C.A. last night to discuss the plans for their summer Fashion Show to be held this year in the YMCA Gymnasium, May 25th and 26th.

The setting will be different but the show will be the same with the relaxing cup of coffee afterwards.

The models for this year's show will be Mrs. Don Mitton, Mrs. Lyall Sterns, Mrs. Hal Shaw, Mrs. Ivo Cudmore, Miss Frances Campbell, Miss Sandra Johnson, Mrs. Kent Irwin, the Beatrice twins, Mrs. Ernest Bell, Miss Christine MacPhail, Mrs. Stuart MacKay, Mrs. A. L. MacIsaac, Miss Jane Hogan, Mrs. Kenneth Jenkins, and Miss Shirley Vessey.

The meeting concluded with a lunch at which time a lady slipper cup and saucer was presented to Mrs. Harold Milligan, past president of the club who is leaving to take up residence in Moncton.

Yankee Sub Sets Records

GROTON, Conn. (AP) — The U.S. atomic submarine Skipjack returned to port Sunday after going faster and deeper than any known submarine.

Aboard were seven members of Congress, the joint committee on atomic energy, and Vice-Admiral Hyman G. Rickover, who gave them a trial run prior to the Skipjack's commissioning next Wednesday.

BACKACHE May be Warning

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now.

P.E.I. Native Gets Council Scholarship

Francis Russell Beagan, son of Mr. and Mrs. J. J. Beagan of Donagh, was one of 86 winners of Canada Council scholarships announced recently.

Mr. Beagan, now an English instructor at the RCAF school of English, St. Jean, P. Q., won a scholarship for the Alberta summer school of linguistics.

Graduating from St. Dunstan's University in 1951 with a bachelor of arts degree, Mr. Beagan attended the University of Ottawa, from which he graduated in 1955 with a degree of education.

The Canada Council award covers tuition, room and board and transportation to Edmonton for the six-week course.

Senator Clinton P. Anderson (Dem. N.M.), committee chairman, said in a statement when the Skipjack returned: "While under way and submerged, the joint committee held an official committee meeting during which time the Skipjack was going faster and deeper than any known submarine in history. "For security reasons I can only say that we were deeper than 400 feet and moving faster than 20 knots."

These are figures that the navy customarily uses in discussing all of its nuclear submarines. Exact depths and speeds are secret.

SPACE RESEARCH THEME

MONTREAL (CP) — Dr. John P. Hagen, a native of Amherst, N.S., who now is director of the Vanguard earth satellite program in the United States, is to address the Montreal section of the Chemical Institute of Canada Wednesday on rocket programs and space research.

YOUR CHILD MAY HAVE WORMS

1 OUT OF 3 DOES!

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms or Round-Worms... ugly parasites that medical experts say infest one out of every three persons examined. Entire families may be victims and not know it.

To get rid of these ugly pests, they must be killed in the intestines where they live and multiply. And clinical tests have proved that JAYNE'S LIQUID VERMIFUGE kills both Pin-Worms and Round-Worms quickly and easily. Then they are expelled from the system in a normal manner and you are free of them.

JAYNE'S LIQUID VERMIFUGE has a pleasant, fruity taste. Children love it—take it without fuss or fret. Remember, Pin-Worms and Round-Worms are highly contagious and can spread through the whole family.

So, at the first sign of worms, be sure to ask your druggist for JAYNE'S LIQUID VERMIFUGE.

AGRICULTURAL NEWS

P.E.I. Department of Agriculture

On April 6th, the Beef Breed Associations, the Dairymen's Association and the Provincial Department of Agriculture announced a pasture improvement competition for the spring and summer of 1959. The object of this competition is to promote better understanding of the value of pastures and pasture management.

A minimum number of twenty entries in each county are necessary. Otherwise judging will not be carried out in the county. Any livestock farmer may enter. An official entry form may be received from the Secretary, P.E.I. Dairymen's Association, Box 546, Charlottetown. These must be completed and returned to that office by May 15th. Applications received after that date will not be accepted.

All fields that are set aside at the spring of the year for pasture must be entered in this competition. The fields will be judged twice during the spring and summer by judges appointed by the Dairymen's Association and the P.E.I. Department of Agriculture. Scoring will be done on a point system, the following factors will be taken into consideration: rotational grazing, top dressing with manure, harrowing, balance of grass and legume, freedom from weeds, access to shade and water, general appearance, clipping, supplementary pasture and estimate of carrying capacity.

Prize money will be awarded by the three sponsoring organizations to the extent of approximately \$350.00. This total will be divided into three prizes per county and two provincial prizes for those two farms judged to have the best pasture programs in this Province.

There is no entry fee and only the time to fill out entry form and the time to conduct the judges around the farm on their visits is needed. Much information of value could be obtained from the judges on their visits and this alone should be incentive to enter the competition. Why not write for your entry form now?

DOCKING SHEEP
All lambs, both male and female, should be docked when about ten days of age. Ewes with docked tails are more likely to get with lamb at breeding time and docking improves the general appearance of a group of market lambs. Moreover, sheep that have been docked are not likely to get very dirty around the rear quarters when turned out to lush pasture or rape. Docking is a simple operation if done at the proper time. A sharp jack-knife is quite suitable for this purpose. The lamb should be held with head up and back towards the attendant. The left front and right rear legs in the right hand. When held in this position the underside of the tail will be facing upwards. The second joint from the body of the lamb is located with the left hand of the operator. After the skin has been pushed slightly towards the body of the knife should be placed on the spot between the joints. The tail should be held straight out and the knife drawn quickly downward until the tail is severed. Lambs three weeks to a month old may bleed profusely. Bleeding can be stopped by tying a cord tightly around the stump and allowing it to remain their for 15, 20 minutes or until the blood clots. It is advisable to remove the cord joint, then severed with a pen. The knife should always be sterilized in an antiseptic before use.

Ice May Delay Seaway Opening

MONTREAL (CP) — Ice which has been slowing down St. Lawrence River shipping this season is expected to delay the official opening of the St. Lawrence Seaway.

Ice jams below Montreal have been keeping a fleet of government ice-breakers busy for the past two months and more jams are still occurring.

The ice-breaker d'Iberville is scheduled to take a large shipload of dignitaries for a cruise through the seaway canal system April 20 to officially open the system, but Montreal Harbor authorities expect the date will be set back.

Sunday, the icebreaker Ernest Lapointe battled ice rafted up to 25 feet at the entrance to the seaway channel and damaged her rudder in the process. Downstream, the Norwegian freighter Summoira grounded below Contrecoeur, about 20 miles from Montreal.

Tugs from Montreal and Sorel have gone to the aid of the Summoira, forced by ice into a clay-bank on her way down river. There was no report of damage.

Large quantities of ice are moving through Lake St. Peter, between Trois-Rivieres and Montreal, and while a number of ships, including the Polish liner Batory made it to Quebec Sunday, others have decided to wait it out in Trois-Rivieres and Montreal.

Until the situation has cleared, there is little chance of more departures from Montreal.

The Canadian Pacific Empress of Britain and the British liner Carinthia are scheduled to sail from here today.
