

THE DAILY EXAMINER

JUNE 13, 1898

The Toronto News rises to remark that while James McMullen, M. P., would economize by putting an end to Hansard, he votes for every job and wasteful expenditure that J. Israel Tarte proposes.

The value of live lobsters shipped from Halifax to Boston this season is estimated at \$77,000. The shipment of canned lobsters is approximately valued at \$245,934.

The Halifax Herald points out that it is being very reasonably remarked that the new relations between Great Britain and the United States brought about by the war this year, will be likely to add a new and serious difficulty in the way of Canada obtaining a preference in the British market. That is additional evidence of the tremendous mistake Canada made in having Laurier in London last June.

The death of Mrs. W. A. Weeks, which occurred early this morning, brought to a close a life, the past few years of which have been clouded with a severe and painful illness attended with much real suffering. All this was borne by the patient with patience and resignation. Now the long trial is over, and death has come—we feel more to relieve than to bereave—to take the sufferer forever out of this world of pain. To Mr. Weeks and the other members of his family as well as to Mrs. Roome the heartfelt sympathy of many of our people will go out today, and with them we join most sincerely.

Siftonian statesmanship is something new to this great country, and is hardly yet generally understood. One phase of it is thus described by the Winnipeg Nor'wester:—Not even the difficulties of dancing lessons and the numerous other activities which Mr. Sifton's social aspirations at the capital entail upon him have caused him to forget his country cousins. Social success has not blunted his natural affections, as, alas, only too frequently happens. His tender heart still recognizes the claims of his less exalted kith and kin upon him—or rather upon the country, which, so far as the taxpayer is concerned, is much the same.

In a recent issue of the Pekin Gazette an Imperial decree was published which shows the lamentable position occupied by journalists in China. According to the decree, the sentence of Editor Nong-tzi was commuted to simple decapitation. His offence consisted in the omission of some of the titles of certain Chinese Emperors who were mentioned in a work by Nong-tzi, and the punishment, according to Chinese law and custom, should have been quartering. Clemency was unexpected, and to many the commuting of the penalty seemed a regrettable weakness on the part of the Son of Heaven, but public opinion was satisfied when it was found that the decapitation of the children of Nong-tzi had also been ordered. Under such circumstances the power of the press in China is bound to remain undeveloped, and yellow journalism will be non-existent.

The news of the death of Mrs. Frederick W. Ings, formerly Miss May Dodd, of this city, will come as a terrible shock to very many who knew her. On the 27th of July last her marriage took place at St. Paul's Church, amid much rejoicing on the part of the friends and companions of the young bride. In THE EXAMINER of last Thursday appeared a notice of the birth of a son to the young mother, and today we are called upon to chronicle the lamentable news of her death, last Saturday, at Calgary, N. W. T. Thus within a year of her marriage the young life has been taken away and the loss will be sorely regretted by many intimate friends, who felt for their young companion the deepest and sincerest affection. To the relatives called upon to mourn the death of one so dear to them we offer our earnest sympathy.

A SPENDING GOVERNMENT.

(Montreal Star.)

Clearly the Laurier Administration has abandoned any notion of being economical. The call for retrenchment was a part of their platform which, like that of the street car, was not intended to stand on but to get in on. At all events, whatever they may have intended to do when they viewed the matter from the wide freedom of Opposition, they now believe in the efficacy of a spending policy.

Their defence will probably be that under their beneficent reign the public revenues increased even more rapidly than they had anticipated which left them nothing to do but to distribute the largess. This is not Liberal doctrine, but it would see it fit in well with the actions of this Government—which, it will be remembered, has been accused before now of lacking in true Liberalism. The Liberal idea has always been that customs receipts were taxes taken from the pockets of the people; and that a surplus of revenue meant an unnecessary amount of taxation. Consequently an expected increase of revenue would never suggest to the properly ordered Liberal mind, increased expenditure but a prompt reduction of taxation. If the Klondike and the high price of wheat and the natural growth of population have given Canada a term which has resulted among other things in the augmentation of our customs returns, as real Liberal Government of the kind we used to hear about when these gentlemen were in Opposition would immediately stop taxing the people to that extent by removing some of the duties which are pure taxation—say those on the sick man's lemon.

But the fact is that in this case, taxation has not been reduced and the money is being spent with gleeful recklessness. And the day will come when the Liberal will have to explain this charge of policy to the people. It will be well on that occasion to remember that it is neither good Liberal doctrine nor common sense to say that they had the money and might as well spend it.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg tells The Story of His Rescue from Diabetes.

TORONTO, June 13—(Special) Mr. H. Hogg, the well known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

Hair Hints

It is much easier to keep the hair when you have it than it is to restore it when it's lost. If your hair is "coming out" it needs instant attention. The use of AYER'S HAIR VIGOR will promptly stop the hair from falling, and stimulate it to new growth.

"Some years ago my hair began to fall out and I became quite bald. I was advised to try

Ayer's Hair Vigor

and had used it but a short time when my hair ceased to fall out and a new and vigorous growth made its appearance. My hair is now abundant and glossy. T. E. DUNN, Rockville, Wis.

DREW PAY, BUT DID NO WORK

And When Discharged Wanted a Certificate For Ability and Honesty.

"Fancy a fellow picking your pocket and asking for a 'character,' said a business man the other day. "That's been my experience. I hired a young man about a month ago to solicit orders for me on commission, with \$20 a week guarantee. As he turned nothing in after a fortnight I began to suspect that he was working for another firm and doing nothing to earn the \$20, so I told him that if no order materialized by the end of the week he must not expect to continue in my employ.

"I made inquiries which convinced me that he was doing what I suspected, but I got no legal proof that he was taking my money on false pretenses. So when the week was up I was forced to pay him a third \$20, making \$60 in all, which, I felt sure, he had done little or nothing to earn. Before doing so I told him of my suspicions, which was foolish, as I met only with denials which I couldn't disprove, although in answer to the questions of the cross examination I put him through he made statements which I knew to be lies.

"In spite of my accusations he seemed to think that my paying him the final \$20 was acknowledgment that I believed his denials, and after receiving the money he asked if I would give a certificate as to his ability and honesty in case he found it necessary to call upon me for one. I answered that I would at least sign nothing against him, for after paying him to no purpose money I could ill afford I didn't want to make an enemy of him, but advised him not to put me to the test."—New York Sun.

GREEN BADGES OF COURAGE.

Sashes Worn by Army Surgeons and Their History.

A great many people do not know why army surgeons wear green sashes. It is not so much an insignia of rank as it is a protection to the wearer. According to the code of war, surgeons are never shot or taken prisoners. To deliberately shoot a surgeon while he is wearing his sash is considered a violation of the code, punishable by death.

Because of this provision surgeons of one army never refuse to look after the wounded of the other army if it is possible for them to do so. During the civil war it was often the case that after a battle the field hospitals would contain almost an equal number of men dressed in blue and gray. The Federal army had the best surgeons and the best stores, and a wounded Confederate considered himself in great luck if he was removed to a Federal hospital to be cared for by Federal surgeons and physicians.

But in the heat of battle a green sash is not much protection, and surgeons were often wounded or killed. But this did not keep the surgeons at the rear until the battle was over. They were often found in the thick of the fray, dressing wounds and sending the wounded to the rear. Theirs was a perilous as well as a noble duty, and they performed it well.—Omaha World-Herald.

A Popular Choice.

Lady Casterlose heads the list of the newly elected poor law guardians of Killarney. She was nominated by her father-in-law, the Earl of Kenmare. Her election, it is said, has aroused the greatest interest among Ireland's poor, who hope that if members of the aristocracy take up such duties larger measures for the relief of distress will follow.

WATCHES

THE watch trade has been rather fluctuating of late, first the price went up, after a long period of low prices, now the prices have dropped again, whether because of war or greater variety of production we cannot say, but the fact remains that you can buy from us a reliable timekeeper cheaper than ever before, in fact that there is no need to buy shoddy goods at all.

If you want a good and also the cheapest watch for the money, we recommend a good movement in a nickel case instead of a poor one in a fine looking colored case that will only wear a very short time.
