Sadly missed by her daughters,

Ethel and Alma.

ISLAND UNION INSTITUTE MEETING IN CHARLOTTETOWN OVER WEEK-END

"I believe the group gathering here will have a very good future if you go ahead together," said Premier Matheson in addressing the dinner meeting of the Island Union Institute held at the Charlottetown Hotel last evening.

Guest Speaker

Guest speaker H. A. Chappell, National President, GBRE and Executive Committee member CCL in his opening remarks said:

"It is significant that we are sitting down with the heads of government, provincial and civic, and the leaders in education this evening. A privilege which is denied for many countries. We should all be proud and happy to recall the union meeting held here in 1864, and the developments which have taken place in Canada since that time. 80,000 people have taken part in week-end educational groups during the past year in Canada, which are designed to stimulate everyone to do a good job. We cannot insulate ourselves against outside ideas," the speaker said, "and there is no end to the development of intellectual curiosity."

He stressed the need of adult education and the flexibility of the movement in many channels. He quoted Dr. Coady in saying: "If every man and woman in Canada had a college degree, we would still require adult education."

The speaker described in detail the development of education in Sweden and conditions as prevailing there today where rural and urban people live in unusual harmony and comfort.

"Ninety per cent of the people are members of their particular union and are sent to adult education centres at the cost of the union, which also pays their wages while in attendance. 23,000 study groups are in operation every week, with more than one hundred thousand persons studying English as one subject."

"It is heartbreaking to meet people from backward countries," the speaker continued. "I have met them, even from behind the Iron Curtain. One half the population of the world can neither read nor write, most of them hungry from birth to death and constantly facing starvation."

"We Canadians, as a nation, can no longer afford the luxury of isolation while half a million workers in Bombay, for instance, work daily but sleep on the streets because their earnings are not sufficient to pay rent for the meanest hovel. China has its famine every year, while in Egypt, where prices approximate our own, thousands of workers receive less than \$200 per year and many hundreds exist on three dollars per month. In Latin American countries where ten, twenty and thirty cents a day is paid labour, the men and women

are not fed or housed as well as the animals with which they work.

"With more than two billion bushels of wheat rotting in Canada and a billion and a half people starving throughout the world, I submit that the wheat should be moved into empty bellies," the speaker said.

With 80,000 Canadians now out of jobs, with most of their unemployment insurance run out, there is definitely an emergency which cannot be overlooked for long in this country, the speaker continued.

Falling to take a realistic view of the situation could create a disaster similar to the depression years. Between 40 and 60 per cent of the people of Canada fall to exercise their franchise, which we believe can be overcome, as part of the program of adult education. Our citizenship in this vast country is a wonderful privilege which, however, carries grave responsibilities and obligations. As a segment of national construction we should exert every effort to improve and maintain conditions on a high level in Canada and make a worthy contribution in winning bread, peace and freedom for others not so happily situated throughout the world," Mr. Chappell concluded.

Other speakers were Councillor A. Walther Gaudet, representing Mayor Stewart, who is out of the province, who extended a warm civic welcome and expressed the Mayor's regrets. "Under competent leadership such good can result from an educational program which can benefit this community and province," Mr. Gaudet said.

Rev. Father Simpson of St. Dunstan's University said there was a great need for adult education which could improve the understanding between farmers, fishermen and other workers. Credit Unions, the co-operative movement and other organizations designed to help socially and financially would probably be glad to assist in forwarding the educational program undertaken by the Island Union Institute.

Dr. Frank MacKinnon, principal of the Department of Labour Conciliation Board for several years which he thoroughly enjoyed; He felt confident that with government, labour and management groups participating, the economy of the province would be enhanced and its future outlook broadened.

The course leader, F. D. Nicholson, representative of the GBRE and OTW, Halifax also spoke briefly.

More than 150 were in attendance, half of whom were wives of participants in the educational course which was conducted on Saturday and yesterday at the Vocational School.

Al MacLean was chairman of the meeting; the institute committee being composed of James Atkinson, Leo Dowling, Russell Doyle, Eric Jay, Everett MacLeod, John MacLeod, James McCormack, Lemuel Rush, H. Shurman, J. Coles and Warren Gallant. Jack Hennessey was registrar. Unions represented were, Canadian Brotherhood of Railway Employees and other Transport Workers, United Packinghouse Workers of America, Labour Protective Union and United Steelworkers of America.

Valuable Island Jersey Bull Sold

Edison B. Mutch, North River, Prince Edward Island, on of the outstanding Jersey breeders in Eastern Canada, has sold another one of his bulls to the United States — "River North Pansy's Dale, a 2 year old bull, to Harold & Robert Masse, Nashua, Iowa. U. S. A. Dale is a son of Mr. Mutch's grand champion bull, Jersey Standard Dreamer, grand champion at the Royal Winter Fair in 1952, the bull which he has recently sold to one of the foremost herds in Ohio.

The name of Dale is Mutch's Pansy, grand champion at Charlottetown in 1952 and 1953. She has several records, one of 16,221 lbs. of milk and 846 lbs. of fat, Mutch's Pansy is not only famous as a champion show cow and as a producer, but she is also the dam of River North Pansy 2nd, who has recently become the Canadian champion mature cow in the 305 days class on 2 times milking, for butterfat production with 854 lbs. of fat, and 15,769 lbs. of milk.

Dale is an intensely line bred bull, being the result of the mating of half brother and half sister. Both the dam and sire are from the grand champion cow, Dreamer's Maid. This cow is classified Excellent. She has several R.O.P. records, and at 6 years in 305 days, produced 12,624 lbs. of milk and 584 lbs. of fat. She has been grand champion at Charlottetown and the Maritime Winter Fair. As already mentioned, she is the dam of the grand champion bull at the Royal Winter Fair in 1952, dam of the grand champion cow at the Charlottetown Exhibition in 1952 and 1953. She is the dam of other grand champion offspring, including the cow who was grand champion several years ago at the Maritime Winter Fair.

Dreamer's Maid has two full sisters, Standard's Drive Flora, classified Excellent, who, as a 4 year old in 365 days produced 15,304 lbs. of milk and 746 lbs. of fat. The sire of the dam of Dale is Pansy's White Aim, an outstanding sire used in P. E. I. for some time, and now in the New Brunswick Artificial Breeding Unit at Fredericton. Pansy's White Aim has won the Get of Sire over Prince Edward Island several times. Some of the highest record cows on the Island are sired by Pansy's White Aim.

So, if ever a bull was bred for high production and outstanding type, River North Pansy's Dale should fill that bill!

WINS LITERARY AWARD

TORONTO, (CP) — A children's book on Eskimos, written by Alma Houston, won the Women's Canadian Club of Toronto literary award for 1953. Purpose of the \$200 award is to encourage young Canadians to continue contributions to Canadian culture. Mrs. Houston received the award not only for her book "Nuki" but for her work among the Eskimos.

Wool production in Canada in 1953 reached 8,621,000 pounds, or 12 per cent more than 1952.

Officials At

state of some confusion by what seems to be, in their eyes, a political somersault.

Barely two weeks ago President Eisenhower and vice-president Richard Nixon were saying that under no circumstances can Indo-China be permitted to fall to the Communists. That presumably meant the Communist-inspired Vietnam, who are the native nationalists fighting against the Bao Dai government, as well as the Chinese Reds who are aiding them.

Admiral Arthur Radford's hurried trip from Europe to Washington and a series of statements from senators and cabinet members led nearly everyone to believe the United States was on the verge of sending troops here.

ABOUT FACE PUZZLING

Officials here are at a loss to explain the apparent about face in America's get-tough policy toward the Communists here. It is being suggested that Australian Foreign Minister Richard Casey, and through him Prime Minister Churchill may have had a hand in toning down the increasingly belligerent declarations issued from Washington.

The Viet Namese, as a result of what they consider a changed American attitude, no longer seem to be thinking in terms of U. S. participation. Gen. Nguyen Van Hinh, chief of staff of the Viet Namese army, said Saturday he foresaw no American intervention. In fact he came out flatly against internationalizing the war whether Geneva succeeds or not.

If Eisenhower's statements are comparatively conciliatory today, the Viet Namese see in one part of his declaration a clear indication

Caretaker Of City Barn Found Dead

John Power, 73, caretaker of the City barn at the bottom of Pownall Street, was found dead a short time before midnight last night. Death was due to natural causes.

The body of the deceased was found by Mr. Warren MacCormack. Mr. MacCormack had brought a lunch to the barn for Mr. Power about 11:30.

He is survived by a nephew William Power of Charlottetown and two nieces from out of town.

MANY LAKES

The Kenora district of northwestern Ontario has more than 1,000 named lakes, and at least 2,000 unnamed ones.

(Don he intends to act and quickly if the situation requires it later on. This is his assertion opposing any restrictions which prohibit him from sending U. S. troops to Indo-China without prior approval of Congress.
