

Part 2 What Must Be Done

ning around the Island seeking out public opinion as to how the University should operate.

STUDENTS WATCH OUT!
The PEI government, led by the infamous Alex Campbell sends committees around the Island to seek out public opinion on concerns in which the government has an interest. Although it looks like the government is trying to find the proper course to take guided by "public opinion" so as to meet the peoples needs, what they are doing, **IN FACT** is testing the public to see whether or not they can get away with implementing a program **THEY** (Gov't) want. They use this tactic to confuse and mislead the people and to lead them to believe they are "working in the people's interest"

But the facts show that the people seldom, if ever benefit from Campbell's schemes.

The Committee on Aims and Objectives guided by Rahman (psychology), Loucks (Chemistry) and Barb Stevenson (one student a minority of course; but its good to get a student in on the plot for it gives the appearance that the students favor it!) is doing exactly the same thing!! Why?

For the past two years, more and more students have been becoming increasingly aware of what's going on - and management knows that

if they want to retain power and dominance over students and the educational process generally, they must jockey their position by changing the rules in their favor! That is why they have held all those meetings to find out "what the people are thinking" "what their expectations are," etc. And this is done like the Campbell government, to plan their strategy **AGAINST STUDENTS**; to maintain control because they have vested interests in maintaining things as they are now.

STUDENTS WATCH OUT! This is a reactionary scheme against you by the government and the University elite!

If the committee on Aims and objectives was for students why do students have such a difficult time getting their voices across? An example of this is in the Feb. 4th, 1975 edition of the Cadre, p. 7, written by Jo Anne Ings:

"No matter what the initial discussion or the intent of the meeting it seemed that the conversations & arguments ended up at the same basis "There appears to be **TWO CONFLICTING ATTITUDES** concerning what direction we are heading for. The elitests & only/or bureoucrats have 1 idea and sorrowfully have the authority to **FULLFILL THEIR OWN PERSONAL IDEAS** which, in turn, **EFFECT THE ENTIRE UNIVERSITY COMMUNITY**

.... and those persons (students - SD) who have their ears tuned to the heartbeat of the campus, know or have a fair idea of what direction the University should be heading.

"When **THESE TWO FACTIONS COME TOGETHER FOR THE PURPOSE OF DISCUSSING UNIVERSITY OBJECTIVES, ETC. THE LITTLE GUY** (read - **STUDENT BECOMES STRANGLED BY THE BIG GUY**(read - **MANAGEMENT**)"

Your article is of tremendous importance Jo Anne. With Lousie Mould, Richard Willis, Art Laffin, Colleen Warren & David MacRae, the true direction of UPEI is off to a fine start!

When the USDU is dealing with faculty, administrations and government, the students will soon see what measures will have to be taken to ensure they are negotiated with: protest, demonstrations, class boycotts, building occupants sit-ins, etc.

Management will employ every means at their disposal to suppress student attempts to democratize the University:

- 1 setting public opinion against students;
- 2 using police force
- 3 dismissal of student leaders;
- 4 legislating "emergency measures" to outlaw student demonstrations;
- 5 attempts to "sit student

against student, etc."

- Your most dangerous opponents are:
- 1 Ronald J. Baker
 - 2 Alex Campbell
 - 3 Michael Hennessey
 - 4 Dennis Clough
 - 5 Ken Ozman
 - 6 Regis Duffy
 - 7 M. Rahman
 - 8 L. Loucks
 - 9 Gordon Bennett
 - 10 Charlottetown Chamber of Commerce
 - 11 R.C.M.P. & Ch'town Police

There are many many others, but these are your principle ones. You have only yourselves to rely on at first, but, in the course of the struggle your leaders may be successful in obtaining support from the PEI Federation of Labor (Jim Guyurus); National Farmers Union (Urban Laughlin & Allison Ellis) and other progressive organizations on PEI. Your success will trigger similar struggles right across the North American Continent, because students are oppressed everywhere and are in need of exemplary leadership which UPEI would provide as the struggle becomes more and more apparent in the mass media.

EQUAL POWER TO THE STUDENTS!

WITH COMRADELY GREETINGS
Stan Dalton
