MR. AND MRS. CHESTER MACSWAIN CUT CAKE

Peters Road Couple Observe 50th Wedding Anniversary

MONTAGUE — The anniversary of a half century of marriage was celebrated recently by Mr. and Mrs. Chester McSwain, Peters Road, with a family supper held at the Kingsway Motel Montague.

In the evening Mr. and Mrs. McSwain were "at home" to their many friends at the home of their son and daughter-in-law Mr. and Mrs. Blair McSwain, Alliston. A delicious buffet supper was served by the four daughters-in-law.

The two granddaughters, the Misses Valerie and Marlee McSwain were in charge of the guest book.

Mrs. McSwain's brother, Harold Graham, Summerville, Mass., was present for the celebration. Also five of their six sons were present.

One son William, Peterboro, Ont., was unable to attend but telephoned during the evening to extend congratulations.

Mr. and Mrs. McSwain received many lovely gifts, among which was the outstanding gift of six one ounce wafers of fine gold from their six sons.

They also received many letters and cards from friends and relatives also letters of congratulations from Prime Minister Pearson, A. W. Matheson and John Mullally, MP.

The evening was pleasantly spent with a sing-song and instrumental music.

FED. OF AGRIC. NEWSLETTER

Large Membership Vital To Ensure Effective Job

To be effective and influential the Federation of Agriculture in common with other organizations requires support both financial and of membership.

A general farm organization, and this describes the Federation due to the broad nature of its responsibilities and operation, requires considerable finances and here a problem arises as there are some difficulties in demonstrating to the farmer that his interests are as apparent as with the special organizations such as breed associations, and commodity groups.

The Federation of Agriculture in this province assumes in its office responsibility for a number of other groups and the services provided in many cases far exceed in cost income from the particular group.

The Federation places very considerable value on its independent status in that it does not expect or seek grants from government. The reason should, of course, be obvious. If there is to be an effective Federation there are only two sources of income-individual farmers and member organizations.

With the current settlement going out from dairy plants in this province is included a folder drawing the farmer's attention to the Federation of Agriculture and asking his support in a membership way. The membership fee of $5.00 is generally deducted from a later settlement which in this case will likely be the first one in September. Naturally the Federation hopes for strong and increased support in this way as the demands being made upon it are increasing from year to year. In addition, as one of the opening features of Centennial Year the annual meeting of the Canadian Federation of Agriculture takes place here in January 1964.

The difference between an adequately financed Federation and one starved for revenue can be far greater in terms of effectiveness than the money involved would indicate. Farmers are reminded that they have been relieved of hospital insurance premiums and that demands on their cheques are correspondingly lighter, a fact which it is hoped will make the dairy producer more favorably inclined to support the Federation.

TOURIST OBSERVATIONS

Gleaned from remarks heard from conversation with visitors from the United States and other parts of Canada, "You don't mean that this lovely farm land can be bought for less than $100.00 per acre."

"In our state land like this costs over $1,000.00 per acre".

"We have one grower with 40,000 acres of potatoes."

"The average size of the dairy herd in our Co-op is 120 cows."

"We have one member who has 1,700 milk cows."

"Your tourist literature is very good but it should feature agriculture more than it does."

"Your agriculture is one of your great attractions, why doesn't your tourist literature say more about it?"

"What makes those Island potatoes taste better than ours?"

"Your people outside of agriculture don't seem to know much about it or be very interested in what the farmer is doing."

BRITISH DAIRY QUEEN

It is now definitely arranged that the British Dairy Queen Miss Rosemary Manister will visit this province arriving the evening of September 13th and leaving for Nova Scotia on September 16th noon.

The queen will be accompanied by Mrs. Valerie Boyd, Public Relation's Executive of the National Dairy Council of England and Wales. While no definite arrangements have been made for functions and entertainment some thought has already been given to these matters which will be worked out jointly by the Dairymen's Association and the Department of Agriculture. Where possible the visit will be used to direct attention to the dairy industry and its importance. Press, radio, and television will be involved, it is hoped, and public functions arranged in order that our people may meet the visitors.

DAIRY PRINCESS

We would like to compliment the Junior Farmer's Federation on a good idea for adding a junior competition to the Dairy Princess program. This junior competition will serve a useful purpose in bringing forward contestants for the senior program. To the young ladies who entered this competition and to those who led it, we offer our congratulations.

On Saturday the senior competition takes place and from our knowledge of the entrants we can look forward to the province producing a very creditable representative for the national competition.

NEXT WEEK

Given the right weather — and it usually is good — Old Home Week will produce a tremendous surge of interest, activity, entertainment, education, and traffic congestion. Here is a week with something for everyone ranging all the way from candied apples to the thrill of the close finish in front of the grandstand and the more modest but basically more important crowning of the champions in the livestock arena. Old acquaintances are renewed, new ones are made, the men lean over the stock pens and debate the relative merits of the animals, the women eye the handicraft and wonder what the judge saw in that exhibit. The aroma of the cooking temps small boys to petty larceny.

The various rides will produce everything from thrills to vertigo. If previous years are an indication some really good acts will feature the show in the coliseum. Ice cream will be consumed in great quantities and dairy drinks strive to hold their own with a host of competitors.

BARLEY ERROR

Last week's newsletter gave this year's barley acreage as 1,800 obviously the figure should be 18,000 to make the item appear reasonable.

NEW YORK

NEW YORK (AP)—The stock market rallied strongly Friday on the heaviest volume in a month.

A broker said that with Thursday's Securities and Exchange Commission's investigative report out of the way, the market had "room to breathe."

In addition to relief at the mild tone of the final chapters of the SEC study of the securities industry, the market was helped by an optimistic appraisal of business by the Federal Reserve Bank of Chicago, hopes for a break in the railroad work rules deadlock and progress of the tax cut bill in Congress.

The market opened mixed but quickly picked up the rally that fizzled Wednesday and moved ahead steadily.

Leadership was strong and widespread, extending far beyond the usual circle of blue chips.

The advance spread through the steels, motors, rubbers, utilities, nonferrous metals, chemicals, rails, oils, airlines and drugs. Aircrafts and tobaccos declined. Farm implements and building materials were mixed.

Volumes spurted to 4,040,000 shares, highest since Aug. 11, from 3,460,000 Thursday.

The Associated Press 60-stock average advanced 1.3 to 272.3. Based on the rise of this average, an estimated $1,850,000,000 was added to the quoted value of stocks listed on the New York Stock Exchange.

The Dow Jones average of 30 industrials rose 4.21 to 708.39.

Parke Davis, continuing to ride high on reports that it has a new birth control pill, again was the most active stock rising 2¼ to 31¼ on 252,800 shares.

U.S. Steel and Jones and Laughlin, improving late in the session, each advanced about a point.

Among Canadian issues Aluminium Ltd., McIntyre Porcupine and Hudson Bay Mining gained ⅛ and Walker Gooderham ¼. Canadian Pacific dropped ¼ and Distillers Seagrams ⅜.

Prices advanced on the American Exchange. Among Canadian issues, Molybdenite gained ⅛, Fargo Oil dropped 1-16 and Scurry Rainbow Oil ⅛.

MONTREAL

MONTREAL (CP)—After two losing days, the stock market showed signs of regained strength Friday on the Montreal and Canadian exchanges.

Declines equalled advances exactly, at 64, but the composite index was ahead 0.2 to 120.0.

All sectors were better, with the exception of Banks, down 0.5 at 121.0. Royal fell ½, Imperial lost ⅜ and Provinciale and Nova Scotia were lower by ¼.

In industrials, the index rose 0.2 to 120.4. Du Pont, Massey-Ferguson and Labatt were all up ¼ and CPR was better by ⅛.

Losers included Montreal Locomotive and Reitman's, down ½, Hawker Siddley, off ¼ and Dominion Tar and Chemical lower by ⅛.

Utilities were also stronger, gaining 0.3 to 117.7 on the index. Papers were ahead 0.5 at 105.8.

School System Tie Suggested In Que. Action

CARLETON, Que. (CP)—The combined education ministry should be a meeting place for Quebec's Protestant and Roman Catholic school systems, Youth Minister Paul Gerin-Lajoie said Thursday.

The two systems have been "entirely too far apart," he told a group of English Protestant school officials at New Carlisle during the seventh day of a tour through the lower St. Lawrence region.

"I would perhaps go as far as saying that the two systems do not know one another," Mr. Gerin-Lajoie said.

He noted that the parent royal commission, in recommending creation of an education ministry, had called for more co-operation between the two systems.

"But, while seeking closer co-operation, the commission made it very clear that it did not intend complete integration."

The commission's report led to presentation of legislation creating an education ministry. The legislation was shelved to give interested groups a chance to study it.

Mr. Gerin-Lajoie and officers of his department have been discussing the bill with education groups in this region.
