Annual Convention Of C. T. I. Held

At the annual convention of City teachers in Rochford Square School on Friday, October 7, Mr. Austin Kennedy was elected president for the ensuing year. Other officers chosen were the following: Vice-president, Miss Anna Matheson, W. K. S.; Secretary, Miss Flora MacIsaac, R. S. S.; Executive members, P. S. S. Barbara Pound.

After committee appointments, a brief business session followed, with President Anne Walsh as chairman and Miss Olga Toombs, secretary.

In her presidential report, Miss Walsh briefly outlined the work of the Institute during the past year, making special reference to the Education Week lecture by Professor A. S. Mowat of Dalhousie University, and the work of the salary committee. Miss Walsh paid sincere tribute to two highly esteemed members of our Institute, Miss Margaret Butler and Reverend Sister of the Resurrection, whose untimely passing is so deeply mourned.

The general-secretary of the P. E. I. T.F., Miss Estelle Bowness, very capably reviewed the past year's activities both provincially and nationally. She noted particularly the greatly increased attendance all conventions have shown and expressed her delight with the growing interest in educational affairs by both teacher and general public.

Three of our provincial teachers, Mrs. Janet Baker, Miss Isabel Woolner, and Mr. Wendell Phillips attended a C. T. F. seminar in Ottawa this past summer.

Of considerable interest and importance to all Canadian teachers is the statement made by Miss Bowness that the C. T. F is contemplating the establishment of a Canadian College of Teachers similar to that of the College of Physicians and Surgeons.

The privincial secretary concluded her remarks by challenging each teacher present to reaffirm his faith in our organization.

To conclude the morning session, Miss Lynnie Aitken and Miss Alice Fraser showed educational slides which they had taken during their European trip last summer. A second group of teachers, who had prevously enjoyed these slides, adjourned to the Music Room, where several educational films were shown.

The afternoon session was highlighted with addresses by Deputy Minister L. W. Shaw and City Superintendent K. A. Parker.

The topic of Mr. Parker's address was "Implications of Research for Classroom Practice." He pointed out that there has been a great deal of research carried on during the past fifty years on the field of education and child development. The results of this research are now available to us as educators. It is scientific and we as teachers should be guided by such facts. Mr. Parker challenged the teachers with the quotation "It is not enough to do good. One must do it in the right way."

The second speaker, Dr. L. W. Shaw began by making criticism of such educational writings as appears in "Johnny can't read." As teachers, we must ever be studying and balancing such critical books and pamphlets, one against the other. Only in this way can we reach our own best conclusiveness in educational research.

The speaker made a general survey of the work of the C. E. A. particularly stressing the work of the Kellogg Foundation Project, so beneficient to educational supervision.

The report of the resolutions committee was brought in by chairman, Mr. Thomas Bradley.

Lieut Col. Frank J. Storey, E.D., Charlottetown a former President of the Canadian Signals Association, was elected Vice President of the organization for the Atlantic Provinces at their annual meeting held at the Royal Canadian School of Signals near Kingston, Ont. last week. British Labor Agrees On Win Back Votes Plan

By RANALD MACLURKIN

MARGATE, England (Reuters) The Labor party Monday junked a proposal urging a wholesale nationalization of industry, but agreed on a long-range program to "win back the voters" by 1958.

The party overwhelmingly rejected a left-wing program for socializing several more industries after veteran politician James Griffiths declared "the task we have to undertake is not to sit down and draw up lists of industries to be nationalized."

In the early part of the debate, which opened the annual convention, rank-and-file members demanded that the party adopt "red-blooded Socialist" policies to offset its sweeping defeat at the polls last May.

But late in the afternoon, almost all the 1,246 delegates voted "no" to the Glasgow Labor party's resolution to push for state-ownership of banks, buildings, and of the iron and steel, textile, engineering and shipbuilding industries.

The nation's railroads and telephone systems already have been nationalized under labor governments, and the Glasgow proposals called for wholesale confiscation of the private businesses involved—with no compensation paid.

The view of the party leadership, which approves the principle of nationalization, was expressed by Griffiths. He said what is needed is a survey and analysis to help the party decide the future role of natonalized public ownership in the Labor view of society.

Wilfred Heywood, chairman of the economic committee of the powerful Trades Union Congress, said those who advocate the nationalization program "have very little real background or knowledge behind them" to make it succeed.

The "new look" policy reform proposals made by Griffiths called for these subjects to be thrashed out at the party's next three annual conventions: housing, ownership of industry, the nuclear age and automation, education, social security, agriculture, planning and control, and the individual and society.

Dulles Challenges Soviets To Help Disarmament

By JAMES DEVLIN

MIAMI, Fla. (AP)—State Secretary Dulles challenged Soviet leaders Monday to open the door to disarmament and peace by accepting President Eisenhower's proposal for an exchange of military blueprints and aerial inspections of one country by the other.

Dulles declared in an address before the American Legion convention that the United States will not disarm "unless we can be sure that others are doing the same."

The secretary emphasized that he regards the president's proposal as the key to a future free from war.

DEDICATED TO PEACE

"One of the great gains of the summit' conference at Geneva was that it gave President Eisenhower an opportunity to demonstrate, so that none could doubt, our nation's dedication to peace.

"I refer particularly to his spontaneous offer to exchange military blueprints with the Soviet Union and allow them to overfly the United States on a basis of reciprocity.

The secretary referred to the Soviet Union's new "friendly" look but noted that "Soviet Communst doctrine has persistently taught retreat and zig-zag as a tactic of conquest."

"So we cannot tell," he said, "whether what is going on marks a genuine change of purpose or whether it is merely a menoeuvre.

"We have to have plans that are responsive to either contingency. They must not rebuff a change which might be that for which the whole world longs. On the other hand, they must not expose us to what could be mortal danger."

PRESSURE OF OPINION

Dulles expressed faith that world opinion will help cure the world's ills.

"World opinion will act as a compulsion on the Soviet Union to relax its grip upon East Germany and to permit the unification of Germany.

"Also, I believe that world opinion will compel the restoration of national independence to the captive states of eastern Europe.

"Independence must also come to those dependent countries—those colonies—whose people desire independence and are capable of sustainng it."

Stage Being Set For Influx Of U. N. Members

UNITED NATIONS, N.Y., (CP) —The stage is being set for the biggest influx of new members to the UN since its founding in 1945.

Under a plan being pushed by Canada, 18 countries—five Communist and 13 non-Communist—would gain simultaneous admission.

Canadian authorities emphasize that much further negotiation will be required before the plan is brought to fruition, and they concede that serious obstacles may yet arise.

Despite these reservations, they are openly hopeful that most if not all the 18 applicants can be brought to membership at this session of the General Assembly.

It is understood that besides Canada, Yugoslavia is also playing a mediator's role in attempting to break the deadlock which has kept the UN doors closed since Indonesia was admitted as the 60th member in 1950.

The 18 countries are Ceylon, Japan, Austria, Libya, Italy, Finland, Jordan, Nepal, Cambodia, Laos, Portugal, Spain, the Republic of Ireland, Hungary, Romania, Bulgaria, Albania and Outer Mongolia. The last five are Communist states.

Four applications have also been received from divided states—Korea and Viet Nam—but the consensus here is that these have little chance of being accepted.

China does not enter into the membership question directly, since the problem here is not whether the country should be represented but which government—Nationalist or Communist—Should occupy its seat.

Neither West Germany nor Communist East Germany has applied for membership.

Local Speakers Address Young Adult Conference

Young adults should be particularly concerned to become informed on the principles fo democracy and to exercise the responsibilities as well as enjoy the privileges of citizenship, stated Dr. Frank MacKinnon, Principal, Prince of Wales College, in addressing the sixty-five young adult delegates, who convened at the Charlottetown Y.M.C.A. over the Thanksgiving weekend for the tenth annual Maritime Phalanx-Phi-at Conference.

Speaking at the opening session Saturday afternoon, Rev. Marvel Dunbar, Charlottetown Charistian Church, stressed that young people should not await a dramatic "call" before giving serious concern to the challenge of religion fo their lives and their times.

Coun. A. Walthan Gaudet, in bringing greetings from the City of Charlottetown, outlined interesting features in the history of the conference site and made a forceful appeal for greater cooperation between people in the community, the Maritimes, and Canada as a whole.

As discussion leader Monday morning, Dr. George Fisher, headed an intensive discussion on the careful selection of vocation as the basis of happy and successful living. Speaker for the closing banquet, Mr. Al Tyler, General-Secretary of the Moncton Y.M.C.A., pointed out that young adults bear a double responsibility in winning recoginition from their elders at the same time that they are serving as examples for those younger than themselves.

Formal expression of thanks and appreciation were extended to Mr. Barry Beers, who as President of the Maritime Phalan Tribunal, served as Conference Chairman, and to members of the local host clubs for the success of the Conference. Mrs. Ernest Bell, chairman and members of the "Y" Ladies Auxilliary were singled out for particular praise for the wonderful meals enjoyed over the weekend.

After making tentatve plans to hold the next Conference in Halifax, the Confernce group adjourned at 1:30 p.m. to afford delegates time to return to their homes in Moncton, St. John, Truro, Fredericton, Halifax and Yarmouth.
