

Perfect Love
Cast Out Fear

Dear Mary Howth—I am a widow in my early 40s with a married son and a small grandson whom I adore. But I can't show him any love openly or affection for his mother, for she says I try to visit her and she says I am a nuisance.

I have tried every means to be friends with my daughter-in-law and get along with her, but I believe it is useless. I feel she resents me and my own son comes to see me except to obtain a favour. I try to visit her and for these reasons—I am asked to, and when I am asked, I go to her.

I gave them the money to start housekeeping, and later furnished my baby's room completely, as my son could not afford it. I buy gifts for them which are not very costly, but I can't show affection for my grandchild. If he reaches for me, I must not touch him, and I openly insult me, even before her.

FLOUTS RELIGION

My wife and I are in the conditions of Stanley's faith before marriage. But now she has broken them all, and she is a poor marriage to church. She says church is only a graft. Stanley says he is only trying to keep peace with her. He did remark to me that he would like to see me, but I can't understand her attitude.

I have discussed things with my wife, but I told him I would not, for she would only insult me. I am afraid to see her much for them; and they expect me to do for them, as they are so hard to do. I am at my wife's end, and would like your advice. Should I stay here? Or sell out and try to forget them? D. R.

IMPERFECT LOVES

Dear D. R.—This is a case of two imperfect loves, fighting each other, and the result is neglect of children, overlooking debts, poor housing, illness, death of the breadwinner.

Some of the problems handled by social workers are so deep-rooted that they require the co-ordinated efforts of skilled teams including doctors, lawyers, psychiatrists, psychologists, nurses, and dietitians.

Social work reaches out to individuals but it also reaches into the many activities people share as members of groups and of communities, large and small.

Do I believe in the dignity of the individual—his right to respect and to respect for others? Do I believe in his capacity to help himself? Do I want to help people to use their personal strengths to overcome their weaknesses?

Education In Social Work
Is Essential In Canada

This is the time of year when the ideal of welfare for all people, according to Professor Trow, one of the world's great historians, is now a practical objective instead of a mere utopian dream.

The opportunity—Opportunities for employment in social work are almost unlimited. Each year over a billion and a half dollars are spent on social welfare by Canadians. To provide the service for which this money is budgeted, a minimum of 5,000 highly qualified social workers are needed in both public and private agencies.

The plain truth is that only a fraction of these are now available with little prospect of filling vacancies in the near future. The opportunities for advancement in social work for both men and women are excellent. Most positions provide for regular increases, sick leave, and retirement plans. Salaries are on a par with other professions.

The demand for graduates of the School of Social Work, University of Toronto, cannot be met and the variety of attractive and interesting positions is growing each year.

It is why this message is brought to you by the Alumni Association of the School of Social Work, Toronto.

The challenge—This pamphlet is about social work in Canada. It is one of several professional schools within the University of Toronto. Accredited by the Council on Social Work Education and governed by a University Council of the School consisting of the following degrees: Bachelor of Social Work, Bachelor of Social Work, Doctor of Social Work.

Admission Requirements—Graduates of the School of Social Work are particularly interested in you, since they believe you have met the personal qualifications required for admission to the School of Social Work.

BROPHY-TRINOR WEDDING

A very pretty wedding was solemnized at St. Patrick's Church, 243 South 20th St. Philadelphia, Pa. by Rev. Richard B. Ward. The bride was Miss Brophy, daughter of Mr. and Mrs. J. J. Brophy, Toronto, Ontario. The groom was Mr. Trinor, Toronto, Ontario. The bride's only attendant was her sister, Miss Eleanor Trinor, Toronto, Ontario. Every Family Pays For
Its "Built-In" Service

The household maid has virtually disappeared. Today, less than one per cent of our families have maids. More than 90 per cent of the nation's homemakers will tell you they "just can't afford a maid."

Nevertheless, every family pays its part for the "built-in" service connected with the pre-preparation and packaging of "convenience" foods. It's a service that's being rapidly overtaken by a new type of "built-in" service.

What do we homemakers get for our \$6 billion expenditure? Here are a few: a few chickens, turkeys, duck and cornish game hens, ready-to-cook; all kinds of soups and vegetable cans or frozen packages; pre-cooked fresh vegetables; pre-cooked white and sweet potatoes; frozen entrees and complete meals.

Also canned, frozen and refrigerated fresh fruit ready to serve; molded apple salads; cakes, muffins, breads and pancakes; packaged desserts and puddings; bread, cakes, rolls, cookies and candies from the baker or frozen food cabinets.

Some of the glamorous packages used to safeguard these foods cost as much as the contents. Last year we spent over \$3 billion for food consumed in our homes. This year it's over \$4 billion. Of that big increase \$6 billion went for "convenience" foods. The food industry has made two decades ago.

Today's whether it can be afforded or not, we pay for "built-in" maid service, so to speak.

LET'S EAT
Candy Can Be Eaten As
A Dessert With Coffee

By IDA BAILEY ALLEN
"Almost everybody loves candy, when eaten between meals, it dulls normal appetites." I observed one day that I had a perfect solution. I found the way to serve it in place of dessert. When you have your trachea in a pastry roll or do you throw them away? Ah no! Make them into candy.

To do this, press the fragments of pastry into a ball; roll this into a ball. Sprinkle with brown sugar. Bake 7 min. in a hot oven, 400 degrees F.

While cooling, blend 1 c. confectioner's sugar, 1/2 c. chopped nuts, 1/2 c. sugar, 1/2 c. chocolate, 1/2 c. water, or enough to make a thick frosting.

Spread on the pastry hearts. Sweethearts!
