OUT OF THE COMIC STRIPS—Lt. Commander Harry Peck, of Dekalb, Ill., models the first "full pressure" flying suit which will provide pilots with their own earthly atmosphere when flying at extreme altitudes or even in outer space. The suit, developed by the B. F. Goodrich Co., at Akron, Ohio, is made of rubber, with a plexiglass helmet and has its own oxygen and pressurizing system. It has been successfully tested in altitude pressure chambers at a simulated height of 70,000 feet.
