

### ALL GRADUATING STUDENTS

A Master's Degree in Business Administration from McMaster University School of Business could help you to achieve your career objectives in the areas of management, administration, and education because the McMaster M.B.A. program offers a wide range of optional courses (that can be selected to your needs) as well as providing a core of basic knowledge and skills. Although admission is restricted to those who have proven that they have the potential and commitment required to complete a demanding program, graduates in any discipline may be accepted.

Academic standing is not the only entry criterion but, as a general rule, you can have a reasonable expectation of completing the McMaster M.B.A. program if you have maintained at least a second-class standing in the last two years of your undergraduate program and if you can achieve a satisfactory test score in the Admission Test for Graduate Study in Business.

Applicants for the McMaster M.B.A. who have taken relevant course work may be granted advanced standing in our program. If you are interested in exploring this challenging opportunity further, fill in and mail this form —
