Drugs are expensive, Sometimes they are more expensive than need be.

And sometimes they are not so reliable as they ought to be.

There was a time when the prices of drugs were away up—too high altogether.

That is not the case now. The Apothecaries Hall changed that some time ago.

You can get perscriptions from pure drugs at the proper prices— no fancy profits

You can get all my reliable special remedies; they've been tried and found effective.

The price — the main thing —will be found right in every case.

BOUGHTON ISLAND.

Needs a Ferry and Post Office. Its Claims Stated

SIR,—As the columns of your widely circulated journal are always open to the interests of the general public, I desire to say a few words. It is currently reported that some sections receive more patronage from the present Local Administration than others. Under the Peters and Warburton Administration, we received the privilege of a ferry to and from Boughton Island. But this spring and summer we are deprived of that privilege by a Government that styles itself Liberal. I do not consider, Sir, that there is any part or parts of our fair Dominion where there are so many respectable families residing without some communication, or a ferry, as this locality. It is more needful to have a ferry to Boughton Island than either Annandale or Poplar Point—when the people have the mainland to come and go on whenever they please. Was it because some of the rate payers voted against a certain Government candidate at the general local election that this vengeance is wrecked upon us now? If we don't get the privilege of the ferry for the rest or balance of the season there will be less votes for the Government candidate in the near future. We pay our share of the lawful taxes put on us by the Government. Yet we are deprived of the privileges which our neighbors possess. We believe that if tenders were offered for a sail ferry it could be done from this till the closing of navigation for $25 or $30. Say, Premier Farquharson, grant us this small boon.

Another matter which every school district in the Province is enjoying except Boughton Isle viz., postal communication is denied us. Letters or papers for Boughton Island lie in Georgetown post office for weeks. This is a disgrace to the powers that be in this enlighted age, just for the sake of a few dollars. We hope Sir L. H Davies will consider our sad case and help us to get a mail service here ere long.

THE NOVA SCOTIA EXHIBITION.

Big List of Attractions in Connection.

The advertisement of the Provincial Exhibition at Halifax to be held from Sept. 23rd to 30th inclusive, appears in our advertising colums of this issue.

The prize list has been issued and may be had by dropping a postal card to the Secretary. In shows an increase in prizes of about one thousand dollars, principally in the departments of cattle, sheep, poultry, agricultural products and fish. The prizes for grade cattle has been much increased, and the classes resubdivided as in the exhibition of 1897. A number of changes have been made on the grounds, which will be conducive to the convenience of the public. The main entrance has been changed to within easy distance of the cars. An exit will be provided so that the people may leave the grounds direct from the grand stand after the performance afternoon and evening, thus avoiding the congestion and crowding of previous years. The grounds have been laid out in cinder walks leading to all the buildings. In view of the large exhibit of poultry last year, the commission have felt the necessity of a new building, which is now in course of construction. It will embody the most modern ideas, and be provided with the very best appliances and facilities for a large display of poultry. The building will contain over two hundred and fifty coops, and will also have accommodation for the display of canaries, parrots and pet stock. By means of a monitor roof lots of light is afforded with no drafts.

The special attractions will be well up to their usual standard of excellence. Contracts have already been closed with a number of the specialties, including baloon ascensions every day, and the appearance of the guideless pacer, "Tommy" who is turned loose on the track, and paces a mile in 2.07¼ without a driver.

As a big wind up and culmination to the evening entertainment, arrangements have been completed for a grand display of actual British warfare by over two hundred oldiers from the Garrison, representing the Peiwar Kotal an Afghan stronghold on Lord Robert's famous march from Kabul to Kandahar. The production will be something entirely new, and such as could be put on in no other city in Canada. It will be under the supervision of General Lord Seymour, Admiral Bedford and officers in command of the Garrison at Halifax, and under the immediate direction of Sergeant Major Long, the military instructor. Many of the men taking part actually fought at the engagement in question. The war with the Afghans is still fresh in the minds of many, and every loyal British subject will be intensely interested in the grand display of military manœuvres interspersed with amusing incidents in camp life. Withal, there will be fireworks in galore. A full programme every evening of magnificent effects.

Gold in Wei-Hai-Wei.

LONDON, July 25.—Wei-Hai-Wei has never loomed large in public opinion. It has, in fact, been considered as a good deal of a white elephant. Suddenly, however, it has sprung into a position of importance from the discovery of gold in the British sphere. There has been no rush in that direction yet.

Success comes to those who persevere. If you take Hood's Sarsaparilla faithfully and persistently, you will surely be benefited.

ARTILLERY SHOOTING MATCH

PERSONAL.

Mr. and Mrs. David Small, of Charlottetown, P. E. I., arrived in Truro Saturday morning. Mr. Small returned home this morning but Mrs. Small remains a few weeks among friends.—Colchester Sun, July 24.

The late Hon. C. A. Geoffrion belonged to an ancient Canadian family. His first Canadian ancestor was born in 1644, and was married in Montreal in 1680. The second son of this Geoffrion settled in Vercheres in 1899, and the same farm has been held by the descendants down to the present time, or for two hundred years.

A business man is not the most patient creature in the world. He cannot wait to hear any long drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can't be cured, write out a prescription and send in your bill. So, here is the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung disease.

Send 31 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address World's Dispensary Medical Association, Buffalo, N. Y.

The Toronto Globe quotes with evident approval the opinion of a contemporary that "eight thousand dollars is a ridiculously small salary for the Premier of Cadada to receive. Times have changed since The Globe's friends were in opposition. It is now believed by the Globe and its friends that "no objections would be raised in any quarter if the salary were doubled."

NOTES AND COMMENTS.

—Is Fort Augustus to be cheated out of its representation in the Legislature for another year?

—A question asked by the Halifax Chronicle is "who will build a big summer hotel." Some persons in Charlottetown are still asking the same question.

—One of the best informed men in Canada declares that "the necessity for the Senate was never clearer than it is today." That is so.

—Speaking in Toronto in 1897 Sir Wilfrid Laurier told the business men there that a Fast Atlantic Service was arranged, and produced a cablegram from Mr Fielding, who was then in London, saying that the money was up and that the ships would soon start. The whole story as the event has proved was a deceit.

—The expenditure proposals voted by or laid before Parliament this session are the following:

Last year's supplementaries..	$ 2,647,628
This year's estimates.....	46,286,550
This year's supplementaries..	5,497,343
The Drummond.....	1,600,000
Grand Trunk rental.....	140,000
	$56,171 521

There will be supplementary estimates for this year, and a batch of railway subsidies is promised.

"I say," said Sir Richard Cartwright, "it is a disgrace and a shame to the Government that has been entrusted with our affairs that they come down to us and ask for an expenditure of $38,000,000 a year for Federal purposes Sir, the thing is utterly unjustifiable." Yet Sir Richard votes the $56,000,000 without a word.

—The Montreal Gazette refers to the well known fact that though the government very readily assented to an investigation into the West Huron and Brockville election frauds, it is determined that the investigation shall be a sham, and the Gazette adds:

"Those who are now moving in the West Huron case have their witnesses at Ottawa ready to prove their allegations. They are being prevented from starting by the Liberal majority of the committee of investigation, which, by its vote refuses to allow the putting to witnesses of questions, the answer to which would at once establish or destroy the charges of fraud. The main movers in this policy of burking the enquiry, aside from the ministers, are Messrs Russell and Belcourt. Their names are worth remembering. The success of their tactics, in which they are assisted by the whole Liberal membership of the committee, will be to prevent the official proof of charges which their conduct indicates they believe to be true. The machine is too important a factor in securing Liberal success for the party in Parliament to be injured. That is the secret of the Liberal obstruction of the committee's work."

The "Russell" referred to here cannot surely be the eminent, purist Dr. Russell of Halifax.

A refreshing beverage.

Water doesn't seem to quench the thirst these hot summer days. What is more, it is hard to get good drinking water. A most refreshing and invigorating beverage for the warm days is a teaspoonful of

Abbey's Effervescent Salt

in a tumbler of water. It braces you up, and fits you to stand the oppressive heat—makes you feel like work even on the hottest days. It is health-giving, too—regulates the system and tones the appetite.

Sold by druggists everywhere at 60 cents a large bottle. Trial size, 25 cts.

The Canada Lancet says: "This preparation deserves every good word which is being said of it."
