Broadcaster Shows Concern Over BBG Regulations On FM

By RUSSELL ELMAN HALIFAX (CP) — A leading private broadcaster expressed concern here last Board of Broadcast Governors regulation.

Mr. Jamieson, president of the Canadian Association of Broadcasters, asserted at a public BBG hearing in Charlottetown that he would like to see the board's definition in broader and greater detail the categories of programs that will be required at least 20 per cent of separate FM programming to be devoted to arts, letters and science.

Mr. Jamieson said that he thought the BBG should lay down what he thought would be the standards of programming as guidelines for broadcasters. He said that he thought the BBG should also lay down what he thought would be the standards of programming as guidelines for broadcasters.
